The National Institute of Sciences of London, England, has appropriated \$25, of 1000 toward a fund for the free distribution of Prof Knowles' new book, "The Key to the Development of the Inner Forces."

The book lays hare many astounding facts concerning the practices of Eastern Yogis, and explains a wonderfully simple system for the development of Personal Magnetism, Hypnotic and Telepathic Powers, and the curing of diseases and habits without drugs. The subject of practical character reading is also extensively dealt with and the author describes a simple method of accurately reading the secret thoughts and desires of others though the social system of the book and character requesting copies of the book and character delineations in dicate clearly the universal interest in Psychological and Occuit Sciences.

To Fight On.

The Opposition will resist to the tmost any attempt in the Commons to apply the gag in order to force through either the naval bill or supoly without constitutional warrant, without adequate discussion, and conlieve that the only way to finally solve the two big issues now before the country is to appeal to the people. If this cannot be forced in the Commons, then the last resort will be to the Senate, whose chief function is to safeguard the interests ofthe people against arbitrary or hasty legislation in the Commons. The fight is by no means over. Next week it will simply enter another and probably an even more dramatic stage.

Hon. W. T. White, minister of finance, will bring down his budget speech the week after next.
