It is the traditional and unvarying policy of this house to keep its stocks in every line fresh and up to the minute by unsparing price reductions on remnants, broken lines and goods that have overstayed their time limit. Just now the application is in the Carpet Department. An unusually busy season has left us with three or four thousand yards of Carpet ends, varying in length from 10 to 100 yards. These remnants must be cleared from the shelves to make room for an immense repeat order now speeding across the seas, and on Monday morning they go on sale at the fractional prices listed below. Come early if you wish to share in a bargain offering the equal of which you are not likely to see for a long time to come.

THE VALUE OF CHARCOAL. Few People Know How Useful It is

in Preserving Health and

Costs Nothing To Try. Nearly everybody knows that char coal is the salest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same

leansing purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after

smoking, drinking or after eating onons and other odorous vegetables. Charcoal effectually clears and im-proves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the result of the result of

Collingwood, Nov. 22.—(Special.)—
The Collingwood Shipping Co. have under construction for the Midland Navigation Co. and will alunch on Wednesday, Dec. 5, the largest propeller ever built in Canadian or American waters. Work on the new leviathan, the 'Midland Prince,' was begun early in June. This last and incomparably the largest addition to the freight carriers on the Lake Subspect of the Purchase of these portions of the subspect of the Purchase of these portions as a molded depth of 31 feet, while her enginee are of 2500 horse.

Some idea of the enormous grain-carrying capacity of the 'Midland Prince' may be gathered from the fact that more than 300,000 bushels of wheat can be carried in her hold, which is divided into five compartments. This represents some 10,000 tons.

With the completion of the "Midland Prince' another one slightly under 500 feet in length will be immediately begun for a large grain carrying firm. In addition to these the Collingwood Shipbuilding Co. are at present engaged in building three large dump scows, and a powerful tug for the Dominion government to be used at St. John, N.B.
