MUSIC AND DRAMA

"FROM SCOTLAND YARD" TODAY.

Today, at the New Grand, two per-
formances of the sensational melo-
drama, "From Scotland Yard," will be
offered. The company, which is
said to be an exceedingly good one of
its class, carries a full card of
scenery, there being some thirteen
scenes in the production. The prices
announced are: stalls, 50c and 75c;
matinee 25c and 50c (children); even-
ing, 50c, 75c and 1.00.

"THE BONNIE BRIER BUSH."

The following opinion of "The Bon-
nie Briar Bush," taken from The Ad-
vertiser of Wednesday, Oct. 9 of this
year, was written by a special corre-
spondent of this paper, who witnessed
the play in New York and was most
favorably impressed with it. "This was
before the possibility of its appear-
ing in London was ever thought of,
and therefore the sentiments ex-
pressed may be taken as an impartial
opinion, uninfluenced by any consid-
eration of its effect on a future en-
gagement in London."

"I went to hear the dramatized ver-
sion of 'The Bonnie Briar Bush,' Ian
MacLaren's Scotch story. It has been
dramatized by John G. Stoddard, the
leading actor, Mr. J. H. Stoddard, who
takes the part of Lachlan Campbell,
a Highland sheep farmer, reminds you
very strongly in personal appearance
as he is made up for the part, of our
veteran townsman, Samuel McBride.
He is a capital actor and brings out
strongly the kind heart coupled with
the determination to do his duty, as
he thinks he sees it, at no matter what
cost. He was wrong, but believed he
was right. How often this happens?
I remember a point once made by the
late John B. Gough in one of his lec-
tures. I think his title was 'Circum-
stances,' and with many illustrations
he drove home the wisdom of the fact
that it is always best to 'suspend your
judgment until you know all.' Had
Lachlan Campbell done so, or had
his religious convictions not been
so cocksure, if he had not been like
Dr. MacLure, a character well taken
by Mr. John Jennings, he would have
saved himself and others much bitter
suffering. To think you are right is
not always to be right. Perhaps the
most pleasant part of the entertain-
ment was the fact that Reuben Fax, a
brother of the late Sam Fax, of Lon-

don, introduces nearly all the humor
there is in the play. He takes the
part of 'Posty' Archibald McKintick,
and takes it well, fairly dividing the
humor with Stoddard, and I don't
know that the fact that his intended
Scottish accent is flavored with Irish
takes away any of the enjoyment. I
think he is the best actor that London
can claim to have any special interest
in. His voice is clear and distinct,
and being near the front I had a good
chance to note that his facial expres-
sions correctly interpreted the feel-
ings by which, for the time being, he
was possessed. I was pleased with his
ability, and pleased that the 'full
house' at the Theatre Royal, which he
himself amplified. I was told that
about 400 free invitations had been
sent out for one entertainment, to the
company of New York, and that
many of them availed themselves of
the chance to see the dramatized ver-
sion of the book, over which, when
reading it, so many quiet tears had
been shed. They were well pleased."

CLOSING THE ENGAGEMENT.

Tonight at the London Opera House,
the company of Scotch Stock company
close their engagement at a performance
has been a very successful one. The offer-
ing will be "Triss, the Mountain Waltz."
The company, in which Miss Fozzie
Stevens will be seen in the title part,
and James A. Callahan as the funny
Dutchman. An entire change of spec-
tacle will be given, also Erna's latest
entertainment, "Butterfly Dance," which is
a strong feature of the show.

FOR THANKSGIVING DAY.

The Birmingham, N. Y., Journal, in
speaking of "That Dainty Widow,"
which will be produced at the London
Opera House Thanksgiving Day, says:
"That Dainty Widow," which has
been a very successful one. The offer-
ing will be "Triss, the Mountain Waltz."

A VALUABLE VIOLIN.

If the quality of music produced
from violins by the wizards of the
bow were regulated by the value of
the instrument, the strains brought
forth by Mme. Urso should be ravish-
ing enough to realize one's ideas of an
angelic orchestra, for her violin is a
Guarnerius del Jesu, the same make as
Paganini's violin, which is kept in a
glass case at Genoa, as one of Italy's
most cherished treasures. It is diffi-
cult to fix the value of such an instru-
ment, some rating Urso's as high as
\$50,000. She has several times been
offered \$50,000 for it, but money would
not induce her to part with it. The
value of the bow with which she coaxes
these heavenly melodies from her vi-
olin is fixed at \$500, although she had
one which she presented to Joachim,
which was worth twice that amount.
Camilla Urso appears at the Auditor-
ium on Monday evening, Dec. 2.

CONSIDERED ACQUITTED.

Seattle, Wash., Nov. 22.—The jury in
the case of John Considine, accused of
the murder of Former Chief of Police
Merrell, has returned a verdict of
acquittal.

SENSATIONAL ARREST.

Montreal, Nov. 23.—A sensational arrest
is on the tapis, a warrant having been
issued for the arrest of a trusted female
employee of a jewelry house, who is sus-
pected of having got away with \$60,000
worth of goods, of which \$5,000 have been
recovered. The warrant charges the
woman with stealing goods to the
nominal value of \$1,000.

FIRST VISIT IN 30 YEARS

Well-Known Clothing Manufactur-
er in the City Today.

Thinks Demand for Higher Grade
Wares is Satisfactory Evi-
dence of Prosperity.

Mr. J. B. Grafton, founder and head
of the firm of Grafton & Co., wholesale
clothing manufacturers, of Dundas, is
in the city today for the first time in
over 30 years. Seen by an Advertiser
reporter, Mr. Grafton said:
"Yes, this is my first visit here in
over 30 years. I very seldom come
west this way, and when I do come
I go right through London. Of course
I see a great many changes here, and
they are all improvements."

A query as to the progress of his
business, Mr. Grafton replied: "I
have been in business in Dundas nearly
50 years ago—45 years, to be ex-
act—and the business has increased
steadily all the time. Fifteen years
ago we launched out of our own
establishment, retail stores in different
centers. Up to two years ago we let
out the manufacture of all our clothing,
but now we have our own factory
where all the cutting, button-holing
and pressing is done, as well as all
the other work turned out by us. Our
factory is of course run entirely by
union labor. We get all our styles
from the leading American manu-
facturers, who lead the world in ready-
made clothing."

Asked as to the general condition
of his business interests, Mr. Grafton
replied that he was well satisfied with
the progress of his business, and that
as his branches in other cities, he
says that the latter qualities of goods
are coming more into demand and
finding a ready sale than ever be-
fore, thus showing the general pros-
perity which exists.

SPOILED AN EXPERIMENT FOR DR. BARNEY.

New York, Nov. 23.—Tuberculosis
experiments by Dr. George D. Barney,
of Brooklyn, which aroused consid-
erable indignation when he announced
recently that he had inoculated a
young woman with the disease, were
brought to a sudden close by Dr.
Robert A. Black, head of the board
of health in that borough, who seized
a cow on which Barney has founded
his work. Dr. Barney combats the the-
ory of Dr. Koch, the eminent German
medical authority, that consumption
cannot be communicated from a lower
animal to a human being, and with
that end in view he inoculated a cow
with the disease and kept her in his
laboratory to watch the progress of the
disease. The cow had become very
sick, and he was preparing soon to
hold an autopsy on her when the
agents of Dr. Black pounced on the
creature and carried her away to the
public pound, where it is said she will
be destroyed.

PREVENTS AND
BREAKS UP

GRIP

A New Form of Grip Epidemic.

Within the last week the physicians
of this city have made the discovery
that Grip in a strange form is epi-
demic. The attack is accompanied by
pains in the muscles, particularly of
the arms and shoulders, which suggest
the twinges of rheumatism. Vague
sensations in the chest of a very un-
comfortable description induces a
"gone" and forlorn frame of mind.
There is a sharp cough, but the most
distressing features of ordinary grip
are lacking.

The prompt use of Dr. Humphreys'
Specific SEVENTY-SEVEN ("77") will
break up the worst attack of Grip and
Colds.

Attack On the City Is Expected—Isthmian

Colon, Nov. 22.—The latest news ob-
tainable here is to the effect that the
Liberal, Gen. Lugo, has arrived at Em-
budo, a distance of twelve miles
from Panama, with a force said to
number a thousand men. An attack on
that city is expected momentarily.

It is believed that the government
has addressed a communication to the
United States consul, setting forth
that it cannot guarantee protection for
Isthmian transit.

Washington, Nov. 22.—The answer of
the Colombian Government to the re-
presentations of Consul-General Guder-
er, to the effect that the government
was unable to guarantee the integrity
of the railway communication across
the isthmus, was purposely developed
in order to make perfectly plain the
fact that the United States was thor-
oughly justified in landing its forces
at Colon.

A Teamster's Story.

Suffered Greatly From Asthma and
Kidney Troubles.

Spent Some Time in a Hospital and
Almost Impoverished Himself Buy-
ing Medicines Without Benefit—Again
Dr. Williams' Pink Pills Cure After
Other Medicines Fail.

[From the Recorder, Halifax, N. S.]
Mr. Wm. Cochrane, a well-known
teamster, who lives near the Halifax
Police Station, has been a sufferer
longer than twenty years from the curative
powers of Dr. Williams' Pink Pills. A
reporter of the Canadian Recorder who
has heard of Mr. Cochrane's sufferings
and subsequent cure, called at his
home, when he gave an account of his
trouble, substantially as follows:
"I have had for many years been a con-
stant sufferer from asthma, accom-
panied by an aggravated form of kid-
ney trouble. The latter trouble caused
my severe pains in the back, and at
times his sufferings were very acute.
He said he had almost im-
poverished himself in buying medi-
cines, but they did him no good. The
trouble continued, and seemed to
grow worse as the years passed. Mrs.
Cochrane said that she had frequently
seen her husband choke up and fall
to the floor as though dead, and he would
have to be worked with and rolled
around before he would revive. A few
years ago he spent ten days in the
Victoria General Hospital. The doc-
tors then thought that the pains in
the back were due to over-exertion in
his business, and they gave him no
material help. After leaving the
hospital he used bottles and bot-
tles of medicine, but failed to find a
cure. A neighbor, who was a well-
known doctor, advised him to use
Dr. Williams' Pink Pills, and he began
to use them. He said he had almost
impoverished himself in buying medi-
cines, but they did him no good. The

material help. After leaving the
hospital he used bottles and bot-
tles of medicine, but failed to find a
cure. A neighbor, who was a well-
known doctor, advised him to use
Dr. Williams' Pink Pills, and he began
to use them. He said he had almost
impoverished himself in buying medi-
cines, but they did him no good. The
trouble continued, and seemed to
grow worse as the years passed. Mrs.
Cochrane said that she had frequently
seen her husband choke up and fall
to the floor as though dead, and he would
have to be worked with and rolled
around before he would revive. A few
years ago he spent ten days in the
Victoria General Hospital. The doc-
