Population of the Earth.

9

The following statement showing the population of the Earth is abstracted from the "Population of the Earth" by Drs. P. L. Bohn and Wagner, Gotha, 1874, as copied in the official report of the Chief of the U. S. Bureau of Statistics, for March, 1874. It is as well to state that the figures must to a certain extent be approximate, and not founded on reliable censuses.
