

Important to Teachers . . .

THERE are to day a number of gentlemen who formerly held important positions as educationists employed by the leading Life Insurance Companies, and room still remains for teachers to obtain important positions in the field work.

Those contemplating taking up insurance work would do well to examine the respective merits of the different companies, so as to be certain that they are recommending the most desirable institution to their friends. Certain important elements should be kept in view, viz.:

- Has the Company been successful ?
- Has it a net surplus over all liabilities ?
- Has it paid satisfactory profit results on its Investment Policies ?
- Has it paid its death claims promptly ?
- Is such Company under competent management ?

Any intelligent man can satisfy himself on these important points by reference to the official Government Insurance Reports. Tested by these essentials the

By Dr. Edward Brooks, A. M. For Boys and Girls.

This is a story of absorbing interest both to young and old. It relates in a simple prose narrative the leading incidents of one of the greatest literary works of the world—the Iliad of Homer. Many of its names are household words among educated people, and its incidents are a constant source of allusion and illustration among the best speakers and writers. No one with any claim to literary culture can afford to be ignorant of them. Profusely illustrated. 370 pages, cloth, \$1.25.
