## THE WEATHER.

TORONTO, Ont., July 25—11 p.m.—

The pressure is comparatively low over the northern portion of the continent and about normal over the southern portion.

In the Northwest the weather has been fine, but from the lakes to the Atlantic thunder storms are occurring. Great heat prevails over nearly the whole continent.

Minimum and maximum temperatures: Calgary, 44°—64°; Prince Albert, 48°—74°; Regina, 46°—74°; Winnipeg, 54°—82°; Port Arthur, 60°—86°; Toronto, 71°—86°; Montreal, 74°—86°; Quebec, 56°—84°; Halifax, 58°—84°.

## TO-DAY'S PROBABILITIES.

TORONTO, July 26—1 a.m.—The indications for the next 24 hours for the lower lakes region (covering the peninsula and as far east as Belleville) are: Moderate to fresh winds, mostly southerly to westerly; generally fine and very warm, with local thunder storms.

## Like Lightning.

The rapid action of the "great pain cure," Polson's Nervine, in relieving the most intense pain, is a matter of wonder to all who have used it. There is nothing surprising in its results, for it is made of the strongest, purest and most efficient remedies known in medicine. Nervine cures toothache instantly; cramps in five minutes; neuralgia after two applications; rheumatism in 15 or 20 minutes; by its use and the same may be said of all kinds of pain. Sample bottles, costing only 10 cents, at any drug store. The large bottle, 25 cents. Polson's Nervine sold by druggists and country dealers.

In China they tie a red cord round a baby's wrists so that he may grow up gentle and obedient. Should a son turn out bad, they say, "His parents forgot to bind his wrists."

## Forty-Five Years Practice.

EDWARD TOWN, U.S.A., Jan. 30, 1880.—"I have been practicing medicine and surgery for 45 years, and have had my prejudices against so-called patent medicines. But being troubled with indigestion and constipation, I tried your Diamond Vera-Cura. It has done me a great deal of good, and I will try it further. I persuaded a distinguished gentleman to use it, and he says he has not felt so well and free from indigestion in ten years as he now feels." A. JOSE, M.D., at druggists' or sent on receipt of price, 25 cents. Address, E. A. Wilson, Toronto.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas' Electric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succumb to its action.

In Persia there is a race of pigmy camels who are only 21 inches high and weigh but 50 pounds.

We have no hesitation in saying that Dr. J. H. Kellogg's Dysentery Cereal is without doubt the best medicine ever introduced for dysentery, diarrhoea, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should keep it without a bottle when their children are teething.

Try their fruits shall you know them. This is an indisputable truth; its applicability has a wide range. The "Don't Norma" cigar is the product of H. McKay &amp; Co.'s cigar factory. They speak volumes for that establishment in its particular line of goods. In these delicious cigars of high quality, the finest of material used, and to a connoisseur are indispensable.

Umbrella No. 1—I am in great trouble. I am completely broken up. Where can I get a B. and M. B. coupon book? If using a B. and M. B. coupon book, if you want to know how it can be done call at the office, 113 Richmond street, or ask any of the merchants using the system.

Children Enjoy

the pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative; and if the father or mother be constipated or bilious, the most gratifying results follow its use, so that it is the best family remedy known, and every family should have a bottle.

## LONDON AND ENVIRONS.

—The various societies of Hamilton will hold a monster demonstration in aid of the St. John's sufferers.

—Mr. Wm. R. Wilson, late of London and Winnipeg, has been appointed agent of the C. P. R. at Calgary, N. W. T.

—Maple avenue, London, South, will hereafter be known as Grand avenue, the property owners having selected that name.

—Mr. Frank Ambrose, who played last summer with Robt. L. Dowling's company, has been signed by Manager Haystack, of the Mills Dramatic Company.

—James Beecroft, formerly a clerk in T. Beattie &amp; Co.'s and Kingsmill's, is serving a six months' sentence in Erie county, N. Y., penitentiary for refusal to support his wife.

—Mr. Edwin Maccomb, late organist of St. James', London, played the organ at Christ Church Cathedral yesterday in place of Miss Ambrose, who is away enjoying her summer vacation. Mr. Maccomb played with excellent taste. [Hamilton Times.]

—Prof. Goldstein and Fraid, graduate opticians, are at the Grigg House, where they will remain for two weeks. These two opticians were having a special display of spectacles should not fail to see them. Room, parlor J.

—A correspondent writing to the ADVERTISER from Stratford says: Mr. H. C. Wilson, of the Canadian Bank of Commerce, met with a painful accident yesterday, by which he received a very severe cut in the wrist, wholly disabling the left hand.

—Miss Ellen Fogarty, aged 19, of this city, died Sunday in Goderich, where she had gone on a visit. She was taken ill with inflammation of the lungs, and the attack resulted fatally in a very short time. The body will be brought home for interment tomorrow. The young lady had many friends here, who will be pained on hearing of her death under such sad circumstances.

—The children of the Protestant Orphan's Home will long remember the kindness of Mr. G. W. Armstrong, who several years past has given them a picnic in the month of July, this year's being held in Queen's Park, where a bountiful supply of cake, fruit and candies gladdened their young hearts. The authorities of the home are very grateful to Mr. Armstrong for his continued interest in their little ones.

—The Burke's Falls Arrow says: "In 1866, when Rev. Geo. Grant, B.A., was appointed inspector of Party Sound, only one pupil presented himself for entrance. This year there were 102 writing for entrance in the districts of Party Sound and Nipissing, and 12 for public school leaving. The number of schools in these districts is more than eight hundred." Rev. Mr. Grant is well and favorably known in this section.

—The morning and evening ADVERTISER reaches between 60,000 and 70,000 persons in a day. How long would it take you to talk to 70,000 people about that lot you want to sell? Allowing half an hour's talk with each one, and half an hour in getting from one to another (a very small time as the ADVERTISER travels all over Western Ontario), it would take, by actual calculation, over 28 years working eight hours every day, except Sundays. The ADVERTISER will talk to them all in one day.

—A cut rate has been made for excursionists who purpose attending the Masonic Knight Templar Conclave, Denver, commencing Aug. 7 next, which reduces the rate to Canadian excursionists over one-third, making a return rate from Hamilton or Toronto about \$24. The Hamiltonian fraternity will be joined here by the Fraters of Toronto, and with the Thirteenth Band will leave on Friday, Aug. 8, by Grand Trunk, being accompanied by the excursionists of Guelph, London, etc., en route. The excursion to Denver and the Colorado mountains promises to surpass all other events of the kind. [Hamilton Times.]

—Mr. James Bone and family, of Paul street, Leam West, had some canned beef for supper Saturday night, and all partook of it, including the guests, Mr. John Phillips and Miss Sissely. They began to feel ill shortly afterwards, and doctors were sent for. It was evidently a case of food poisoning. The victims vomited themselves beyond danger except the young lady, who seemed to be more seriously affected, and needed greater attention. They are all right now. The can had been opened in the morning and the meat left exposed until used in the evening.

—On the invitation of Mr. Scandrett, who is occupying a cottage at Port Stanley, some distance west of the Fraser House, the Y. M. C. A. campers held their Sunday evening service in the beautiful valley near that gentleman's residence. The boys marched down from their camp headed by Secretary Sayer and his able lieutenant, Mr. W. Salmon, and gathered on the veranda steps or seated themselves on the grass, a number of the cottagers helping to swell the audience until in dimensions it rivaled that of many a church. Mr. Sayer led in prayer, Mr. Salmon gave a forcible and impressive address from the first thirteen verses of Matthew, xii, while the Y. M. C. A. lads with flute, harmonica and sweet voices led the singing of several gospel hymns. The service throughout was characterized by earnestness and decorum.

Who Are They?

A Detroit dispatch says: "John Hammond, advance agent of 'The South Before the War,' who was so badly assaulted in front of the Hotel Benedict on the night of May 27, and who spent weeks at Grace Hospital, for a long time hovering between life and death, is said to be dying. Hammond left the hospital last Monday, but did not say where he was going. While walking along Elm street, Cincinnati, a man was seen to totter and fall to the pavement. He was subsequently identified as Hammond. When removed to the City Hospital he became delirious, and has remained in a semi-conscious condition ever since. The men who are supposed to have assaulted Hammond are well-known residents of London, Ontario, and in case he dies they will probably be arrested on a charge of murder."

Promenade Concert.

The citizens should turn out in hundreds to the promenade concert next Thursday evening. Owing to a misunderstanding with regard to the date, Miss Clara Barnes is obliged to postpone her London visit, but a more than satisfactory substitute has been secured in the Arion Male Quartet of Buffalo. The concerted music of this quartet is really beautiful, and in their classical numbers, as well as their humorous encores, their singing is a never-failing source of delight. The Syracuse Express contains the following notice regarding these gentlemen: "The Arion Quartet formed the feature of the evening's entertainment. From the moment they opened the concert to the final strain of their last exquisitely modulated selection, 'Good Night,' they were unstinted praise, and thoroughly deserved it. Their voices blended perfectly, and in 'The Father's Lullaby' the wealth of rich harmony was exquisitely unfolded by their masterly interpretation." For further particulars see advertisement column of this paper and the programmes scattered throughout the city.

Dedicating the New Hall.

Among the finest of the fine lodge rooms in the city is that of the Independent Order of Foresters in Albion block. It has just been completed, and is a credit to the enterprising brethren. Last night it was formally dedicated by the supreme chief ranger, Dr. Oronhyatekha, who was assisted by the following: C. R. Jas. Craig, V. C. R. C. Patterson, P. C. B. Thompson, Chap. Jas. Crawford, S. W. R. Preston, J. W. T. Parks, S. B. D. J. Froman, Mar. S. H. Pratt, East H., Reynolds; West H., Tackabury; South H., Hughes; North H., Hunter. The beautiful ritual prescribed for such occasions was faithfully performed. Addresses were delivered by Bros. W. W. Fitzgerald, W. H. Bartram, Dr. Campbell and others, followed by an instructive talk on Forestry by the supreme chief ranger, which was greatly enjoyed by the large number present. A pleasant incidental feature was the presentation by Dr. Oronhyatekha, on behalf of Bro. Atwell Fleming, of a handsome and beautifully-framed life size picture of the former to Court Victoria, No. 10. The proceedings were happily concluded by an adjournment to Fyeh's restaurant.

A Grand Sight.

Those who had the good fortune to spend Sunday night at Port Stanley, besides enjoying the welcome breeze, were treated to a magnificent spectacle. Soon after sundown the sky toward the south became black with clouds, and as the darkness increased the electric display along the horizon from east to west was awfully grand. The lightning was almost incessant in its vivid glare, appearing sometimes like a broad sheet of flame, then again in straight vertical bars of vivid light, or zig-zagging among the dense masses of clouds. Then again great balls of fire appeared to be tossed about by unseen hands until they were lost in the dark waters of the lake. While the spectators on the Port Stanley heights were taking in the grand display those on the opposite shore of the lake evidently realized the practical effects of the storm, for a Cleveland dispatch of Sunday's date says: "The most terrific thunder storm of the season struck Cleveland about 7 o'clock to-night. The day had been very hot, the temperature reaching 95 degrees in the afternoon. Between 6 and 7 o'clock there was a brief rain storm. It was followed half an hour later by a second storm. Horses and electric street cars were stopped, and the passengers huddled together in alarm. The rainfall must have been nearly three inches, and the streets were flooded with water. The lightning played havoc with telephone and telegraph wires, but so far as can be learned no damage to buildings resulted."

Ten People Fatally Poisoned.

HAVERHILL, Mass., July 26.—Five guests of a party given at the Cable House, Salisbury Beach, on July 20, are dead, and five more are dying. The doctors are not agreed as to the precise cause of the deaths, but it is evidently the result of poison in some form. The only article of food mentioned in the report of the coroner's inquest was the supply of butter beans. The doctors think the beans were not fresh and that the essential oil of pimientos had developed. This is an acute poison.

The Eye.

Professors Goldstein and Fraid, ophthalmic opticians, are coming to the city on a professional visit, and they will be found at the Grigg House for two weeks, commencing July 25, where they will be pleased to treat with spectacles all those who are troubled with defective vision (far-sight). This is a condition in which the eye is shorter from backward than it should be, and as a consequence parallel rays of light are not united in the retina (far-sight). Unless the accommodation is called into play, this is done by a muscular effort and can be maintained only for a short time. When it fails there comes a sense of fatigue and blurring of vision. A sensation of heaviness, which may pass into pain, invades the eyes and forehead. The second is myopia, or near-sightedness, in which the eye is longer than normal—just the opposite of hypermetropia—causing the retina to be situated back of the point at which rays of light from distant objects are focused in the eye, so that only those objects which are near enough to cause their image to be focused as far back as the retina can be seen distinctly, hence called near-sightedness. The third is called astigmatism. This is a condition in which there is an uneven curvature of the eye surface; the rays of light in this case entering in one meridian are focused at a different point to those entering in another meridian, so that the retinal images are thus confused, producing dullness of sight, pain in the eyeball and headache. Sunlight also causes pain in and over the eye, and daylight is almost unendurable when in church or theater on account of the inability to focus all meridians at once in astigmatism. This defect is a source of much greater difficulty than any other visual defect, as the surface of ordinary lenses being curved in different directions cannot correct astigmatism. To correct this defect glasses must be ground that will correct one meridian and leave the other unaffected. Now don't fail to call at the Grigg House and have your eyes examined perfectly free of charge, and those who are unable to call at the hotel, and wishing to have their eyes examined and fitted with glasses can drop a card through the postoffice stating their names and addresses. The opticians will be pleased to call at their houses and have them fitted there at moderate prices. Also artificial eyes inserted.

Hicks—Do Littlejohn and his wife get along well together? Wicks—Yes, when they are apart.

Covered with a Tasteless &amp; Soluble Coating.

Wholesale Agents, Evans &amp; Sons, Ltd., Montreal.

For sale by all druggists.

The annual ceremony of the Trial of the Pyx has just been observed at the British mint. The pyx is strictly a box, and the term is technically applied to the chest at the mint, in which specimens of coinage are preserved. The trial by weight and assay of the gold and silver coin of the United Kingdom prior to its issue is made by a jury of goldsmiths nominated for the purpose by the Lord Chancellor. On this occasion the test included 4,297 sample sovereigns and £420 in silver, representing a total coinage of £5,000,000.

## WHY NOT?

You have corns, warts, bunions, moles or chancres. Why are they not cured? You ask a reasonable question. It demands a candid answer. You have it here: You bought a corn cure. You bought you had Barwell's. But it was not the genuine; you got a counterfeit. It was no more use than water. No, it is your money gone; your money is gone too. You get another and think it is the genuine. You have made a mistake and we are in disgrace. More of your money is gone; more of our money is gone. Your corns are no better; your reputation is better. You make up your mind they cannot be cured. We have lost a customer. You have got hold of the wrong end of the fact. You have got hold of the wrong bottle. Both our money are gone. Not only our money are gone but our opinions of one another are wrong. We don't know you by sight or name. You don't know us. We think "how do you
