

FOR AND ABOUT WOMAN

Three Ways of Using Grapes.

Grape Tapioca.
Press enough Concord grapes thru a sieve to make a quart of juice. Mix half a pound of sugar with a pint of water and simmer to a very clear syrup. Add the juice of the grapes as well as the juice of one lemon, and, finally, about half a cupful of tapioca that has already been properly softened. Cook slowly until the tapioca is clear; cool near the ice and serve with plenty of whipped cream.

An excellent breakfast dish may be made by combining Concord grapes with honey or farina. Stew the grapes until they are very soft, then press thru a sieve, that all but the seeds and skin may be extracted. To each quart of pulp add a teaspoonful of the cereal and a little salt and cook for fully three-quarters of an hour in a double boiler. It is better to make this dish the day before it is to be used. In that case it will have time to harden and may be served cold, in slices, with sugar and cream.

Grape Pudding.
Use one-third Concord grapes and two-thirds berries and sweeten with more sugar than would ordinarily be required, even in making fruit pies. Dust the top lightly with flour before adjusting the top crust, and make like any other pies.

There are several recipes for the making of grape pudding, some of which are served hot, while others are served cold. It is the cold pudding that is desired, and the recipe is given to make a pint of juice. Dissolve half a box of gelatin in cold water, and when it has become soft add a coffee cupful of boiling water, an equal quantity of sugar, the juice of one lemon, and, finally, when it shows indications of stiffening, fold in the stiffly beaten whites of two eggs and set near the ice until very cold. Before sending the pudding to the table unmold it and cover with well-sweetened whipped cream.

To make the hot grape pudding, butter an earthen baking dish and fill it with alternate layers of seeded grapes, sugar and bread crumbs. Make the last layer one of crumbs and bake in a moderately hot oven for about half an hour. Serve with hot sauce.—The Delineator.

A Practical Work Apron

178. Ladies' One-Piece Apron. Cut in sizes small, medium and large. The medium size will require 4 yards of 36 inch material. Here is sketched an excellent model for a large work apron. It is neat and practical and at the same time very becoming. The sides are fitted into the figure by darts and the back is extended to form straps that button on the shoulders. Percale, linen and gingham are serviceable for aprons of this kind.

A pattern of this illustration will be mailed to any address on the receipt of ten cents in silver or stamps.

THIRD WARD ASSESSMENT INCREASES ARE REPORTED

Property is Being Rated at Future Values—Day's Happenings at City Hall.

Ward three assessment:

Land increase..... \$1,052,239

Buildings, increase..... 2,055,183

Business increase..... 472,719

Taxable income increase..... \$50,870

Total..... \$4,430,511

Exemptions increase..... \$532,024

Population..... 122,121

The report of Assessment Commissioner Forman shows continued substantial progress in the business ward of Toronto. The commissioner's remarks on the reason for the wide gap between assessment and sale price of land, and his expressed intention to no little interest.

The following comparative table is significant:

Land..... 1909 1908.

Buildings..... \$39,048,248 \$37,996,109

Business..... 28,128,438 26,078,215

Income..... 16,872,239 16,403,564

Total assessment..... 91,873,970 87,443,459

Exemptions..... 11,052,346 10,530,822

Population..... 122,121 122,121

Mr. Forman says the land increase is fairly well distributed throughout the ward, the greatest proportionate gain in St. John's ward.

A word to explain.

Referring to the comment in the frequent wide disparity between assessed and selling values, the commissioner says that there is no one selling land in the heart of the city who is not asking future values. "We cannot hope," says the report, "to obtain assessments en bloc in the central part of the city, basing such assessments on special prices that are obtained for the prices that are being obtained."

The chief building increases are: Queen-street, \$233,000; Yonge-street, \$247,000; Wellington-street, \$183,000; King-street, \$171,000; Bay-street, \$155,000.

The commissioner intimates that the valuation of buildings needs revision since records of sales in the past considerable disparity between prices paid and assessed values.

To the increase of \$50,870 in income, \$773,000 is contributed by the section south of Albert and Bloor-streets.

The population increase, 1221 is 2.33 per cent, as against 2.30 per cent for last year.

Car Routes Altered.

Street railway traffic will be discontinued for a few days on King-street between Spadina-avenue and Bathurst-street to allow completion of a new pavement.

Manager Fleming, speaking of the continued decrease in gross street railway receipts, says the most serious shrinkages are on the lines which connect with the factory districts and that the laying off of large numbers of workmen is responsible. The great falling off in U. S. tourist traffic is another important factor.

A resolution of the Quebec city council highly approving the services of the contingent of Toronto policemen who attended the Tercentenary celebration, has arrived at the mayor's office.

The dog catchers are turning hapless unlicensed canines into the lethal chamber at the rate of ten a day.

Dr. Sheard, who has inspected the premises of twenty-five ice cream vendors, says that he found good sanitary conditions, but that of the vendors used brass moulds, which must be replaced.

Dr. Sheard is well satisfied with the manner in which the bread manufacturers observe the new bread laws.

Public Amusements

Put White and His Gaiety Girls are

pleasing the masses at the Star this

week, and the engagement closes with

the Saturday night's performance. Mor-

timer M. Thorne's "troupe" are un-

derlined for the coming week.

A melodrama which according to all

accounts cannot fail to appeal to the

lovers of that kind of entertainment, is

offering at the Majestic next week,

into "Slavery," a play of New York City

life in four acts and eight scenes,

which, new this season, will be the

feature of the season. There is plenty of

excitement and all of the various scenes are stirring,

and there is also a delightful love interest

and plenty of comedy relief from the

more serious moments.

The big free open-air show at Scar-

boro Beach is being remarkably well

patronized this week and the reputa-

tion of the park for good attractions

has been fully given afternoon and

evening performance of aerial gymnastics

that approached more closely

to a big circus than anything

heretofore seen in Toronto except un-

der canvas. For next week the man-

agement announces that there has been

secured the five Donaghy troupe, Eu-

during the week.

A highly enjoyable day is anticipated

to-morrow, when the Plumbers, Steam and Gas Fitters' Union holds

its annual outing.

KING LEFT FOR MARIENBAD.

Francis Joseph Was at the Station to Say Farewell.

ISCHL, Austria, Aug. 13.—King Edward left for Marienbad, where he will take the waters, this morning. Emperor Francis Joseph, who displayed wonderful activity during King Edward's visit, was at the railway station to bid his royal visitor farewell.

The emperor last night entertained King Edward at a gala dinner, during the course of which toasts were exchanged expressive of the mutual pleasure in the visit, the King congratulating Emperor Francis Joseph on the celebration of his jubilee and both dwelling with satisfaction on the friendly relations existing between the two countries.

The dinner was followed by a serenade given by the Vienna Mannergesellschaft, who, in obedience to flashing signals, beacon fires were lighted at two hundred points in the surrounding mountains.

The emperor and his suite thrice viewed the public fete and illuminations until nearly midnight when the Emperor escorted his royal guest back to the hotel.
