There is every evidence of a general election by events that have come to pass within the last few days. The most significant sign of the fact is the unusual activity of the Government members in their respective constituencies since Monday last.

Sir Wilfrid Laurier must have conveyed a command, judging from the way in which the members are hurrying to and touring their counties. . The interest they manifest in their chief supporters is also significant, as well as preparations for public meetings to follow the New Carlisle public assembly, at which Premier Laurier will speak, and no doubt enunciate his cam-

Estimate of the Western Wheat Crop

HARVESTING HALF OVER

Even If Frost Comes Crop in Mani toba and Territories Will Equal Last Year's.

Montreal, Aug. 31.-F. W. Thompson, of the Ogilvie Milling Company, said to-day that conditions had vastly improved in the West within the past week, and that allowing for all rust damage and depreciation, he believed from exhaustive reports he had received that Manitoba and the Territories would have a crop of 58,000,000 bushels of wheat, or an increase of 5,000,000 over last year. "If frost comes," said Mr. Thompson, "the worst we can look for is a crop equal to last year's. Some very flourishing reports have been received by the Ogilvie Company, and one place re-ports the fullest and best crop on

ecord."

ARVESTING IS HALF FINISHED.

Winnipeg. Aug. 31.—The Canadian Korthern Railway crop report for this yeek again indicates that the loss from HARVESTING IS HALF FINISHED. Northern Railway crop report for this week again indicates that the loss from rust will not reach the figures formerly estimated. The complaint is not general, and where sust has affected the wheat the damage is comparatively small. No frost has yet been reported from any source. The Rainy River section is reported to be entirely free from rust. There has been no frost is this district, and with favorably weather, no delays in harvesting operations have been reported. In the Bandon section good weather has prevailed and farmers are occupying every spare moment with grain-cutting. Damage from rust is reported at Roland and Rosebank, but it is not thought that it will cause very much loss. The crops at Miami will be reduced by about 30 per cent. From Swan Lake to Wawansea cutting is general. There are light indications of rust there, but the wheat was too well matured for it to cause any serious lamage. From Wawansea to Brandon conditions have been excellent. No frost is reported or damage from rust or any other cause. It is estimated to-day that harvesting in the West is

bout half over.

Imperial Oxford Range

The ornamentation of the Imperial Oxford is of the most modern style, and the judicious use of beautiful nickel work has made the general appearance very attractive. It is undoubtedly the easiest range on the market to keep clean. In connection with this handsome stylishness, the Imperial Oxford Range offers advantages and improvements not found in any other make.

SUICIDE FOR SPITE

Features in Connection With the Toronto Junction Tragedy. Toronto, Aug. 31.-Angered and re

vengeful, because his lawfully wedded wife sought his society and demanded support, Joseph Parmenter, of the Sandwell Plains, Toronto Junction, deliberately set fire to his premises and then committed suicide by shooting himself through the heart with a revolver on the morning of Aug. 26, last Friday. This was the tenor of the evidence presented before Coroner Clendenan's jury at the inquest last night, and the verdict was given accordingly. The repeated attempts of mutual friends to effect a reconciliation between himself and his wife led him to fulfil oft repeated promises to

kill himself. Mrs. Parmenter, widow of deceased, gave her evidence in low, tremulous Haileybury," added Mr. Gibson. ones. At one time her husband threw a lighted lamp at her, she said. Gibson, director of Mines, who has been up to New Ontario with the town sites commission, of which he is a member, brings back a glowing story of the resources of that section. "I visited the deposits of native silver south of ores also contain cobalt, nickel and arsenic. I doubt if there is any place claims to have taken \$70,000 worth out it is undoubtedly a great thing. The line runs through these locations-in fact it was discovered solely by the building of the railway."

APPEAL DISMISSED

St. Thomas, Ont., Ang. 31.-Judge Hughes, official referee of the liquidaion proceedings in connection with the winding up of the Elgin Loan Company has given judgment dismissing the appeal of the shareholders who asked to have set aside the order compelling them to pay up their stock to fifty per cent. They claimed that under the by-laws of the company they could not be compelled to pay more than 20 per cent. of the stock.
There will likely be an appeal. The
