Dear Sir:-

Your file 116659-5 Feb'y 13th, 1912.

Referring to the estimated-cost-of doing necessary repairs to the Industrial School buildings at Kamloops covered by above file reference that which I sent you on March 27th was an incomplete estimate. I now enclose complete estimate of repairs needed which amount to \$5032.00 and \$500.00 is necessary for installing electric light.

There is also an estimate put in for New Chapel and Assembly Hall of \$5500.00

The total cost of repairs and addition amounts to \$10,532.00

As Mr. Smith states it would only be necessary for an officer of the Department from your office to look over the buildings which will convince a person of themselves of the necessity of improvements asked for being made at as early a date as possible.

I would be pleased to hear from the Department of what decision is given on these buildings.

I have the honor to be,

Your obedient servant,

J. H. Munro

Inspector of Indian Agencies.
