

YOU can talk with many people who are advanced in years who will tell you that they wish they had consulted an expert optometrist at the first indication of eye trouble. They will inform you that they feel sure if they had that they would have been able to have worn corrective glasses that they might have discarded later on. If your eyes trouble you let us test them.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.
