After dining as guests of the city, the men took their places on four horse drags, and accompanied by detachments from all local corps and the Thirteenth of Hamilton, the city council, boys' brigade and citizens, they marched through the streets to the Queen's Park. Thirty thousand people lined the streets and cheered vociferously. At the park addresses were read in the presence of another 20,000, and Mrs. Davidson, wife of the colonel of the regiment, pinned a handsome medal upon each breast, and handed each man a purse, containing \$50 in gold. WHEAT EXPORTS WILL BE LARGE. Indications That Europe Will Want All of America's Surplus Wheat.

Washington, D.C., July 15.—The Government crop report, published on Sunday, is of more than ordinary interest, because the crop reports of foreign countries indicate that the United States will be called on for more than their usual share in supplying the world with grain and grain products. Russian official reports make the wheat crop of that country the poorest in years, and estimates of the French crop have been materially reduced. The crop will be below the average, also,

in Great Britain and in Austria-Hungary The visible supply in Great Britain is so low that apprehension exists there lest the home crop shall not be available in time to meet immediate re quirements. The estimated weekly European requirements of wheat, ac cording to Beerbohm, commencing this season, are 6.920,000 bushels. Taking the government crop report as a basis, J. C. Brown, statistician of the New York Produce Exchange, estimates the winter wheat crop of this country at 269,525,000 bushels, against an actual yield last year of 264,339,000 and the spring wheat crop at 172,645,000 bushels, against 163,345,247 bushels last year, making an extimated total crop of 442,170,000 bushels this year, against an actual yield of 427,684,346 last year.
