Toronto Wheelmen in Town.

About 70 cyclists passed through the city this morning on Dr. Doolittle's century tour. The route was from Stratford to Toronto. A stop was made at the Grange House for lunch at 10 o'clock. All the boys ate heartily. The only result of the trip as far as they had got was the accumulation of a great deal of dust. None felt otherwise than in good condition. "But Mac," as he is familiarly termed, was so jovial as ever. He was enthusiastic over the day's outing, said that he had never enjoyed a bicycle trip more. The roads were in perfect condition, and a gentle breeze had uniformly tempered the heat of the sun. Frank Pease seemed to be a personification of good humor. He presented quite a comic figure on his wheel. He wore a cap of big red and white stripes and a linen blazer of peculiar make. Fred, editor of Cycling, said that he might be a little bit dusty, but was in great trim just the same. The party left for Stratford, where dinner was to be taken at 11:30 a.m. Dr. Balfour had accompanied the party from Stratford, and J. A. Tunn joined them here. Both went to Sarnia.

THE VICTORIA'S CREW

Arrives at Valletta, Malta—Cheered by the Crew.

VALLETTA, Malta, June 30.—The British cruiser Edgar, of the Mediterranean squadron, arrived here to-day, having on board the surviving officers and crew of the battleship Victoria. Hundreds of small boats conveying relatives and friends of the crew were in the harbor to meet the survivors. The survivors crowded along the bulwarks of the cruiser, calling to their friends in the small boats. Cheers upon cheers broke from the crowd on the shore, and they were taken up and repeated by those on the cruiser. Business was partially suspended in the city. A number of natives of Malta were in the crew of the Victoria, and it is known now that 90 Maltese went down with the ship.
