

8. N,N-Dialkyl (Me, Et, n-Pr or i-Pr) aminoethane-2-ol and corresponding quarternary ammonium compounds 1/2/
9. N,N-Dialkyl (Me, Et, n-Pr or i-Pr) aminoethane-2-thiol and corresponding quarternary ammonium compounds 1/2/
10. Bis(2-hydroxyethyl)sulphide (thiodiglycol) 3/ (111-48-8)
- [11. 3,3-Dimethylbutan-2-ol (pinacolyl alcohol) 4/ (464-07-3)]

C. Schedule 2 part B 5/6/7/

Amiton: O,O-Diethyl S-[2-(diethylamino)ethyl]
phosphorothiolate (78-53-5)

1/ It was suggested that a limitation of the group to contain only the N,N-diisopropyl compounds should be considered in view of the scale of the commercial production of other group members. These other group members could then be included in Schedule 3. In this context, a view was also expressed that it could be sufficient to have only the N,N-diisopropyl compounds in Schedule 2 part A from the viewpoint that they are key precursors to VX. Furthermore a view was expressed that unless an appropriate limitation of the group can be provided, the placement of this group on this schedule should be reconsidered in light of existing commercial production of substances included in the group.

2/ A view was expressed that "and corresponding quarternary ammonium compounds" should be replaced by "and corresponding salts".

3/ A view was expressed that this chemical should be included in Schedule 3.

4/ A view was expressed that this chemical should be included in Schedule 1.

5/ A view was expressed that saxitoxin and ricin should be included in Schedule 2 part B.

6/ A view was expressed that CS and CR should be included in one of the Schedules.

7/ A view was expressed that 1,1,3,3,3-Pentafluoro-2-(trifluoromethyl)-1-propene (PFIB) CAS No. 382-21-8 be included in Schedule 2 B.
