

HOW TO BE LUCKY.

Follow the wise man who knows that he knows, and

DO THE RIGHT THING, IN THE RIGHT WAY, AT THE RIGHT TIME

and you are sure to be lucky.

The right thing for you to do is to order a stock of the right book.

SIR HENRY MORGAN,

BUCCANEER

By CYRUS TOWNSEND BRADY.

We know this is the right book and now is the right time to order

Sir Henry Morgan, Buccaneer, is the best story of adventure of the year. It is the story of a real pirate who sailed the Spanish main.

Woven through the romance is a charming love story.

TECHNICS.

A New Monthly Magazine for Technical Students.

No. 2 Ready February 9th.

Price 9d. net

TECHNICS is a magazine that will deal with all branches of Technology and Science. Month by month it will record the progress of the Technical and Scientific world. Students, professional men, and that large section of the community anxious to be posted in the doings of the Technical world will find TECHNICS a reliable and indispensable magazine.

There are over a million students attending the Technical Institutions of this country. This large body of intelligent and industrious people has had no organ hitherto. TECHNICS will endeavour to take that position. It will discuss all matters of interest to those attending Technical Institutions. It will be a medium of interchange of ideas between them. It will give a large amount of information useful to them in their work. In fact, TECHNICS will be found invaluable to those who are engaged in the various branches of Technical study. All its articles will be contributed by men acknowledged as the greatest authorities on the subjects they write about. Some of the most eminent men connected with Technical Science have assisted us in the preparation of our first number, and many more have promised their support and advice.

Some of the principal items to be found in No. 2 are:

THE PROGRESS OF SCIENCE AND TECHNOLOGY. THE ROYAL COLLEGE OF SCIENCE.

1. The Chemical Laboratories. By Prof. W. A. TILDEN, D.Sc., F.R.S.
2. The Physical Laboratories. By SIR ARTHUR RUCKER, K.C.B., F.R.S. Illustrated from Plans by Mr. ASHTON WEBB, R.A.
