DISCUSS MATTER

OF PUBLIC PARK

Council Will Wait on Employers of Labor Regarding Men Needing Work.

In view of curtailment of labor by several local industrial enterprises in New Toronto, the matter of unemployment affecting residents there came up for the consideration of the town council at their meeting held in the municipal chambers last night. After discussion a deputa- tion of councilors was elected to wait on the manufacturers and employers of labor in the town with a request that in cases where a curtailment of hands was necessitated, consideration would be given to men resident in New Toronto, and especially to preference given, where possible, for retaining the services of married men. It is contended that the interests of the industrial enterprises and the town are mutual, and that residents and ratepayers are entitled to every con- sideration and preference.

The matter of a public park for the town took center form at this meeting and a petition signed by a number of prominent citizens and presented by President Lawson of the newly formed athletic association. The proposition embodied the proposal to purchase seven acres of land from Reeve Wm. Jackson, Etobicoke, at a price of \$4,000 per acre. The total amount, according to the offer, would be spread over a period of 20 years at 6 per cent, interest, and the owner is agreeable to accepting de- bentures for the same.

President Lawson, who is manager of the Merchants' Bank in New Toronto, is anxious that definite action be taken in connection with the option and succeeded in obtaining not only the approval of the council, but their promise to join over the proposed site and if satisfied as to same being suitable will pass a bylaw for the site of the park and sub- port the project as far as lies in their power.

Several other matters of important local interest were satisfactorily dealt with, final disposal of which will be made at a special session called for Wednesday evening.

At a meeting of the British Imperial Association held last night at the Earlscourt Public School several im- portant matters came up for discus- sion. The road through Prospect Park Cemetery was taken up and debated on by Messrs. Parfrey, Tom Jones, R. J. Kincaid, J. Thompson and W. Walsh. It was moved by J. Ashton and seconded by Robert Kirk that the secretary write to the York township council asking them to make the richest township council in Canada, provide ways and means to co-operate with the cemetery board so that a perma- nent right-of-way be made for school children and working men to enable them to get to their work.

The income and expenditure of the Neighborhood Workers' Association was then discussed, and the secretary was instructed to write and ask Mr. Stapleton, secretary of the N.W.A., to explain certain matters in connection with his association. A resolution was also passed that Mr. Chisholm be asked to place a sanitary convenience in the basement of the new fire hall now under construction, for the use of the public.

Members waxed hot and strong when the need of a public convenience for Earlscourt was brought up, and it was decided to write to the board of control asking that this much needed matter be placed on the estimates for 1921.

COUNTY AND SUBURBS

LEASIDE DANFORTH

AEROPLANE FOR AERIAL SURVEY

Ratepayers Will Discuss the School Situation and De- cide on Site.

The McCarthy Aero. Service who have secured part of the Aerodrome at Leaside, are busily engaged on the construction of their new airplane, which it is expected will be completed within the next month, to carry out the aerial survey and photographic work under contract for the Canadian government, between New Liskeard, Cochrane and Moose Factory.

A meeting of the ratepayers of Leaside has been called for Monday evening next, to be held in the Canada Wire and Cable Company's office, to discuss the school situation in the town.

As there are about 100 children of school age, it is considered desirable to immediately secure temporary ac- commodation, pending the election of the school trustee board, which will shortly take place.

It is understood that the building formerly known as the Greek restaur- ant in the war years, will be the choice of the ratepayers, as a tem- porary school.

Complaints are being made regard- ing the filtration plant, situated on Soudan avenue, which has become obnoxious since the advent of the summer weather. The overflow has made a channel running thru the cent of the town and a suggestion is made that the city authorities run a trunk sewer to empty the overflow into the Don River.

Pred Irwin, Canada Wire and Cable Company, Leaside, is leaving for his annual vacation, which will be spent at Firefly Valley, near Bowmanville.

LOCAL IMPROVEMENT NOTICE

TAKE NOTICE that the Council of the Corporation of the Township of York, in pursuance of Section 3 of "The Local Improvement Act" and amendments thereto, intends to carry out the following works as local improvements, and in- tends to specially assess a part of the cost upon the lands abutting directly on the work, namely:

PAVEMENTS.

(Cost to be paid in 10 annual installments.)

1. Arlington Avenue—A 24' Asphalt or Bituminous Macadam Pavement with concrete gutters on a 5' concrete base on Arlington Avenue from the north city limits northerly to Normanna Avenue, an approximate distance of 765 ft.

The estimated cost of the work is \$15,000, of which \$650 is to be paid by the Corporation. The estimated annual special rate per foot frontage is \$1.32.

2. Atlas Avenue—A 24' Asphalt or Bituminous Macadam Pavement on a 5' concrete base, with concrete gutters, on Atlas Avenue, from the north city limits northerly to Normanna Avenue, an approximate distance of 765 ft.

The estimated cost of the work is \$15,000, of which \$650 is to be paid by the Corporation. The estimated annual special rate per foot frontage is \$1.32.

3. Barrie Avenue—A 24' Asphalt or Bituminous Macadam Pavement on a 5' concrete base with concrete gutters, on Barrie Avenue, from Atlas Avenue to the west end, an approximate distance of 325'.

The estimated cost of the work is \$6,300, of which \$1,040 is to be paid by the Corporation. The estimated annual special rate per foot frontage is \$1.32.

4. Dufferin Street—A 24' Asphalt or Bituminous Macadam Pavement on a 5' concrete base with concrete gutters, and a 6" concrete curb, on the west side only, on Dufferin Street, from the north city limits, northerly to Eversfield Road, an approximate distance of 325 feet.

The estimated cost of the work is \$13,750, of which \$1,300 is to be paid by the Corporation. The estimated annual special rate per foot frontage is \$1.32, and on the east side \$1.44 per ft.

5. On the east side of 132' Asphalt or Bituminous Macadam Pavement on a 5' concrete base with concrete gutters, and a 6" concrete curb, on the north side only, on Earncliffe Road, from Glenholme Avenue easterly to Oakwood Avenue, an approximate distance of 765 ft.

The estimated cost of the work is \$15,000, of which \$2,500 is to be paid by the Corporation. The estimated annual special rate per foot frontage is \$1.32, on the south side, and \$1.44 on the north side.

6. Lauder and Miller Avenues—A 25' Asphalt or Bituminous Macadam Pavement on a 5' concrete base, with concrete gutters, on Lauder Avenue, from the south street line of Miller Avenue, northerly, to the north street line of Miller Avenue, approximately 175 ft.

and a 24' Asphalt or Bituminous Pavement on a 5' concrete base with concrete gutters, and a 6" curb on the north side only, on Miller Avenue, from Lauder Avenue westerly to west limit of Reg- istration Plan No. 2156, an approximate distance of 120 ft. The estimated cost of the work is \$18,300.00, of which \$4,350.00 is to be paid by the Corporation. The estimated annual special rates for foot frontage are as follows, viz:

(a) For the 25 ft. Pavement on Lauder Avenue, \$1.55.
