**YOUR COAL BIN.**

How to Save Your Black Diamonds Just Now.

**VARIOUS KINDS OF SIFTERS.**

An Expert Tells Us How to Keep One Eye Peeled on the Furnace While the Other Scans the High Cost of Living. It Pays to Have Implements.

While many women are under the tyranny of the janitor, still others glory in our shame of being a householder and have to do more than theoretically tackle the coal bin. Even if we have a man to feed the furnace and remove the ashes, it might save us some pennies to become better acquainted with some of the coal savers on the market.

First among these may be cited a "heat controller." This may be called the watchdog of the coal bin, as by regulating the heat it prevents unnecessary burning of coal or new building of the fire because through carelessness it was allowed to die out. It has a clock attachment, which can be set at a desired time. For instance, it can be set an hour earlier than the rising time, with the temperature set for 70. When you awake instead of finding a chilly, frigid house the house is warm and comfortable, due to the magic of the heat controller.

With coal at its present price a ton it is wise to have the best kind of a sifter. Various "rotary" styles are on the market, which sift the chaff from the wheat, so to speak, and permit the slightly burned coals to be saved, when they can be used again to bank the fire. These sifters come in various sizes and consist of a hopper fitted to a can. The hopper is equipped with wire mesh, and turning the handle sifts the ashes, but retains the larger partly burned lumps for second use.

One of the conveniences for the householder who has to buy a quantity of coal is the right kind of coal window or chute. One of the most practical on the market is a combined window and chute. The parts are made of strong metal, the window protected by a wire mesh. The parts of the window are so made that opening the window opens the chute within, which is attached to the window and part of it. This relieves the need of extra chutes. The window locks automatically when it is closed, thus being burglar proof. It saves coal being scattered at the entrance of the window and is so made that it seems an integral part of the house and cellar when installed.

No matter what kind of a heating system is used in your home, the boiler must be "jacketed" with some kind of asbestos material. These jackets can be bought for a regular boiler, such as is frequently attached to a kitchen range. The jacket laces up and can be most easily attached. Special sized boilers can have the jackets made to order, or the boiler covered with asbestos composition material used by steamfitters. Keeping the heat in is as much of a coal saver as anything else. The best plant will waste heat if not sufficiently insulated.

The best coal ranges are fitted with dumping grates connected with a chute to a bin in the cellar. This is a great convenience, removing the necessity for dragging buckets of coal and ashes to and from the cellar and about the rooms. Such a chute could be fitted with a sifter and the better grades of ashes saved for use again. It pays those who have the management of a heating system to investigate thoroughly improvements and systems which will help reduce the high cost of heating.

**SMALL STYLE.**

The Baby Will Need a New Dress For Holidays.

White pique or white linen may be used for this adorable gown, hand embroidered on the yoke, scalloped around neck and short sleeves, laced

SO MODISH with narrow velvet ribbon across the would be bolero and belted with a wider ribbon. Any babyish color thus treated would be equally pretty.

**Age and Youth.**  
 W. D. Howells said of old age at one of his Sunday afternoons:  
 "Age is modester than youth. I've often noticed that when I tell a mother that her daughter is the image of what she was herself at nineteen the mother is delighted, but the daughter looks startled."

**Life in the Navy.**  
 "And what do you sailors do?" asked a visitor on one of our battleships.  
 "Well," responded the jolly tar, "we do what we please until we are told to do something else, and then we do that something else pretty darn quick."

**Busy.**  
 "Bliggins says a man ought to attend to his own business."  
 "Yes. But he thinks it's his business to show everybody else how to attend to his business."

**How It Ended.**  
 "Ma and pa had a terrible argument last night."  
 "How did it end?"  
 "Ma's going to get a new dress and opera cloak."—Detroit Free Press.

Giant Flowering Carnation

**FREE!**

Address a postcard to us now and receive by return mail a copy of our new illustrated 80-page catalogue of Garden, Flower and Field Seeds, Root Seeds, Grains, Bulbs, Small Fruits, Garden Tools, etc.

SPECIAL.—We will also send you free a packet (value 15c) of our choice

**Giant Flowering Carnation**

This carnation is a great favorite; the flowers are large and in the early fall they bloom profusely from October till the end of May. Extra plants are easily propagated from them by cuttings, "pipings" or layering.

Send for our catalogue and learn of our other valuable premiums. 18
