NEW YORK, Aug. 28.—Stocks opened at a higher range today, with especial activity in Steel and Reading, but selling pressure and realizing for profit soon obliterated most gains. The character of the trade of the steel of obliterated most gains. for a crossing at Alelaide street over the C. P. R. This matter is now in the hands of the company's solicitor, Mr. C. H. Work Is Progressing.

"We are progressing with the work very well," said Manager C. B. King. "We have the north end extension practically completed, and we will commence double-tracking Horton street almost immediately. Then we will double-track the Hamilton road. With this completed, we will be ready to remove the Wellington street line. We expect to have all the changes completed and the various routes operated by Dec. 1." An injunction will undoubtedly be issued against the company if the Wellington line is changed. A number of property owners along the street have engaged Mr. J. M. Mc-Evoy to look after their interests, and they will in all probability fight.
