WASTE PAPERS.—But few housekeepers are aware of the many uses to which waste paper may be put. After a stove has been blackened, it can be kept looking very well by rubbing it with paper every morning. Rubbing it with paper is a much nicer way of keeping the outside of a tea-kettle, coffee-pot and tea-pot bright and clean than the old way of washing them in suds. Rubbing with paper is also the best way of polishing knives and tinware after scouring. This saves wetting the knife-handles.—If a little flour be held on the paper in rubbing tinware and spoons, they will shine like new silver. For polishing mirrors, windows, lamp chimneys, &c., paper is better than dry cloth. Preserves keep much better if brown paper instead of cloth is tied over the jar. Canned fruit is not so apt to mould if a piece of writing paper, cut to fit the can, is laid directly on the fruit. Paper is much better to put under carpet than straw. It is warmer, thinner and makes less noise when one walks over it. Two thicknesses of paper, placed between other coverings on a bed, are as warm as a quilt. If it is necessary to step upon a chair, always lay a paper on it, and thus save the paint and woodwork from damage.

EDUCATIONAL ESTABLISHMENT
FOR
YOUNG LADIES,
UNDER THE
DIRECTION OF THE SISTERS OF ST. ANN,
ST. REMI, (Near Montreal, Can.)

DE LA SALLE INSTITUTE.
Nos. 18, 20 & 22 Duke Street,
TORONTO, ONT.
DIRECTED BY THE CHRISTIAN BROTHERS.

This thoroughly Commercial Establishment is under the distinguished patronage of His Grace, the Archbishop, and the Rev. Clergy of the City.

Having long felt the necessity of a Boarding School in the city, the Christian Brothers have been untiring in their efforts to procure a favorable site whereon to build; they have now the satisfaction to inform their patrons and the public that such a place has been selected, combining advantages rarely met with.

The Institution, hitherto known as the "Bank of Upper Canada," has been purchased with this view and is fitted up in a style which cannot fail to render it a favorite resort to students. The spacious building of the Bank—now adapted to educational purposes—the ample and well-devised play grounds and the ever-refreshing breezes from great Ontario all concur in making "De La Salle Institute" whatever its directors could claim for it, or any of its patrons desire.

The Class-rooms, study-halls, dormitory and refectory, are on a scale equal to any in the country.

With greater facilities than heretofore, the Christian Brothers will now be better able to promote the physical, moral and intellectual development of th students committed to their care

The system of government is mild and paternal, yet firm in enforcing the observance of established discipline.

No student will be retained whose manners and morals are not satisfactory; students of all denominations are admitted.

The Academic Year commences on the first Monday in September and ends in the beginning of July.

Ayer's
Hair Vigor,
For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Ayer's
Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption,** cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing **Coughs,** the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis,** when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

UNIVERSAL EXHIBITION OF 1855
FIRST-CLASS MEDAL
ALF. LABARRAQUE AND Co
QUINIUM LABARRAQUE
Approved by the Imperial Academy of Medicine

The **Quinium Labarraque** is an eminently tonic and febrifuge Wine, destined to replace all the other preparations of Peruvian Bark

The Bark Wines usually employed inmedicine are prepared from Barks which vary considerably in the degree to which they possess the desired properties. Besides, owing to the manner in which they are prepared, these Wines contain scarcely more than the traces of active principles, and these always in variable proportions.

The **Quinium Labarraque,** approved by the Academy of Medicine, constitutes, on the contrary, a medecine of determined composition, rich in active principles, and on wich Physicians and Patients can always rely.

The **Quinium Labarraque** is prescribed with great success for persons of weak constitution, or for those debilitated by various exhausting causes or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in childbirth; and for aged persons enfeebled by years or illness. It is the best preservative against Fevers.

In cases of Chlorosis, Anemia, or Greensikness, this Wine is a powerful auxiliary of the ferruginous preparations. In conjunction, for example, with VALLET'S PILLS, the rapidity of its action is really marvellous.
