town of Barnsley itself, but also throughout its populous vicinity. Such has been the demand during the last fortnight, that the shops have been nearly cleared of fire arms, particularly the pawnbrokers, who are large dealers in second hand ware .- Leeds Mer.

LIVERPOOL, APRIL 20.

There seems to be some disagreeable delay in signing the Bel gian treaty, and some not very pleasant correspondence on the subject between our Minister and the cabinet of the king of the Netherlands.

The Manchester Mechanics' Institution has realized £2000 by an exhibition of works of art and national productions. The example is about to be imitated in Sheffield, and in Leeds. The inaterials of these exhibitions are furnished gratuitously from private collections.

TERROR OF THE GIBBET !- The Hertford Reformer, in allasion to the conduct of the crowd at a late execution at Hertford, says-"So careless and light were the feelings of the people, that they amused themselves with what is called ' bonnetting' one another, and one young man narrowly escaped punishment for amusing himself in that way on the hat of a constable while passing through the crowd with his prisoner, as he looked upon it in the light of an attempt to rescue. What effect has this public execution had on the minds of those who witnessed it ? We walked amid the crowd ; we saw them returning from the place of death, and from all the terrors of justice, and marked their demeanour. There was no eye dimmed with tears; no pallid cheeks ; no sad and gloomy thoughts appeared to oppress them ; but all was laughter, jest, and revelry. The public-houses and beer-shops soon became filled ; the spectators of death went to feasting and gambling; the quiet of the town was disturbed by scenes of drunkenness and licentiousness; and the day was a carnival to the dissolute of the neighbourhood."

An inquest was held on Sunday last, on the body of John Kennifick, a cooper, choked whilst eating his dinner, by swallowing a large piece of meat. Verdict, died by choking and suffocation whilst swallowing his food.

An inquest was held on Tuesday last, on the body of Harriet Plunkett, wife of Richard Plunkett, private of Her Majesty's Sth or King's Regiment, found dead in one of the rooms of the North Barracks .--- Verdict sudden death, in a natural way.

An inquest was held on Friday upon the body of John Doyle, truckman. It appeared from evidence that on Thursday evening Stephens; Nancy, Acadian, Mary Ann, Loon and Richard Smith, Sydlast, the deceased and a person by the name of Lawrence Cleary, || ney; Perseverance, Power, Liverpool, G. B., 44 days-salt, etc. to R. met at the forage barn of Messrs. Hunter and Chambers, opposite the Workhouse-that both deceased and Cleary were, at the time, somewhat intoxicated ; and that after some quarrelling between them they had a scuffle and fight. They were parted by John McGuire the person who attends at the barn to serve out the hay. It appeared from Mr. McGuire's testimony that about a quarter of an hour after the scuffle, the deceased turned to go away, when Cleary struck him on the head with a truckpin. Dr. Hume having examined the body, deposed that the blow occasioned an extensive fracture of the skull, and concussion of the brain, of which the deceased (after lingering about eight hours) expired early yesterday morning. The Jury presented Cleary for murder.-Recorder.

we tender our thanks. Our office of editor will shortly be resigned to other hands, when we hope the indulgence which has been extended to us will be continued to our successor. The Pearl is now an established periodical, having made its way to public fayour without the assistance of any sect or party in religion or politics. Our circulation is now upwards of eight hundred, although we have not been in existence quite two years. And in two years from this date, we doubt not, this number will be doubled. Eschewing politics and the sectarian polemic controversies of the day, the Pearl will continue a favourite literary and family paper.

THE WEATHER .- The weather during the last ton days has been strong nightly frosts, which has almost entirely checked vegetation, and we fear has entirely injured all the tender seeds and early potatoes in the ground.-Journal.
