BREAKFAST—Sliced peaches. A veal breakfast relish. Roast potatoes. Southern corn-pone. Coffee.

LUNCHEON—Boston brown hash. Brown bread and butter. Green-grape jelly. Tea.

DINNER—Levigne soup. Sirloin steak, with bananas. Baked potatoes, creamed. Cabbage salad. Apple filipaps. Coffee.

Cut out these recipes and paste them in a scrap-book.

A Veal Breakfast Relish—Cut a veal breast into pieces two inches square. Dust with salt and pepper. Dip first into beaten egg and then into cracker crumbs. Put one tablespoonful of butter in a frying-pan and fry the veal in it until browned on both sides. Make a brown sauce in the pan; pour over the squares and serve.

Southern Corn-Pone—Take one quart of white cornmeal. Pour over it just enough boiling water to scald it through. Stir thoroughly and let stand until cold. Rub into it a piece of butter the size of an egg and a teaspoonful of salt. Beat two eggs until light; add them to the meal, mix well; add one pint of milk and a little butter, mix well. Take the same quantity of cold mashed potatoes, half a cup of bread crumbs and a tablespoonful of butter. (If the potatoes and meat have been previously seasoned when cooked no salt will be required.) Into a deep dish put a layer of the potatoes, then one of meat, then the crumbs. Add the butter in small bits, moisten with one-half cup of gravy, put a layer of potatoes on top. Dip a knife in milk, smooth over the top, dust lightly with pepper and bake until brown.

Boston Brown Hash—Cut up the remains of either cold beef or mutton to the amount of about two cupsful or less. Take the same quantity of cold mashed potatoes, half a cup of bread crumbs and a tablespoonful of butter. (If the potatoes and meat have been previously seasoned when cooked no salt will be required.) Into a deep dish put a layer of the potatoes, then one of meat, then the crumbs. Add the butter in small bits, moisten with one-half cup of gravy, put a layer of potatoes on top. Dip a knife in milk, smooth over the top, dust lightly with pepper and bake until brown.

Green-Grape Jelly—Take grapes that are just beginning to turn. Wash in cold water after first picking them from the stems. Add one cup of water to eight pounds of the fruit. Slew until soft. Mash and strain without squeezing through a cheese-cloth bag. Return to the fire, let come to a boil and cook for five minutes. Add a cup of heated sugar; boil twenty minutes; pour into glasses. When cold, seal.

Levigne Soup—Cut two carrots and a small onion into small, thin pieces, and cook until tender in salted water. When done, drain, and add them to three pints of boiling stock free from grease. Beat together the yolks of four eggs and one-half pint of cream, add a scant teaspoonful of salt and half a tablespoonful of pepper to the soup. Remove from the fire, stir in the eggs and serve.

Steak with Bananas—Broil a sirloin steak, place on a hot platter, spread both sides with a tablespoonful melted butter, mixed with one teaspoonful of salt, one-fourth as much white pepper, and a half a tablespoonful of oil of grated horse-radish. Pare three bananas and split lengthwise, fry in butter and lay them over the hot steak.

Baked Potatoes Creamed—Bake eight good-sized potatoes one-half hour in a hot oven; scoop out the inside; beat at once, with one-half cup of hot milk, a tablespoonful of melted butter and a teaspoonful of salt. Heap on a plate,

with folded hands, was lowered backward by the clergymen and completely submerged. He was quickly brought to the surface, and after wiping the water from his face, was escorted back to the shore, amid renewed singing. The ceremony was repeated for each candidate. All bore the ordeal with courage and self-possession, though one elderly lady was momentarily embarrassed by the suspension of breath under water. Fortunately the river was warm, so that physical discomfort was minimized. The party adjourned immediately afterwards to their headquarters, where devotional exercises were resumed.

Will Finish the Work.

The Wellington Street Improvement to be Completed.

The Pernicious Ward System Denounced by Aldermen.

Special Meeting of the City Council—Ald. Parnell's Telling Defense of the Board of Works—Ald. Cooper Relieved of His Trouble.

The city council held a special meeting on Saturday afternoon, principally to consider ways and means of finishing the work on Wellington street. Ald. Parnell, chairman of the board of works, explained that \$1,700 had been set apart for Wellington street, from the city limits to the G. T. R., to put that thoroughfare in a safe condition. Later on about \$500 was spent on that portion from the city limits to Clark's bridge; an under-drain had been put in, and the road had been graded and gravelled. The work from Clark's bridge to the Grand Trunk was referred to the engineer and the members for Nos. 1 and 3 wards, so that he (Ald. Parnell) did not hold himself responsible for that section. On Aug. 20 the city engineer wrote him that the funds for this purpose had been spent, and the grading of the street was two-thirds done. The speaker got the members to agree that it was his duty to announce to the board of works the fact that the street was unfinished, and that it would take about \$500 to complete it. Ald. Parnell pointed out that at the beginning of the year \$4,115 was appropriated to each ward. Of this following sums had been expended in each ward:

No. 1 ward.....\$2,243 34
No. 2 ward.....3,829 29
No. 3 ward.....3,647 76
No. 4 ward.....2,636 46
No. 5 ward.....2,922 17
No. 6 ward.....3,622 32

In addition, \$344 had been spent for asphalt sidewalks on No. 3; \$105 additional on No. 4, and a trifling amount on No. 6. In all the wards there was work that should be done, and must be done. They had to face the fact that there was no money for finishing Wellington street unless taken out of the appropriation for No. 1 ward.

In reply to Ald. Bennett, Ald. Parnell said that the engineer's estimate for the work was \$3,000. Where the balance was come from was not specified at the time, but there was nothing else to draw from but the ward appropriations.

Ald. Olmstead thought No. 1 ward should supply the required money out of its appropriation.

Ald. Bennett said this was one of the results of the inequitable ward appropriation scheme. No. 1 did not require as much money as other wards, because it was more compact and in better shape. He moved that the work on Wellington street be proceeded with, and the funds taken out of No. 1 ward's appropriation.

Ald. Bennett seconded. He said No. 1 and No. 3 wards had received the benefit of the appropriation.

Ald. Cooper said No. 1 had no right to a dollar more than any other ward.

Ald. Carrothers moved that the engineer proceed with the work and charge it to the general fund.

Ald. Taylor mentioned something about the money being squandered by the board of works on other work.

Ald. Parnell promptly took up the statement. In Ald. Taylor's regime, he said, the annual expenditure of the board of works was \$90,000, and the citizens knew well that they never had a dollar more than they needed.
