

lock, birch, pine, cedar, fir, lynn, elm, ash, spruce, tamarack, &c.

#### STREAMS AND HARBORS.

The largest streams (rivers they are called here,) on this part of the district, are not above the size of ordinary mill streams, for which purpose they would answer well, having generally falls or rapids within one or two miles of the Lake coast. Some of these streams at their mouths form convenient harbors for small boats, and may be ascended with them to the first falls or rapids, for which purpose the Huron, Pine, Yellow Dog and Riviere Du Mort or Nekomenon river, are the best.

The only harbors for vessels are at Presque Isle, T. 48 N., R. 25 W., and to the south of a point of land on the east side of Huron Bay, T. 52 N., R. 31 W. (See map.)

#### TRAP RANGE OF KEEWENAW POINT, &c.

This second hilly range commences at the northeast end of Keewenaw Point, and has a course a little to the south of west, for about eighteen miles, where it gradually bends to the southward until its general course is southwest, to the south boundary of the survey.

This range is from two to six or seven miles wide, and about eighty miles in length upon this district, and, from the east end of Keewenaw Point, to a little west of the east boundary of range 29, these hills occupy nearly its entire breadth. Here the southeast side of this range recedes from the Lake coast, and stretching inland southwesterly, passes along the northwest side of a small lake in township 55 north, ranges 32 and 33 west; from thence generally in a southwest direction, to the corner of sections 31 and 32, on south boundary of T. 51 N., R. 37 W.

The northwest boundary of this range leaves the Lake
