GEO. W. BARTLETT, Druggist, Albany, Wis., says: "During the past year I have sold over twenty-two hundred jugs of the justly celebrated Wm. Radam's Mi-crobe Killer, and not in a single in-stance when it has been taken prostance, when it has been taken pro-perly and the full directions for its use been followed, has it ever failed to do been followed, has it ever islied to do the patient good, and very many of its cures have been most remarkable. Such maladies as rheumatism, throat and lung and bronchial trouble, ecze-ma, erysipelas, la grippe, neuralgia, and ling and brononia trouble, eczamô, erysipeias, la grippe, neuralgia,
stomach and liver complaints, etc.,
have all yielded to its wonderful influence and melted away like snow
before a June sun. When properly
aid thoroughly used it cures as if by
magic, but let me say that if you have
had a chronic disease that has baffled
the skill of the ablest physicians and
the whole vocabulary of patent mediciseis, do not buy a jug of Microbe
Killer and take one or two swallows
and then, if you do not admire the
taste, or imagine it is going to kill
you, fling it away and condemn it.
But if you do not give it an opportunity it will certainly not cure you,
neither will any other remedy. (If
taken it will not injure you in any
way as tens of thousands of the best
citizens of America can and are willing to testify under oath; if neces-

ing to testify under oath; if necessary.) But give it a fair trial as you would any case brought before you if you were an impartial judge, and you will be as willing to give your verdict in its favor as the thousands that are now willing to do so.
