

In accordance with paragraph 2 Article VII of the Agreement, in the event that uranium depleted in the isotope 235 (hereinafter referred to as "depleted uranium"), to which the Agreement applies, does not and will not fall within the scope of the *Agreement between the Union of Soviet Socialist Republics and the International Atomic Energy Agency for the Application of Safeguards in the Union of Soviet Socialist Republics*, done on 21 February 1985, and where such depleted uranium remains in the Russian Federation under conditions differing from those indicated in the *Exchange of Notes between the Government of the Union of Soviet Socialist Republics and the Government of Canada constituting an Agreement on Nuclear Cooperation involving the enrichment of uranium obligated to Canada in enrichment facilities of the Union of the Soviet Socialist Republics*, done on 20 November 1989, I have the honour to propose that:

- 1) depleted uranium shall be subject to the Parties' obligations under the Agreement, including provision of Annual Reports and notifications, as defined in the *Administrative Arrangements between the Atomic Energy Control Board and the Ministry of Atomic Power and Industry of the USSR pursuant to the Agreement between the Government of Canada and the Government of the Union of Soviet Socialist Republics for Co-operation in the Peaceful Uses of Nuclear Energy*, dated 27 August 1991 (hereinafter referred to as the "Administrative Arrangements"), while recognizing that the competent governmental authorities of the Parties in charge of the implementation of the Agreement are currently the Federal Agency on Atomic Energy (hereinafter referred to as "Rosatom") and the Canadian Nuclear Safety Commission (hereinafter referred to as the "CNSC");
