THE FISHERIES TREATY.

Debate in the United States Senate Resumed.

Washington, Aug. 9.-In the Senate to-day Mr. Everts resumed his argument against the Fisheries Treaty. The position which should be taken by the United States was, he said, to insist that the United States had always rejected the head land theory, and do not tolerate the claim of right on the part of Great Britain to make a bay by calling it a bay, and to shut out of it American fishermen, and then there might or might not be an opportunity to find out what Great Britain meant.

Mr. Frye represented the manner in which payment of duties on preserved fish frozen in a lid and introduced duty free as "fresh fish for immediate consumption."

Mr. Morgan said that the object of destroying the treaty at once was nothing more nor less than political, and was connected with the Presidential election.

Mr. Morgan declared, sarcastically, that if there was to be no war with England or Canada until the discussion on the treaty ended, war would be postponed until the destruction of the world by fire, or till a deluge came again.

Mr. Hale criticized Mr. Morgan's position and that of the Democratic party on the treaty, and said that there was no demand in any American quarter for free fish.

After some further debate the day's discussion came to a close, and the Senate at 5:30 adjourned.

Messrs. George Burgess and L. Meredith asked for a new sidewalk on Queen's Avenue, in front of the Club. They were advised to petition the Council, as the appropriation was pretty well expended.

A number of ratepayers from the north end of the city applied for some remedy for the water brought down by a creek rising east of the brick yards, and entering Carling's creek near Wellington.

Ald. Taylor said Mr. Winnett offered a right of way through his property for \$500. The Committee decided to go and view the property on Monday.

A meeting of No. 2 Committee of the Board of Education was held last night. Present - Messrs. Howard (Chairman), Frank Lowe, Wright, J. M. Wilson, H. Childs, J. H. Wilson, and Secretary Abbott.

The principal subject of discussion was an editorial article in the Free Press about the coal contract. After denouncing the article as untrue and misleading, Mr. Howard retired from the chair in favor of Mr. Childs, and the following resolution was passed:-

"Moved by Mr. Lowe, seconded by Mr. J. M. Wilson-That this Committee desires to record that the writer of the editorial on the contract in this morning's Free Press is totally misinformed as to the fact. The Committee were duly authorized to let the contract; they delegated their power to a sub-committee, Messrs. Howard and Dr. Wilson; those gentlemen let the contract to the lowest tenderer in a proper manner and in the name of the Board of Education; they confirmed their action, and fully exonerated Mr. Howard from any share of unfairness and impropriety in connection with the matter." Carried.

The Secretary was instructed to notify the City Council that the Committee cannot get their way clear to give up possession of the Central School until further accommodation was provided elsewhere.

The resolution of the Board of Health recommending the use of city water in all the schools was dismissed, but in view of the expense of laying the main to Park Street School, Mr. Childs was authorized to have a well sunk there.

Teemer First, Gaudaur Second. Baltimore, Md., Aug. 9.-A single scull race for a purse of \$1,000 was rowed this afternoon at Round Bay, a pleasure resort on the Severn River, about thirty miles below this city. The contestants were Teemer, Hosmer, Gaudaur, Hamm and McKay. The course was three miles with a turn. The scullers got a good start. Gaudaur at once took the lead, but Teemer soon spurred, and took the turn first. At the turning stake Hosmer was close up to the leader, but was fouled by Hamm, who then gave up the race. Hosmer made a strong fight, but was unable to finish better than third. Teemer crossed the line first, a length ahead of Gaudaur. Time, 30:55.
