## BAY QUINTE CONFERENCE.

The most flourishing Auxiliary of this Society is within the bounds of this Conference, that of the “St. Lawrence Camp Ground.”

It was one of the first established, and has kept steadily at work ever since, raising each year from forty to fifty dollars. If we could have such an auxiliary at each of our camp-grounds the interest of the Society would soon deepen and spread.

Mrs. Wm. Blair ably represented the General Society at this Conference in the late session at Morrisburg, renewed interest was manifested in the workings of our Society, pledges of help and work freely given, and we sincerely hope by the next Annual Report, to be able to publish a large increase of funds from this Conference.
