

HEALTH RESTORED!!  
HOLLOWAY'S PILLS.

Surprising Cure of a confirmed Asthma, after five years' suffering. The following testimonial has been sent to Professor Holloway, by a Gentleman named Middleton, of Scotland-road, Liverpool.

SIR,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period I suffered the most dreadful attacks of Asthma, frequently of several weeks duration, attended with a violent cough, and continual spitting of phlegm—intermixed with blood. This so shook my constitution, that I was unfitted for any of the active remedies of the day. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigour to the chest and digestive organs. I am, Sir, your obedient servant,  
(Signed) H. MIDDLETON.

A Permanent Cure of a Diseased Liver, of many years duration. Copy of a letter from Mr. Gamis, Chemist, Ypsil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious Complaints I may mention the following case. A lady of this town with whom I was personally acquainted, for years a sufferer from disease of the digestive organs; her medical attendant assured her that she could do nothing to relieve her sufferings, and it was only the Pills which she could take. She was cured, and her friends and relations, and her general health, to continue them until she was cured.

Now Publishing By JOHN TALLIS & CO. OF LONDON THE LIFE AND TIMES OF THE LATE Duke of Wellington;

By Lieut. Col. Williams; (a Companion in Arms, of His Grace.)

Comprising the Campaigns and Battle-Fields of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land, from the commencement of the Great French Revolution to the present time, interspersed with Anecdotes, Personal Incidents, and Adventures, &c.

ADDRESS.

The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the foremost military commander of any age has paid the debt of nature. The time has arrived for giving to the world a History of the Great Captain—the Events of his Life and Time—a life marked by patriotism, probity and honour, and events which have ever agitated the world, and whose influence will upon society till the end of time. Such a work must appeal to the best and proudest feelings in the heart of every Briton—the glory of his country, the honour of its name and position among the nations—may his own existence as a freeman, are recorded and engraven in the annals of the "well-fought fields," and the deadly wounds, breaches, the immortal battles and the glorious sieges in which Wellington and his Companions in arms gathered untold laurels, placed their country's honour and renown on the highest pinnacle of fame and glory, and tore the victor's wreath from the brows of heroes decorated with the trophies of Italy, Egypt, and Germany.

To supply such a desideratum in English literature, the publishers of The Life and Times of the Duke of Wellington have determined to produce a book which shall present to the reader, not only the dry details which a mere biographical sketch would afford, but a comprehensive work tracing the contemporaneous history of England, exhibiting the circumstances which brought about the great events in the Duke and his contemporaries engaged, and giving to the reader a connected narrative of the lives and actions of the Warriors and Statesmen of the nineteenth century, and this from the pen of a companion in arms of the great hero, and participated with him in many a well fought battle.

In order to carry out their views, the Publishers have determined that the work shall be profusely illustrated by Portraits of the Warriors and Statesmen of the last half century who have shed a lustre upon the history of their country; also representations of the most important engagements by sea and land from the period of 1780 to 1852; so that the work, when finished, shall form an illustrated Gallery of the Naval and Military Exploits of England.

It has been well said, "Character is the true strength of nations; true glory their best inheritance. When the time shall come that the British heart no longer throb with the names of Cressy, Poitiers, Agincourt, Blenheim, Ramilies, Oudenard, Malplaque, of Talavera, Salamanca, Toussaint, Waterloo—the last hour of the British Empire will be struck." The promotion and elevation of national spirit and feeling is therefore the duty and interest of every true and loyal son of England. May Heaven inspire the hearts of every one of us with that spirit and feeling.

Conditions of Publication.—The work will be issued on the 1st and 15th of every month, in Parts at 1s. 3d. and Divisions, handsomely bound at 9s. 4d. printed on

AYER'S PILLS.

A new and singularly successful remedy for the cure of Constipation, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Hemorrhoids, Nervousness, Irritability, Inflammation, Headache, Faints in the Breast, Side, Back, and Lungs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more generally used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which are more readily cured by the timely and judicious use of a good purgative. This is alike true of Colds, Febrile symptoms, and Bilious derangements. There is no medicine so common, so safe, and so productive of the deep seated and formidable distempers which lead the hearse all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MORRIS, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

MRS. L. MOORE, M. D., an eminent Surgeon and Physician, the City of Lowell, who has long resided in his extensive practice.

H. G. SCOTCHBORN, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is larded with more or less of acrimonious and injurious qualities; by this, each individual virtue only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills are more powerful antidotes to disease than any other medicine known to the world.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no

mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of

THE ALL-HEALING REMEDY!!

Holloway's Ointment.

A most astonishing cure of Scrofulous Ulcers—a case certified by the Mayor of Boston.

Copy of a letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor Holloway.

Dear Sir,—Mrs. Sarah Dixon, of Liqueur-pool street, Boston; has this day deposed before me, that for a considerable time she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear Sir, your truly,  
(Signed) J. NOBLE.

Dated August 12th, 1852.

An extraordinary and rapid cure of Erysipelas in the leg, after medical aid had failed.

Copy of a letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated Jan. 12th, 1853.

To Professor Holloway.

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent cure, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighbourhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful servant,

A dreadfully diseased Ankle cured after being given up by the Faculty at Malta and Parisian Hospitals.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King at Norwich.

Copy of a letter from Captain Smith, of Great Yarmouth, dated January 19, 1853.

To Mr. Dixon.

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicine.—Mr. John Walton, late in Her Majesty's Service, in the British fleet at Malta, had a very bad ulcerated ankle, and after being in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months before his ankle became so much worse that all hope was lost. At this period, by my advice he tried Holloway's Ointment and Pills which by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, dear Sir, your very truly,

Surprising cure of a bad Breast, Nervous Debility, and general ill health.

Copy of a letter from Mr. T. F. Ker, Chemist, &c., Lower Moss Lane, Manchester, dated Feb'y 12th, 1853.

To Professor Holloway.

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mrs. Martha Bell, of Pin-street, in this town, had been for a considerable time labouring under nervous debility, and general ill health, and by ulcerated wounds in the

She had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and

was persuaded to have recourse

to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain, dear Sir, your truly,  
(Signed) T. FORSTER KER.

The Pills should be used conjointly with the Ointment in most of the following cases:—
