**SAFETY AT ANY SPEED**

In both Series "18" FOUR and Series  
"18" SIX, Studebaker has concentrated in  
refining, perfecting, and strengthening one  
of the best full-floating axle systems ever  
put under a car, regardless of price.

In qualities of steel; in development of  
design, in accuracy of manufacture, Stude-  
baker could not improve on its construction,  
even if it manufactured a car to sell for  
\$5000.00.

The weight of the car; the strain of  
stopping, starting and turning the car; the  
strain of side-thrust in turning corners at  
high speed, are all absorbed by the giant  
strong axle housing, and all of these strains  
and the weight of the car, are carried on  
this housing on big Timken bearings.

## LOCAL NEWS

**BRITISH MAIL**  
A British and foreign mail will close  
on Saturday, March 24; letters at 7 p.m.,  
parcels at 6 p.m.

**MINIATURE FLOOD**  
A miniature flood was let loose about  
noon today in Coburg street, near the  
Knights of Columbus building. The top  
of a fire hydrant was badly smashed  
when an automobile was backed against  
it. The collision resulted in damage to  
the hydrant alone, the car, beyond be-  
ing scratched, escaped practically un-  
scathed. For a time a large stream of  
water flowed down the hill, but this was  
later checked when it was turned off  
by the water works department.

**CHANGE IN DUMPING GROUNDS**  
It was decided this morning to close  
the first street-Cranston avenue dump,  
on March 31. The Victoria Square  
dump will be opened up, on Monday,  
April 2. This change has been decided  
upon by the public works department in  
view of the desire to make progress in  
the shaping and finishing of Victoria  
Square. Other plans regarding city  
dumps are now under consideration by  
the public works department and will  
likely be brought to a head within the  
next few days.

**SEDAN THREATENS  
COCO-COLA ARMY**  
Shortage of Supply in St. John Due  
to Difficulties of Transportation  
— New Supply Expected in  
Near Future

A Sedan threatens the great army of  
Coco-Cola drinkers in the city of St.  
John. A reporter of the Times learned  
this morning that difficulties in trans-  
portation and the consequent embargoes  
on railway lines may bring about a con-  
dition of affairs in this city among Coco-  
Cola drinkers Sahara-like in its effect.  
Thanks, however, to the foresight of  
some of the dealers, the presence of an  
oasis in the desert of soft-drinks may  
somewhat relieve an otherwise aggrava-  
ted condition of affairs. It is understood  
that one house, which handles a con-  
siderable quantity of Coca-Cola, has at  
least five shipments on the road. The  
wholesalers are optimistic as to the out-  
look and it is expected that the equip-  
ment was received in the city this morn-  
ing.

**ARCHIE WALSH, BOWLING  
CHAMPION, COMING TO  
THE NEW Y.M.C.A. ALLEYS**

According to word received this  
morning by George Magee, manager of  
the Y.M.C.A. bowling alleys, Archie  
Walsh, champion Canadian bowler, will  
arrive in the city on Saturday from Bos-  
ton and will start a tour of Canada giv-  
ing bowling exhibitions in Canadian  
cities where arrangements have been  
made. Through the instrumentality of  
Mr. Magee, Walsh will give his first  
exhibition of the tour in this city on the  
Y.M.C.A. alleys, 418 street. The fact  
that Walsh is a former St. John boy  
undoubtedly will create much interest  
among the bowling enthusiasts of his  
native city.

**HOUSEWIVES' LEAGUE TO  
LOOK INTO THE MATTER OF  
NEW ELECTRIC LIGHT RATES**

The new electric light rate schedule,  
recently announced for the city of St.  
John, was up for discussion at a meet-  
ing of the St. John Housewives League  
held yesterday afternoon in the King's  
Daughters Guild. A clear conception  
of the intent of the new company could  
not be gained from nor could any de-  
tailed analysis be placed on the matter  
by any of those present. It was decided  
to ask the advisory committee of the  
league to wait on the officials of the new  
company and ask for a more thorough  
explanation of the schedule.

**ST. JOHN BOYS TOGETHER  
UNDER MAJOR FISHER**

With the 82nd Battery, under Major  
Fisher of St. John, which was reported  
as arriving in France recently, are Al-  
lan Clark, son of R. E. Clark of the At-  
lantic Lithograph Co. and who lived at  
Fair Vale, and J. Arnold Gibbon, son  
of J. S. Gibbon.

Allan Clark went overseas with the  
68th Battery and was transferred to the  
82nd, a few weeks ago in England, when  
Major Fisher was placed in command of  
that battery.

J. Arnold Gibbon enlisted in Toronto  
early in January, 1916, in the 69th Bat-  
tery and went overseas with a picked  
draft of fifty last July, and has been in  
training in the 82nd since that time. He  
was gunlayer and was later appointed  
bombardier.

**CORP. C. W. McLEAN  
ILL IN HOSPITAL**  
Capt. C. W. McLean of North End  
has received a card from his son, Cor-  
poral Cecil W. McLean of a battery  
now in France, stating that he had been  
admitted into hospital sick.

As Captain McLean has received no  
official word his son's illness is thought  
not serious.

In a letter from him this week he ex-  
pressed thanks to the scholars and tea-  
chers of the Alexandra School for re-  
membering him with their Christmas  
stockings.

STAGE SET FOR  
SECOND SEASON OF  
DAYLIGHT SAVING

Clocks Will be Moved Ahead at  
Midnight, Sunday, April 29;  
Old Time to be Reverted to at  
Midnight, Sunday, September 2

The stage has been set to give Father  
Time a boost of one hour at mid-night  
on Sunday, April 29. This will see the  
second application of daylight saving in  
the city of St. John. Last year the ex-  
periment was tried and generally found  
to work satisfactorily. Some objections  
were raised in certain quarters, but these  
proved to be the exception rather than  
the rule.

Any objection that was found, in so-  
lately instances to the application of the  
daylight saving system, was so thor-  
oughly overshadowed by the general  
benefits accruing from the scheme as to  
make it a negligible quantity.

Common Clerk Wardrop said to a  
reporter of the Times this morning, that  
the daylight saving scheme would auto-  
matically come into full force and ef-  
fect at mid-night, on Sunday, April 29.  
At this time all clocks in the city will  
be moved ahead one hour and the run-  
ning schedules of the suburban trains  
changed in accordance with the scheme.

The adoption of the scheme in St. John  
this summer on the part of business  
houses and corporations promises to be  
even more general than it was last sum-  
mer. The 1917 period of daylight saving  
will automatically go out of being at  
midnight, Sunday, September 2. It will  
be remembered last year it was pro-  
posed to continue the daylight saving  
system up until the last Sunday in Sep-  
tember. The experience gained last year  
will be made use of this summer.

Business men and others throughout  
the city are awaiting with a considerable  
degree of anticipation the ushering in  
of the daylight saving system which won  
many adherents last year in St. John.  
No intimation has yet been made as to  
whether or not the system will be uni-  
versally adopted throughout the domin-  
ion this summer.

**MARGARET ANGLIN  
IN FESTIVAL OF GREEK  
PLAYS IN NEW YORK**

Symphony Society and Walter  
Damrosch Are to Co-operate  
With Her

Arrangements have been concluded by  
the Symphony Society of New York  
with Margaret Anglin and Walter Dam-  
rosch to give a festival of Greek plays  
in New York next winter, similar to that  
given by them in London last year during  
the Panama-Exposition.

During that engagement a situation  
arose practically unprecedented in the-  
atrical history. Within a few hours af-  
ter the opening of the subscription,  
seats for all performances were entirely  
sold, and the only advertisement carried  
from that time to the date of the pro-  
duction was an advice to the public not  
to make the journey to the Greek the-  
atre in the hope of securing admission.  
This, notwithstanding its capacity of  
nearly 10,000.

Miss Anglin's first appearance in the  
Greek classics was made as Antigone in  
1910, the second as Electra in 1918, and  
during the San Francisco Fair period as  
Ephigenia and Medea, for both of  
which Mr. Damrosch composed and con-  
ducted the music.

He is now at work on a setting for  
Electra which will be the first offering  
in New York. The others with the  
Damrosch music already produced will  
follow.

The entire New York Symphony Or-  
chestra will naturally be utilized under  
Mr. Damrosch's direction and unusual  
musical decorations are being devised to  
interpret the spirit of the plays.

A tour of the principal cities with the  
orchestra, company, Mr. Damrosch and  
Miss Anglin will follow in the spring,  
extending to the Pacific Coast, where  
another Greek play hitherto unproduced  
in the United States will be added to the  
repertoire.

**GOES TO TORONTO FOR  
ARTIFICIAL FOOT**

**Pte. J. Leo Killorn Was Wounded  
at Hooge and Amputation of  
Foot Necessary**

Private J. Leo Killorn, son of Mrs.  
Jennie L. Killorn of this city, left to-  
day for Toronto where he will secure  
an artificial foot. Pte. Killorn went  
overseas with an infantry battalion and  
saw much fighting in France. At the  
battle of Hooge last summer he was hit  
in the foot and this necessitated ampu-  
tations finally resulting in the loss of  
the foot.

Pte. Killorn was through several hospi-  
tals since he was first wounded. He  
speaks in the highest terms of the work  
of Captain Hooper among the wounded  
soldiers at Romgate. When Pte. Kil-  
lorn reached Halifax a few months ago  
he went direct to Toronto where he left  
measurements for an artificial foot. He  
has received word that the foot has been  
completed. Upon receiving it he will  
get his final discharge from military ser-  
vice and will, it is said, secure a position  
in the local customs department.

Mrs. Killorn has another son, Pte.  
Matthew, now in France with the R.  
C. R., having gone away with the 140th  
Battalion. Pte. Leo since his return to  
St. John, has been receiving a hearty  
welcome on all sides and although he  
bears a life long mark of service well  
done at the front, he is satisfied that  
he went.

**DIRECTORS MEET**  
A meeting of the directors of the Val-  
ley Road was held here today. R.  
O'Leary of Richibucto, N.B., F. W.  
Sumner of Moncton and Ross Thompson  
of Fredericton, chief engineer of the  
road, were in the city attending the ses-  
sion. Matters of routine business were  
reported.

**Kitchen  
Cabinets**

probably save the housekeeper more unnecessary work and  
worry than any other device which has been introduced by  
modern thought and ingenuity.

We are showing a number of models of the famous KNECHTEL line, which are made in  
Canada and are undoubtedly the best values on the market today. They have several pa-  
tented features which cannot be used by other makers, which space will not permit us to enu-  
merate here.

But we are showing a couple of samples in our window and will be glad to show them  
to anybody interested.
