BUTTER GETS DEARER—IN SPIKE OF SUPPLY

Further Increase Expected—Fresh Eggs and Lettuce in Great Demand.

While the attendance of buyers and sellers on the local market this morning was not large, it was larger than was expected.

On account of the farmers being in the midst of seeding, it was predicted, that today's market would be small. The rain early this morning, however, offset any calculations farmers had made as to pushing the spring work, hence the increased attendance. The supply of butter was larger than that of any day this week; notwithstanding that fact, prices advanced, roll butter being quoted at 30c per pound and crock butter, at 28c and 29c. The demand is strong, and with the opening of factories and creameries in the next week, prices are due for a greater advance.

Fresh eggs were scarce and sold firm at 20 and 21 cents per dozen. Rhubarb was offered in large quantities, but the prices remained unchanged as there was an increased demand.

Lettuce was scarce and demand was greater than the supply, the prices of green onions, watercress and parsley remained unchanged.

Patatoes and apples were scarce and the prices were slightly firmer. A smaller supply of cabbages than usual was offered, but the prices did not change.

Veal dropped slightly in price, quotations ranging from 12 to 13 cents per pound. Sales were slow. Other butchers' meats were unchanged in price.

Flowers were in great profusion, and sales were made briskly. The demand being exceptionally keen.

Winnipeg, April 24.—Wheat prices were generally stronger during the greater part of the session today, as the opening prices hardened on a good export inquiry and some sales were transacted, although heavy rain and the sales were somewhat heavier on Thursday. The bulk of the stuff sold will be shipped to the continent. Prices weakened at the close.

Wheat opened 1/2c lower to 1/4c higher and closed unchanged to 1/4c lower.

Cash wheat was in fair demand, but there were few offerings. Cash oats were in good demand, while flax was quiet. Cash wheat closed unchanged to 1/4c higher for contract grades. THE EXCHANGES.
New York, April 25.—(Wall Street)—The market today closed firm. Stocks were mostly active as they could be absorbed without bringing about a bad break. The more stable market for American stocks was a result of the heavy foreign selling that steadied the list at the opening, but after the market turned downward it continued to decline until shortly before the close, when there was a rally. Speculation was again dominated by the Mexican news, and the preparations of the Government for war depressed sentiment. Bonds were affected as well as stocks.

New York, April 25.—Wall Street, 10:10 a.m.—For the first time in several days the London cables reported a fairly steady market for American stocks. Instead of the successive declines which have depressed quotations here, the home market in consequence made a better showing at the opening than on recent sessions. First prices were irregular, but there was a majority of small gains. Canadian Pacific and New Haven, which have been conspicuously weak recently, rallied about 10 points each in an hour's trading, most of the popular shares were at the bottom figures for the long decline. With a few exceptions early losses were only fractional.

New York, April 25.—The statement of the actual condition of clearing house banks and trust companies for the week shows that they hold \$30,254,000 reserve in excess of legal requirements. This is an increase of \$8,576,000 from last week. The statement follows: Actual condition—Loans increased, \$7,691,000; specie increased, \$12,213,000; legal tenders decreased, \$215,000; net deposits increased, \$14,242,000; circulation decreased, \$155,000; excess legal reserve, \$30,254,000; increase, \$8,576,000. London, April 25.—The stock market opened flat today under further liquidation and the failure of an old-established firm of jobbers. The tone, however, was distinctly better yesterday, and the market resisted selling pressure. Prices improved around noon on covering operations. Americans going over partly, but the last hour brought a general reaction due to realizing. Consols closed at 107 1/2, eighth lowly at 107 1/2. Canadian Pacific finished 1/4 higher and prices generally from 1/4 above to 1/4 below parity. Money was unchanged and discount rates were harder.
