Among other information on the rate reduction question contained in a report of General Manager Couzens to the commissioners; is a table showing the interruptions in service so far this month. One of the eighteen greaks occurred on on June 23 and lasted 25½ minutes. The table shows the date, time and duration of the breaks so far this month, which are declared to have all originated from causes under the jurisdiction of the provincial hydro commission. It is the contention of the local commission that "in addition there were heavy surges intermittently." The table follows:
