

RANGES.

The new Ranges at Cote St. Luc are still in an incomplete and unserviceable state. The Militia Department, during the past season, have placed 10 second-class target frames in position, but without the necessary background, or the material for using the Targets; and before the Range can be of any service to this Association, it will be necessary to have 20 more second-class and 6 first-class targets, with butts and firing points complete.

There is as yet no accommodation for the Caretaker, or Armory for rifles and ammunition, or Storehouses for the targets, flags, mats, &c., nor any shelter whatever for Markers or competitors against rain and bad weather.

The C. P. R. Station in the West End will be open early in the year, and some arrangement should be made with the Company for reduced fares and special train accommodation.

PUBLIC PRESENTATION OF PRIZES.

No public presentation of Prizes took place this year, but there is no reason why it should not be made a very pleasant feature of our next year's meeting. The surroundings of the new ranges at Cote St. Luc are very favorable for a reception of this kind.
