Miscellaneous.

You have heard, my boy, of the man who died, Crowned with keen thorns and crucified; And how Joseph the wealthy—whom God reward-Cared for the corpse of his martyred Lord, And piously tombed it within the rock, And closed the gate with a mighty block.

Now close by the tomb a falr tree grew, With pendulous leaves and blossoms of blue; And deep in the green tree's shadowy breast A beautiful singing bird sat on her nest, Which was bordered with mosses like malachite And held four eggs of an ivory white.

Now when the hird from her dim recess Beheld the Lord in his burial dress, And looked on the Heavenly face so pale, And the dear feet pierced with the cruel nail, Her heart nigh broke with a sudden pang, And out of the depths of her sorrow she sang.

But soon there came through the weeping night A glimmering angel clothed in white; And he rolled the stone from the tomb away, Where the Lord of the Earth and the Heaven, lay; And Christ rose in the caverns gloom, And in living lustre came from the tomb.

Now the bird that sat in the heart of the tree Beheld this celestial Mystery; And its heart was filled with a sweet delight, And it poured a song on the thrbbing night; Notes climbing notes, till higher, higher, They shot to Heaven like spears of fire.

Where the glittering white-robed angel heard Where the glittering white-roote anger a. The sorrowing song of the grieving bird, And heard the following chant of mirth, That hailed Christ risen again on earth, He said, "Sweet bird, be forever blest, "The ball of the said, be some weather the said, be some weather the said, but the said, "Sweet bird, be forever blest, "The ball of the said, "Sweet bird, be forever blest," Thyself, thy eggs, and thy moss-wreathed nest!"

And ever, my child, since that blessed night, When death bowed down to the Lord of Light, The eggs of that sweet bird change their hue,
And burn with red, and gold, and blue—
Reminding mankind in their simple way
Of the holy marvel of Easter day.

## SPIRIT OF THE PRESS

Under this head, the COLONIAL EMPIRE proposes to give, from time to time, the opinions of the leading public journals on passing events. THE HON. MR. SMITH'S OPINION OF THE ATTORNEY

GENERAL. The following report of the observations of the Hon. Albert Smith, upon the course and general conduct of the Hon. Charles Fisher, H. M. At-torney General, and late leader of the Government, with the comments thereon, we take from the last number of the Head Quarters. The debate. in which this speech was made, was near the close of the Session, while the House was in Committee upon the Report of the Land Jobbing

were as guilty as myself, and who threw me over, in that case I should use every effort to

had ever joined a Government whose members embarrass them by holding on to office." Mr. Smith.—" Well, it is needless to wonder at any course which Mr. Wilmot might choose to adopt; he belongs to a party which has always been hostile to responsible Government, and who would gladly violate its principles; but the case is far different with the Attorney Gen eral; the aim and object of his political career every patriot should desire. They are aware, has been to establish Departmental Governtoo, of some of the puerile absurdities and ment, the foundation of which is, that these offices should be held from the people, and on a political tenure, and held too by Executive that in addition to all this, they could be pre-Councillors. I could scarcely have believed that the first man to undermine the system, which he boasts to have established, should be the Hon. Charles Fisher. In holding on to the pay of an office, which he has been deprived of he is recreant to every principle, he falsifies every agreement which he has himself advocated; and he now remains Attorney General relying on some unknown Colonial office regulation, in defiance of every rule, in defiance of every principle of our Constitution. And again the will have to be employed and paid by the Valuable Property for Sale. Attorney General complains because he was not authorized to form a new Government. What, Mr. Chairman, is the Governor to have no eyes, no ears, no discretion in such a crisis? was His Excellency bound to call upon a man with whom his eight colleagues had, on personal grounds, refused to act—on a man who could not, as everybody knew, form a Government which could carry on the business of the country. I assert that the Attorney General could have been developed in the examination of the not have formed a Government, worthy of the name. He might, indeed, if joined that party of which his own brother-in-law (Mr. Connell) and his friend Mr. Tibbits, are the leaders and the sole component parts. These three would have given us certainly a compact triune united Council; but one which must have failed to obtain supplies from this House, and must the country without delay, containing in their own hands the sweets of office whether the country could have been satisfied with such a Government? Oh! but the At-General has been ill-treated by us. We he says, to have stood by him and deeight, he says, to have stood by him and de

eught. He says, to feeded him. Mr. Chairman, we could not do fended him over remain in any Government, on the understanding that I must defend every act, whether right or wrong, of every member of it. Why, I suppose (it is of course only supposition) that the attorney General had been convicted of larceny, should we, in that case, be obliged to larceny, should we with has maintained its high reputation for nearly forty years, and gentlemen in the country, among whom are Rev. Josiah Litch, Phila; should be common to the country, among whom are Rev. Josiah Litch, Phila; should be common to the country, among whom are Rev. Josiah Litch, Phila; should be common to the country, am General been found guitty? I say that he has been convicted of prostituting the office which he held, as a public trust, for his own private benefit; of going into the Crown Land Office, and using his influence as a member of the Government, to aggrandize himself; of violating the well known regulations of the Surveyor General, respecting the 'instalment' system; regulations, moreover introduced by the Attor-Morgan's Tonic Goblet,

indignant, that they will return him at the head of the poll as its deified, idolised, sanctified, glorified representative. I can tell the people of this county ) not that I expect them to listen to me) that the whole Province will watch with anxiety the result of the coming election in this county. They will scan with election in this county. They will scan with anxious forebodings the state of the poll here, fearing indeed lest the sanction even of one county should be given to the unholy principle that a public officer is entitled to prostitute a public trust for a private gain; but hoping that the people of York will display their admiration for honest, straightforward dealing, and the content of the product of the content of the conten and their contempt for paltry peddling, by rejecting even Charles Fisher. If, however, this county by their votes justifies the transactions of the Attorney General, then, indeed, the whole the county by their votes justifies the transactions of the Attorney General, then, indeed, the fell-way.

W. JACK.

"If the Attorney General, when dismissed by his colleagues from the Council Board, had man-fully, and without delay, resigned his office as Attorney General,—if he had come down here in a bold, straightforward manner, unconnected altogether with those who have degraded him, prepared for his own defence, I, for one, would have endeavored to secure for him fair play and a fair hearing; I could not indeed have supported him (we differ too much for that); I could not myself have defended his conduct, but he would have had my sympathy on account of the treatment which he has met with from the government. But, when he condescends to remain a subservient office-holder under men who have treated him with such in alt and ignominy, when he degrades himself so far as to receive payment from their unwilling hands, then, I say, he cannot expect, as he does not deserve, either sympathy or respect."

LECTURERS TO GREAT BRITAIN N EMIGRATION "We understand that great numbers of applications have been forwarded to Head Quarters for the anticipated Emigrant Agencies, and among those most prominent, we have heard the names of William End, late M. P. P., and Mr. Hogg, of the Fredericton Reporter. Of Mr. End the less said the better, but if there be a man well qualified in the Province, from an extensive knowledge of this country, as well as of his native one, that man-independent of the confidence which might be reposed in him

The Portland Argus says :-THE NEW TARIFF TO STRIKE A DEATH BLOW TO PORTLAND ! - THE CANADIAN. TRADE BY FOREIGN STEAMERS AND THE GRAND TRUNK TO CEASE, -Our readers are The DOUBLOON COTTAGE PROPERTY aware of the monstrous folly of the new tariff. as a political measure, at such a time as this, North and the South, instead of healing it, as pared to believe that this republican abortion had been so framed as to amount to a virtual prohibition of the transportation of goods under bond through the United States ; yet such, we are informed, is substantially the fact. We are told that the packages-of goods will have to be opened, and the threads of every piece counted, the quality examined—much the same United States for this purpose, although not a cent of revenue is to be obtained by the operation, and that the effect of all this will be to make such delays in the transmission of goods under bond as absolutely to prevent its being attempted, and that it will virtually put an end to the Canadian business through our port .-These are the facts, as we learn them, which new tariff with reference to goods arriving by the Canadian line of Steamers. It seems impossible that such a stupendous blunder or in quitous scheme should have been adopted, but we fear it is only too true. It is of such vital importance to Portland, that if the facts are as they have been reported to us, a public meeting ought to be called at once to see if some way cannot be devised to obviate the difficulty until a repeal of the nefarious monstrosity can be obtained.

TO MILL OWNERS.

PATENT SAW MILL MACHINERY. W E are now prepared to manufacture and in troduce Improved and very Valuable MA-CHINERY for GANG SAWS and EDGING TABLES recently Patented. The improvements in Gang Saws consists in a new method of feeding the log, by which the spurr rolls are superceded, and the consequent waste and damage done to lumber, amounting to from one to two and a half per cent. is saved. The log is also more firmly and securely held and fed forward with more certainty and uniformity, thereby improving the manufacture, increasing the quantity sawn, and reducing the risk of breakage of Machinery.

The improvements in Edging Tables consists in

saving the entire travel of the men averaging about one nile to every thousand feet of lumber sawn. In addition to relieving the men from excessive labour, the more rapid movement of the table enables them to edge a much larger quantity of lumber and with much greater economy, literally doing away with the "haste that makes waste." These improvements may be attached to Mills

with but little altegation and moderate expense.

Medical.

AYER'S CATHARTIC PILLS Are you sick, feeble, and companing? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prejude to serious illness. Some it of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make discase. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the swrounding organs, producing general aggravation, suffering, and disease. While in this cor irion, oppressed by the derangements, take Ayr: Pills, and see how directly they restore the Latica action of the system and with it the buoyant feel ag of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public From a Forwarding Merchant of St. Louis, Feb Dr. Aven; Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of alcerous sores upon her hands and feet that had proved accurable for years. Her mother has been long grevously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE As a Family Physic. From Dr. E. W. Cartwright, New Orleans.
Your Pills are the prince of purges, Their excellent qualities surpass any cathartic we possess.
They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable

Headache, Sick Headache, Foul Stomach.
From Dr. Edward Boyd, Baltimore.
DEAR BRO, AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine I place great dependence on an electual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course

value them highly.

PITTSBURG, Pa., May 1, 1855. DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.
Yours with great respect, ED. W. PREBLE Clerk of Steamer Clarion

Bilious Disorders - Liver Complaints. From Dr. Theodore Bell, of New York City. Not only are your Pills admirably adapted to their Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effect upon the Liver very marked indeed. They have in my practice proved more effectual for the care of bilious complaints than any one remedy I can mention, I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathartic we employ. Their regulating action on the fiver is onick ploy. Their regul have seldom found a case of bilious disease so obstinatethat it did not readily yield to them.

Fraternally yours, LONZO BALL, M. D.

Fraternally yours, LONZO BALL, St. D.

Physician of the Marine Hospith Dysentery, Diarrhoea, Relax, Worms From Dr. J. G. Green, of Chicago, Your Pills have had a long trial in my practice; and I hold them in esteem as one of the best aperi-ents I have ever found. Their alterative enect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, pastor of Advent Churc DR. AYER: I have used your Pills with extraor infary success in my family and among those I am alled to visit in distress. To regulate the organs

ently recommend them to may friends.

Yours'
J. V. Himes.

CONSTIPATION, COSTIVENESS, SEPPRESSION,

RHEUMATISM, GOUT, NEURALGIA, DEOPSY

PARALYSIS, FITS, ETC.

From Dr. J. Q. Vaughn, Montreal, Ganada
Too much cannot be said of your Pills for the cure of Costiveness. If others of our fraternity ave found them as efficacious as I have, the although bad enough in itself, is the progenitor of others that are worse. I believe Costiveness to originate in the liver, but your Pills affect that orgun and cure the disease. From Mrs. E. Stuart, Physician and Mid-wife

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppresand expel worms. They are so much the best physic and expel worms. They are so much the best physic we have that I recommend no other to my patients From the Rev. Dr. Hawkes, of the Methodist Epis Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6 1856:
HONOMED SIR: Ushould be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neurolyte pains, which ended in chronic rheumatism. Nothwithstanding I had the best of physicians, the diseast grew worse and worse, until by the advice of y ....xcellent agent in Baltimore, Dr. Mackenzie, I tried your Fills. Their effects were slow, but sure. By persevering in the user of them, I am now entirely well.

Senate Chamber, Baton Rouge, La. 5 Dec. 1855

r. Ayer: I have been entirely cured, by your Pills, of "Rheumatic Gout"—a painful disease that had afflicted me for years.
