Baby's Own Tablets

Come as a message of hope to all worried mothers. It is the best medicine in the world for stomach, bowel and teething troubles, which make little ones weak, sickly and peevish. It will make your baby well and keep it well, and there is nothing in it that can harm the smallest, weakest infant. Read the guarantee.

Mrs. James Fraser, Ridgeway, Ont., says: "When I first began using Baby's Own Tablets my baby was so fretful and cross that I scarcely knew what to do with her. She was teething and was quite sick. She vomited a good deal, had frequent attacks of colic and was quite constipated. She was very nervous and got but little sleep and when she did sleep she would sometimes wake with a start and scream. I got a box of Baby's Own Tablets and since using them her stomach is sweet, she does not vomit and her bowels are regular. She sleeps well, has a good color, and is now a fat, healthy looking, good natured baby. I would not be without the Tablets since I know their value, and I can highly recommend them."

These are strong hopeful words from a mother who has proved the value of Baby's Own Tablets to all mothers. If your baby is ailing the Tablets will give prompt relief and make a perfect cure. Crush them to a powder and you can give them to the tiniest baby with advantage.

The rapid peopling of the Canadian West, largely at the expense of the American West, is attracting the attention of the commercial bodies across the line. The Commercial Club of Minneapolis has made overtures to the Winnipeg Board of Trade for a conference to discuss the trade relations between the Western sections of the two countries. A reciprocal agreement between the Minneapolis Commercial Club has in view. The West is filling up very fast, not because the United States is producing more people, but because the time has come when the incommensurable advantages of our prairie country are generally recognized. Of its future progress predictions are being made that may seem extravagant, but there is hardly any degree of prosperity too wonderful to be realized by that great country.

Yesterday afternoon towards 6 o'clock, a marine named George H. Webb, of H. M. S. survey ship Egeria, and his companion, Arthur B. Todd, who were on a party, proceeded up the Arm for the purpose of taking a swim. When they arrived at a spot just inside the city limits, Webb, who is supposed to be a good swimmer, jumped into the water. He must have been seized with cramps or struck a rock, for when his companion, who was with him, saw him, he was unable to do anything for him. Webb was seen to go down, and his body was not seen again until he was found at the bottom of the Arm just above Hon. James Dunsen's boathouse. An inquest will be held this morning.

THE HUMBERT AFFAIR.

Paris, June 27.—The Humbert case was brought up in the chamber of deputies today unless they and the Finance (Nationalist) interpolated the government on the subject. M. Faure, in a long speech, said that he was not sure whether the minister of justice, M. Monis, had not intervened until May 8, why measures had not been taken previously to clear the authors of the Humbert swindle? and why the then minister of finance, M. Caillaux, had not given orders to clear the 10,000-franc (\$20,000) succession duty to which the state had a right to claim on the inheritance? He recalled that Senator Valle (the present minister of justice) when acting as counsel, asked M. Caillaux why the duties were not collected, and did not obtain any satisfaction, and M. Valle could not act now against a legal functionary who had failed to do his duty because he was accused of a personal spite, but M. Valle should now tell all he knew about the affair, and the vote of the chamber would protect him.
