

THE FARMER'S FRIEND.

CHEAP PAINT.—For the purpose of making the present composition to preserve all sorts of wood-work exposed to the vicissitudes of the weather, take three parts of air-slacked lime, two of wood-ashes, and one of fine sand; pass them through a fine sieve, and add as much linseed oil to the composition as will bring it to a proper consistence for working with a painter's brush. As particular care must be taken to mix it perfectly, it should be ground on a stone slab with a proper muller, in the same manner as painters grind their white-lead, &c.; but where these conveniences are not at hand, the ingredients may be mixed in a large pan, and well bent up with a wooden spatula. Two coats of this composition being necessary, the first may be rather thin; but the second should be as thick as it can conveniently be worked. This most excellent composition for preserving the wood is highly preferable to the customary method of laying on tar and ochre.

Do nothing to-day that you are likely to repent of to-morrow.

For High Water at Cape Sable add 50m. to the time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.
