

TRANSMISSION APPLIANCES

FAIRBANKS WOOD SPLIT PULLEYS

are built of well-seasoned timber. Rims are of Basswood. Each segment is glued and nailed to the next one.

The Webb Construction of the arm, built into the rim strengthens it and makes it impossible for the rim to work loose at the arm.

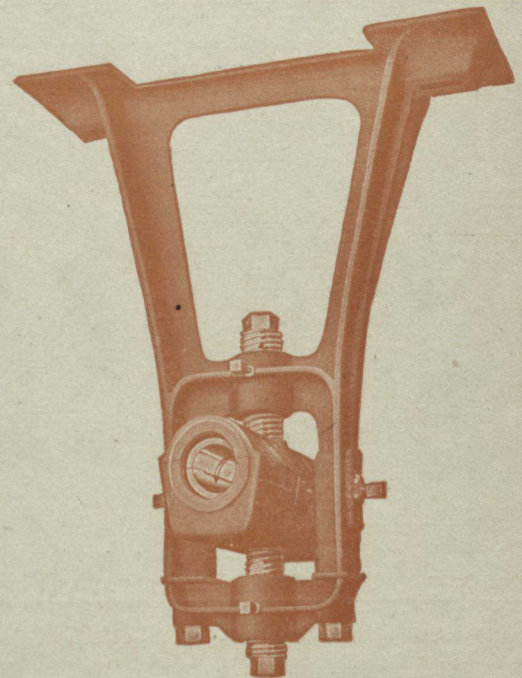

Complete Power Transmission Equipment—

BELTING, SHAFTING, COLLARS, COUPLINGS, FRICTION CLUTCHES, ROPE DRIVES DESIGNED AND INSTALLED

UNIVERSAL GIANT HANGER RING OILING TYPE

Reduces friction to a minimum.

Symmetrical in design, and has unusual strength which make the requirements of a perfect hanger.
