To Let,

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Billious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Fennale complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or Jess required, and much sickness and suffering might be preyented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgativa. This is alike true of Coldé, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep scated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to me2 that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the crainent gentlemen to whom we are allowed to refer for these facts, are Paor. Valextisk Morz, the distinguished Surgeon of New York City.

Doct. A. HAYER, Practical Chemist of the Port of Roston, and Geologist for the State of Massachinester.

I Et al. Moorar, M. D., an emiment Surgeon and Patients of the City of Lowell When he have not a surface of the City of Lowell When he have not a surface of the City of Lowell When he have not a surface of the City of Lowell When he have not a surface of the City of Lowell When he have not a surface of the City of Lowell When he have not a surface of the City of Lowell When he have not a surface of the City of Lowell When he have not a surfac

geon of New York City.
Dort. A. A. Havras, Practical Chemist of the Portof Roston, and Geologiss for the State of Massachiusetts.

IR. I. Moorr, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, Eq., one of the first merchants in New York City.

C. A. Davis, M. D., Supt' and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred such names, from all parts where the Pulls have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial:

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best assalig. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more os less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and olonoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-avident the effect should prove as they have proved more purely remedial, and the Pills as sure, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the connect and the Pills as urer, more powerful antidote to disease than any other medicines in the World and the Pills and the Pills and American Provinces. If however there should be any o

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinale merits. The Cherry Fectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many emant Physicians have declared the same thing of my Fills, and even more considerity, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their effects upon trial.

They operate by their powerful influence on the internal viscers to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wheever they exist such desangments as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegotable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
