

# The United States Buys a Variety of Goods from Canada

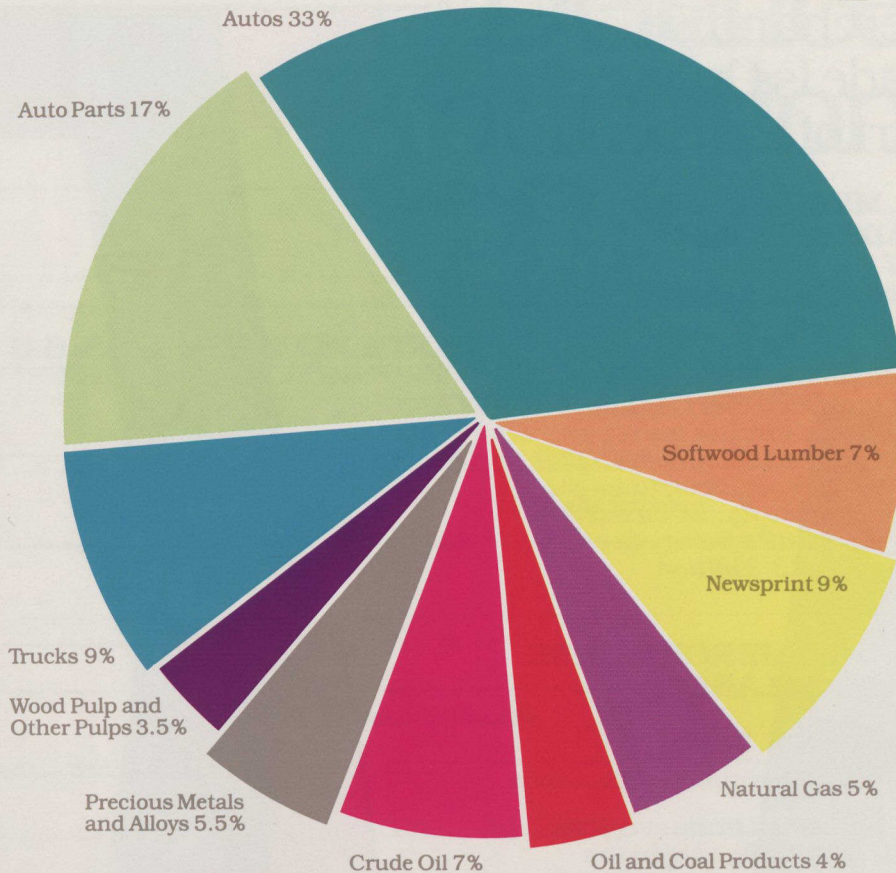

## U.S. TOP TEN IMPORTS

1986

By Percentage of Top Ten

Source: Statistics Canada

Most of Canada's manufactured exports to the U.S. have been in autos and auto parts and are part of a two-way, tariff-free exchange that has existed for more than 20 years. Some years Canada has had an advantage, some years the U.S. has had one. Canada's other major exports to the U.S. have been in natural resources such as oil, newsprint and gas.

# The United States Sells High-Tech to Canada

## U.S. TOP TEN EXPORTS

1986

By Percentage of Top Ten

Source: Statistics Canada

Seventy-six percent of U.S. exports to Canada are in manufactured goods. Canada bought \$40 billion worth of U.S. end products and the U.S. is the primary source of such imports into Canada. Canada is a major importer of U.S. high-technology products, including computers, semi-conductors and telecommunications equipment.
