

DISCUSSING PAVEMENTS.

The Specifications for the Trinidad Asphalt Roadways.

The Work to be Pushed on as Rapidly as Possible—Hamilton Stone for Curbing—Hamilton Workmen—Contractor to Deposit \$10,000 as a Guarantee—Expropriation to Widen Walnut Street—Other Board of Works Business.

The regular meeting of the Board of Works yesterday afternoon lasted from 4 until 6.30. There were present Chairman Hancock, Mayor Stewart, Aldermen McAndrew, Frid, Ferris, Field and McDonald. Messrs. B. E. Charlton and J. B. Griffith, of the Street Railway Company, were present to learn what action the Board proposed to take in regard to the complaints of inadequate service on the recently completed line on Locke and Queen streets between King street west and the Grand Trunk depot. Mr. Charlton explained that one car only was running on the line, giving a 20 minute service and even that did not pay running expenses. Another car would only add to the loss.

Ald. McAndrew and Ald. Ferris said that the service was poor and misleading to people who desired to make train connections. Ald. Ferris also wanted to know why the company had not complied with the request to have the York street line extended past the cemetery to Harvey Park (Kent's Park). He understood that the City Solicitor had given an opinion to the effect that the company could be compelled to extend this line.

Mr. Charlton replied that their solicitor's opinion was totally at variance with that and until the growth of the city in that direction warranted the extension, none would be made.

Further discussion of the matter was laid over until the next meeting.

WIDENING WALNUT STREET.
Mr. O. E. Konkle, who recently purchased the Case property on the west side of Walnut street between King and Main streets, was present to hear what the Board proposed to do about the proposed widening of Walnut street so as to make it uniform throughout its entire length. He was willing to give up six feet of his land for the purpose, provided the city purchased for him six feet of the Cahill property on the west side of his place.

Ald. McDonald—Understand you would sell for what the land cost.
Mr. Konkle—At that rate six feet would be \$1,680, but I would want more, because the cut would deprive us of land for one house. There is just room on the Main street and now for four houses.

Dr. Griffith, Messrs. Anthony Copp and T. W. Lester urged upon the Board the necessity for expediting the project to make Walnut street, at this point, something more than an alley-way.

On motion of Ald. Ferris, seconded by Ald. McDonald, it was decided to ask the Council to leave to arrange for and execute such expropriation, provided it was legal.

PERMANENT PAVEMENTS.
The specifications for the Trinidad asphalt roadways were discussed at great length. One of the important clauses in the form of tender, that requiring a deposit of \$5,000 in cash or a marked cheque with each tender as an evidence of good faith, was insisted upon.

Each tender must also bear the names of two sureties. The specifications proper make a very lengthy document, and contain no less than seventy clauses. The first clause, that regarding the stone curbing, provoked considerable discussion. The specifications called for stone from a Canadian quarry, but on the following day a motion, making it necessary for contractors to use stone from Hamilton quarries, was carried.

Yena-Hancock, McAndrew, Frid and McDonald, Messrs. Mayor Stewart, Ferris and Field.

The City Engineer said that Credit Valley stone was softer than Hamilton stone, and the latter, if it could be got as cheap, would be very satisfactory.

Ald. Ferris—That means that if the Hamilton quarries combine the city will get it in the neck.

Further clauses call for the setting of the curbing in a concrete bed, six inches deep, and the keeping open of one line of street railway track and sidewalk during the progress of the work.

A clause calling for concrete made of cement, sand and broken stone was of interest to Ald. Ferris, and he wanted it discussed. As it was only No. 14 and the hour late, the Chairman fell in with the views of the other aldermen, and took up the next clause.

"All right. If you are going to choke off discussion," remarked Ald. Ferris, "there is no use remaining here," and he left the room.

According to the specifications, upon the concrete base will be laid a wearing surface composed of a mixture of Trinidad asphaltum, having petroleum residuum oil, fine sand and pulverized carbonaceous lime. The asphaltum shall be of the best quality, from Pitch Lake, in the island of Trinidad, properly refined by competent persons and brought to a uniform standard in purity, and shall not be mixed with any of the products of coal tar. The contractor will be required to submit the Engineer with certificates of shipment and other satisfactory evidence to prove that the asphalt has actually been obtained from Pitch Lake on the island of Trinidad.

In order to make the gutters impervious to water, the width of twelve inches next to the curbing must be coated with hot coal tar cement, and no asphalt shall be laid during rain or snow. The contractor will be required to guarantee that during the period of five years from the date of the Engineer's certificate of completion, he will at once, upon the request of the Engineer, and without expense to the city, execute all repairs.

Ald. McDonald thought an attempt should be made to have the contractor locate his plant here, for five years so that the city would not have to send all over the country after him. Mayor Stewart and Ald. McAndrew were the only voters in favor of making the guarantee for ten years.

Clause No. 38 states that the full intersection of James and King streets, except the sidewalks, shall be paved with Segoria blocks; each block shall be three and one-half by five, by eight inches, laid on their edges, and the spaces between the blocks filled with rolling paving.

The following is an important clause: "The contractor must employ Hamilton laborers, whose names are either recorded on the assessment rolls or in the city directory (with the exception of eight or ten skilled men), and must also employ teams owned by citizens of Hamilton for the removal or hauling of all materials, blocks, earth, stone or rubbish, and must pay not less than 15 cents per hour for laborers and 30 cents per hour for teams."

cents per hour for laborers and 30 cents per hour for teams."

Mayor Stewart thought a special inspector would have to be appointed to see that this clause was carried out. Already in anticipation of work on the pavements there were scores of men in the city from Caledonia, Brantford and elsewhere.

A further clause stated that if the contractor should become bankrupt or fail to make such good progress as required by his contract, the city would have power to seize all the plant, tools and materials of the contractor and use or sell the same. The City Engineer was made sole arbitrator in disputes over unpaid money.

The work must be commenced within two weeks after the acceptance of the tender and proceeded with as fast as practicable to the satisfaction of the Engineer, and must be completed before the 1st day of September, 1895.

Payments will be made fortnightly upon the certificate of the Engineer at the rate of 85 per cent of the value of the work done, and the balance of 15 per cent will be retained for five years (without interest) from the date of the completion of the work, and held as security for the carrying out of the terms of the contract in regard to repairs, etc.

The contractor shall not sublet any portion of the works, but must construct and carry on the same with his own men and under his own supervision.

The decision of the City Engineer on all points connected with this contract and specification shall be final and conclusive, whether as to the interpretation of the various clauses, the measurements, extra work, quantity, quality, and all other matters and things which may be in dispute, and from his decision there shall be no appeal.

After the few revisions decided on are made the specifications will be submitted to the Council this week. The City Engineer stated that about eight days would be sufficient to advertise for tenders. Some of the Aldermen have already been approached by anxious contractors. An application for a position as Pavement Inspector was referred to the City Engineer.

OTHER MATTERS.
On the City Solicitor's recommendation, the claim of W. E. Morris for injuries resulting from a fall on Barton street in December last was thrown out.

Charles Eger's claim as the result of injuries received by his daughter, Nellie Eger, by falling into an area in the James street was referred to the solicitor. Mrs. Wm. Harper's claim for damages for a fall on the corner of Pictou and Catharine streets was also referred.

It was decided to notify property owners along the line of new pavements that all conductor pipes must be connected with the sewer.

The building of new sections of sewers on James and King street and the trolley pole problem will be discussed at the next meeting.

SMITHVILLE.
(From our own Correspondent.)

Smithville, July 3.—Our High school closed on the 25th, and the second and third grades left for home on the 30th. Thirty-two candidates wrote at the entrance examinations here on Thursday, Friday and Saturday of last week, but it will be some days before the result will be known.

Dominion Day passed off very quietly here. Almost all the people went down to Grimby Park. The Presbyterian and Methodist Sabbath schools and the Foresters each had a picnic there. The Foresters, headed by the Smithville brass band, made a nice procession in starting and looked well.

We are very much pleased to know that James Temmer, R.A., head master, and Miss Bella Aitken, second teacher, have been re-engaged for next year. Both proved very successful teachers while here, and it is a guarantee that our High school for the next year, as in the past, will rank as one of the foremost in the Province.

Rev. J. H. Taylor, our new Methodist minister here, preached two sound and practical sermons to large congregations on Sunday last.

Mr. Geo. Morse, of Tennessee, U.S.A., is at present visiting with his brother, Mr. E. A. Morse, near Smithville.

Miss Peters, of St. Louis, U.S.A., is visiting at the residence of Mr. Robert Murgatroyd.

There are twenty-seven candidates writing for certificates at the High school here; seventeen for primary (3rd) and ten for junior leaving (2nd). W. H. Hunt, R.A., of Grimby, is the presiding examiner.

CARLUKE.
(From our own Correspondent.)

Carluke, July 3.—Haymaking is in full swing.

The holidays have begun and the rising generation are enjoying the sweets of liberty with no thought for the morrow. A goodly number have passed their examinations and are promoted to a higher form.

The garden social at Mr. Hamilton's was as usual a success and a most enjoyable time was spent. Among the events of the afternoon was a football match between the boys of Carluke and Bennett's Corners, resulting in a score of 2 goals to 0 in favor of the home team. The game was conducted in a kindly and gentlemanly spirit, the players expending their surplus energies in pushing the ball.

July 2nd saw the band and football team with many of our citizens at Ancaster. The band discoursed sweet music at intervals to the citizens of that ancient hamlet and the football game which they lost by a score of 1 to 0. Our boys need not, however, feel any sorrow over the result. The team has had but two weeks' practice and the game was entirely new to them. Previously the Ancaster Kickers were strong, active and skilful and handled the ball like professionals. Carluke, nevertheless, played an excellent game. Among the forwards Jimmy Johnston and James Haley did strong and skilful kicking and John Somerville played with his usual pluck and coolness, and among the defence the playing of Robert Duncan was frequently applauded.

Mrs. Morrison is visiting friends near Cayuga, and Mr. M. is studying the easiest way to pitch hay. He is said to be of the opinion that marriage is a failure.

PECULIAR TO ITSELF.
So eminently successful has Hood's Sarsaparilla been that many leading citizens from all over the United States furnish testimonials of cures which seem almost miraculous. Hood's Sarsaparilla is not an accident, but the ripe fruit of industry and study. It possesses merit peculiar to itself.

Hood's Pills cure Nausea, Sick Headache, Indigestion, Biliousness. Sold by all druggists.

Gents' Nobby Straw Hats, all the leading English and American styles; boys' and children's straw hats, cheap at Treble's, corner King and James streets.

TWO TORONTO BOYS

Suddenly Stricken to Death by a Bolt From Heaven.

THEIR FATHERS FIND THE BODIES.

Toronto, July 5.—As was reported yesterday, two young boys, named respectively Fred Richardson, 10 years of age, living with his father, Wm. Thos. Richardson, a machinist by employment, and residing at No. 11 Niagara street, and Thomas O'Riley, aged 11 years, son of Thomas H. O'Riley, a man employed on the cars and living at No. 27 in the same street, went to the Blantyre Industrial School picnic in the Exhibition grounds last Monday and were missed by their parents.

Yesterday, shortly after noon, the fathers of the boys, who had been searching for them ever since Monday evening, stumbled across their children's corpses, and found they had been killed by lightning. The fathers had been hunting for these boys at Mimico and along the lake shore, and they were just about to get the grappling irons to-day for the purpose of grappling in the lake for the bodies of their children, whom they supposed must have met with death by drowning, when they happened to go to the south side of the race track in the Exhibition grounds, and found the bodies of their children lying in the grass on the open space of about fifty yards between the south side of the race track and the band stand near thereto—a spot which people acquainted with the grounds will locate pretty easily.

The fathers of the poor boys immediately communicated with the police, and remained by the side of the bodies until police wagon No. 1 patrol arrived, and at their request the bodies were conveyed to Mr. McCabe's undertaking establishment, at No. 286 Queen street west.

It is painful to describe the condition of the bodies as they were seen. The lightning had struck O'Riley on the side of the head, and the electric fluid came out on the right hand, which was much blistered, and his face, after nearly two days' exposure, was much discolored—darkly, badly discolored; and as his heart-broken mother said, no one who had known her poor, dear, good-looking child would have recognized him in the same street in the face of the lightning took him also on the head, and passed out at his instep.

The boys had been friends together ever since they had known anything, and had gone to the picnic in the Exhibition grounds on behalf of the Blantyre Industrial School. It is supposed they were struck by the lightning in the storm just before the picnic was over on Monday evening. They were sitting on a fence together, and the lightning destroyed the fence, ripping up a post entirely, and throwing the poor children back into the same grass, where they were found by their fathers.

The funeral took place yesterday at five o'clock. Young Richardson was buried in St. James' cemetery, the service being conducted by Rev. Mr. Williams of St. John's Church, corner of Stewart and Portland streets, and O'Riley was buried at St. Michael's, Yonge street, the service being conducted by Rev. Dr. Tracey.

GLANFORD.
(From our own Correspondent.)

Glanford, July 2.—The garden party which was held at Daniel Reid's on Dominion Day was a decided success. There was a large crowd of people present, both young and old, and all seemed determined on having a good time. Prof. Jones' orchestra, numbering about 20 in all, furnished splendid music for the occasion. A good program of local talent was also presented. One of the pleasing events of the evening was an address by Mr. Wm. McClelland, B. A., who lately graduated at the Toronto University. A friendly game of baseball was played between Glanford and Caledonia, resulting in a victory for the former.

Mr. Philip Carroll is spending his vacation under the parental roof.

Dr. Gray, of Rochester, spent a few days in the village this week.

Mr. N. Buttrick is in the village at present attending to the affairs of the late Mrs. Wm. Armstrong.

Miss Maggie Logan is visiting friends in Hamilton this week.

Mrs. John Hendershott, of Brantford, is visiting acquaintances in our neighborhood.

Mr. Washington Smith met with rather a strange incident last week. Arising early one morning he went out to the garden, and saw, as he supposed, a coffin in a tree. Being an old sportsman and a good shot, Mr. Smith determined to shoot this game, but imagine his surprise, instead of a coffin, he had shot four of his fine hens.

Miss E. Dickenson, Miss Bella Armstrong and Miss Etta Smith have come home to spend vacation at Glanford.

Mr. E. Davey and Mr. Hunt have taken leave of their Glanford friends for the next six weeks.

The entrance examinations were held in Mount Hope last Thursday, Friday and Saturday by Mr. Faulkner, of Stoney Creek.

The Rev. Mr. and Mrs. Kelly were given a cordial reception by John Jones' Odd Society, on Tuesday afternoon, and will soon be comfortably settled.

Miss Ethna Higginson, of Toronto, is spending her holidays in our neighborhood.

John E. Armstrong spent a few days in the village this week.

SHEFFIELD.
(From our own Correspondent.)

Sheffield, July 3.—Mrs. Willard and Mrs. Donaldson, of Galt, were the guests of Mrs. P. H. Green this week.

Mr. and Mrs. Hastings, of Stratford, spent last week at Sheffield fresh from the Mount Forest friends.

Mr. Varley Bond, that Dominion Day is the guest of Mr. and Mrs. Wm. Young. Mr. Smith Willard's new barn was raised last Wednesday afternoon. Over 100 men were present and half as many of the fair sex. The barn, when completed, will be one of the finest in the township.

Rev. Mr. Culp, the new pastor of the Methodist Church, preached his introductory sermon last Sabbath evening. He was well received and appreciated audience. Mr. Culp comes to Sheffield from Montreal Theological College, full of spirit and ability. We would wish both pastor and people every success.

War! on acrofolia and every form of insipid blood is boldly declared by Hood's Sarsaparilla, the great conqueror of all blood diseases.

A BARNABO GIRL

Has a Paris Farmer Arrested Charged With a Serious Offence.

Toronto, July 5.—About 8 o'clock last night Constable Adams, of the Brantford police force, acting on a warrant, arrested Thomas Patton, of Paris, a well-known and respected farmer, on the charge of having ruined Annie Newman, his servant. Mr. Patton protests his innocence, but properly reserves his defence till the case comes into court. Accused was promptly jailed, and the charge will be heard in Brantford to-morrow.

Annie Newman, the complainant, is an inmate of Miss McIntyre's Rescue Home, Adelaide street west, in this city, where she has been since the latter part of March. Her story, as related to a reporter, is that when ten years of age she and her sister, two years older, were taken to the Barnardo Home at Hford, near London, Eng. That shortly after she was sent to Canada, and spent about one year and four months with Mr. Chisholm, farmer, Milton. She was then placed with Mr. Patton, the accused, where she remained until the date she entered the Rescue Home.

A child was born three weeks ago, of which she alleges Mr. Patton is the father.

Miss McIntyre, in whose care the girl is at present, says that Mr. Owens and Miss Loveday, who said they acted for the Barnardo Institution, called at the Rescue Home, and that she was very anxious to prevent all legal proceedings. They also desired to have the girl under their care again. To this the girl very strongly objected and, as a result, the affair was placed in the hands of the County authorities for the County of Brant.

The arrest has caused a great sensation in the locality where Mr. Patton resides, and his neighbors refuse to believe that there is any truth in the accusation.

ANCASTER NEWS.
(From our own Correspondent.)

The farmers of Ancaster have been quite busy for the past few days, and if the weather keeps fine the bulk of the hay will be housed this week.

On Friday evening of last week the St. John's Church congregation had a lawn social at the residence of Mrs. E. Eggleston. Quite a number were present and thoroughly enjoyed themselves, the Rev. and Mrs. Fessenden giving all a hearty welcome.

On Sunday last anniversary services were held in the Presbyterian Church both morning and evening. Mr. McKenzie officiating, giving practical sermons.

The Methodist Church was well filled on Sunday last to welcome the new pastor on the circuit.

The usual strawberry festival was held in Major's grove on Dominion day, July 2nd. There was a large turnout, the games being closely contested by the young people. The proceeds amounted to about \$175.

The Conservatives are very much since the last election, and the bottom has fallen out of the P. P. A. camp.

A DELICIOUS DESSERT.
Can be made with Price's Renet Wine. One teaspoonful will curd one pint of milk, which can be served with cream and sugar or wine sauce. It is nutritious and easily digested. Price 25 cents per bottle. For sale by grocers and druggists.

FURNITURE.

New Bed-room Sets,

\$10.50, \$13.50, \$15, \$18.50 to \$200. FIFTY DESIGNS.

Parlor Suites.

Plush, Tapestry, Brocatelles—a grand assortment.

Dining-room.

New Sideboards, Chairs and Extension Tables.

Baby Cabs.

The finest designs at lowest prices. It will pay you to call and look through our beautiful ware-rooms and stock. We will make the prices right.

J. HOODLESS & SON,

61, 63 and 65 King st. west.

WHAT

Might be, suppose advertisers were compelled to establish the truth of their statements by the results. The advertisements would shrink in space and number enormously. It might cripple the newspapers; the public and the truth-telling advertisers would be gainers. John F. Shea would welcome such an innovation. It would prevent any possibility of our ads.—the Women's Dongola Button Boots, Common Sense, we can prove to be reduced to \$1.00.

Our \$1.25 Women's Dongola Button Boots we can prove to be reduced to \$1.00. Our \$1.50 Women's Dongola Button Boots we can prove to be reduced to \$1.00.
