(From our own Correspondent.)

Ottawa, March 23.—In the Senate, today, Hon. Mr. Reed inquired if the British or Canadian Governments would bear the expense of indemnifying British sealers for the damages sustained by them after being warned against killing seals on the high seas, last year?

Hon. Mr. Abbott replied as follows: "This matter has been under discussion between the two Governments more or less since the date at which the order was issued for the restriction of the killing of seals, last year. The correspondence is not in a position to be brought down, and I am not, myself, prepared to state exactly the condition of the negotiations, but I desire to say that the Government of the United Kingdom has taken on this question."

Several bills were advanced a stage, among them being one renouncing the Departments of Marine and Fisheries. In the course of the discussion on the bill Hon. Mr. Abbott announced that the decision to renounce the departments had been reached before any question had arisen as to the manner in which the late Deputy Minister, Mr. Tilton, had performed his duties.

Premier Abbott informed a deputation of members who interviewed him and urged that a greater appropriation for immigration be made, that the Government expected a large influx of immigrants, this year, and would engage in a bold and vigorous policy. He intimated that the Canadian Pacific R.R. had decided to grant reduced rates from the maritime provinces to the North West. The proceedings in the House were terminated today, Mr. Tisdale questioning Mr. Gorman's right to sit in the House. He said the statute was clearly against him, and therefore moved that the Speaker issue a writ for Warrant. At the request of Hon. Mr. Laurier, the motion was allowed to stand for a day.

The budget debate was resumed by Messrs. Bennett and McMillan, Mr. Hughes following.

It is reported, to-night, that the strike on the Canadian Pacific has been settled, the company having compromised with the conductors.

Joseph Lemieux, Conservative, and two Grits, Messrs. Proulx and Cloutier, were nominated in Preston to-day, Mr. Lemieux's election is sure.

Hon. Mr. Coughlin will introduce a bill to fix the standard sizes of milk cans, also to provide for the inspection of imported oils to the benefit of free trade with the United States. They are, nevertheless, not to be sacrificed to the Canadian industry of securing it.

When in Washington, many on this side of the Atlantic were told that any reciprocity with the States would be a disaster, and that it must in its nature be a disaster against Great Britain. It is now very properly objected of revenue which the administration of the United States, as well as raw, would constitute direct taxation by the Government.

As a British subject, consent to the United States in matters of revenue to such a degree would mean the loss of the United States as an emigrant people, and would quickly mean the loss of the United States as a people living under the protection of British arms, and acknowledged reciprocity, discriminating against the United States.

But the Government and the people of the United States would not be so easily deceived. They would not be so easily deceived as to the United States as a people living under the protection of British arms, and acknowledged reciprocity, discriminating against the United States.

THE STRIKE OVER.

Matters in Dispute to be Arbitrated Upon by a Committee of Engineers.

All the Men to be Reinstated Except Those Guilty of Gross Insubordination.

WINNIPEG, March 23.—The Canadian Pacific strike of the trainmen and conductors has been settled, and the men go to work at once. The difficulty was adjusted by the engineers of this division, who were working day and night to bring about a settlement.

The basis of agreement is as follows: "All men who have been discharged, and who have gone on strike, also any employees who have been discharged for refusing to take the place of any striker, or who have voted to strike, to be reinstated, without prejudice. It can be shown to the Committee of Engineers, who have mediated between the Company and the trainmen, that any of the strikers committed an assault upon any official of the road, he is to be dismissed." This is to apply to the Pacific and Eastern divisions, as well as to the Western Division. A committee of five engineers named Kennedy, Watson, Broach, Brownlee and Pope are to arbitrate on the points on which the Committee and the Company differed, namely, the compensation to be paid to freight conductors of three cents per mile and detention time to trainmen, to count after ten hours have been occupied in running ten miles. The arrangement between the General Superintendent of the Pacific Division and the Committee, that the time rates on the Western Division are to be taken as those on the Pacific Division, is to be carried out, unless in the meantime the Committee and General Superintendent of the Pacific Division have already settled the matter. The terms of settlement are generally agreeable to the General Superintendent Whyte and Chief Clerk, of the Conductors, and Master Wilkinson, of the Trainmen. Telegrams have been forwarded to the C.P.R. calling the strike off, and in this city the men are returning to work. Grand Chief Clerk, Grand Master Wilkinson, Grand Secretary, Treasurer Shearer, and General Superintendent, will remain in Winnipeg for a few days to clear off the work on hand.

YAKOVLEV, March 23.—There were 600 people crowded on the platform to see the Express off to-day. George McL. Brown conducted the train. At noon there were rumors that the strike was over. Enquiries elicited the fact that G. E. Kesteven had received a message from leading members of the Brotherhood in Winnipeg: "An agreement settling the strike has been reached, all the men being reinstated. The men who struck off to return to work at once." At 4 o'clock Mr. Abbott was advised by wire to instruct all the men on strike to report for duty. This was done, those guilty of gross insubordination being informed that their services were not required. The basis on which strike was settled is a yet unknown. General satisfaction is expressed here at the termination of the strike, as serious results were anticipated from the sluggish movement of freight.

He afterwards became a watch dealer and decamped with a number of watches intrusted to him by settlers. The finds at Perth include a long knife, sharp as a razor, with a bloody blade. The murder was committed on the night of the 10th inst. The proceedings were brief. The police have secured a letter written by Deeming, which contains a letter of introduction to a young woman of Sydney, into marriage with him after he had murdered his wife at Windsor, for which crime he is now under arrest, and which led to the terrible rainhill murder.
