

DEFECTIVE BEAM IS BLAMED FOR DEATH

Jury Hears Evidence in the
West Side Fatality on
Saturday.

The inquest into the death of William Mosher, Jr., of 18 Hanover street, a longshoreman who fell into the hold of the Anchor-Donaldson Line ship Alconada, at No. 6 berth, Saturday afternoon about 5 o'clock, was continued last evening before Coroner Dr. F. L. Kenney and jury at No. 7 Fire Station, Queen street, West St. John, and after a deliberation of about half an hour the jury brought in the following verdict: "We, the jury empanelled to inquire into the death of William Mosher, and that he died on board the steamship Alconada at No. 6 berth, West St. John on Feb. 16, 1924, as result of fracture of the skull after falling into the hold of the said steamer and that in our opinion the accident was caused by a defective cross ship beam."

Signed: Edmund Howard (foreman), J. L. Wright, Robert Carlin, Jasper Cameron, Bradford Nice, John F. Williamson, Fred Desjardins.

Cyrus F. Inches was present at the hearing in the interest of the local agent of the Anchor-Donaldson Line and the ship, as well as quite a number of spectators. Evidence was given by Michael Donovan, Sherman B. Grey, John F. Jones, James E. Gogan and E. Devy Ring, Capt. T. M. Turnbull of the ship; John Smith, first officer, Neil Patterson, chief engineer; Capt. A. J. Mulcahy and Capt. M. N. Gillies.

GETS DOUBLE FINE
In the Police Court yesterday Fred Gallant was fined \$1 or 80 days in jail on the charge of assaulting Kenneth Friars and \$10 or 80 days in jail on the charge of fighting. William Moore was found guilty of fighting with Gallant but no sentence was pronounced as the Magistrate said he understood Moore was to be removed from the city today and taken back to Dorchester to serve out the unexpired term of a sentence. Evidence was given by officers McBride and McAuley, Gordon Parke, Clifford Parke, Daniel McLean, Isabel and Ethel Moore and the two prisoners.

Warmth and Safety for Little Bodies

No precaution is too great to take when guarding the health of a child. The results of a cold, of damp or cold, may be so heartbreaking that parents should use every means in their power to arrest their course. When applied to the human body THERMOGENE generates a comforting penetrating warmth that guards against the serious consequences that may quickly result from a cold or chill if neglected.

Doctors the world over advise the use of Thermogene. It is used in the world's famous hospitals.

Get rid of constipation by internal cleanliness

THERE is no reason why you should suffer from constipation. Headaches, biliousness, sleepless nights, heaviness, are nature's warning that intestinal poisons are flooding your system. If allowed to continue, you may become a victim of serious organic disease.

In constipation, say intestinal specialists, lies the primary cause of more than three-quarters of all illness including the gravest diseases of life.

Laxatives Aggravate Constipation
Laxatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition and often lead to permanent injury.

Why Physicians Favor Lubrication
Medical science, through knowledge of the intestinal tract gained by X-ray observation, has found at last in lubrication a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage out of the body. Thus Nujol brings internal cleanliness.

Not a Medicine
Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. Like pure water it is harmless.

Get rid of constipation and avoid disease by adopting the habit of internal cleanliness. Take Nujol as regularly as you brush your teeth or wash your face. For sale by all druggists.

LOCAL DELEGATION HEARD AT OTTAWA

An Ottawa despatch last night announced that the delegation from St. John which had gone to Ottawa to ask for facilities of the harbor, had waited on Hon. Dr. J. H. King, Minister of Public Works, yesterday afternoon. The Canadian Pacific Railway was also represented on the deputation. It was stated that the present lack of equipment for the adequate handling of grain was seriously handicapping the port and it was urged that the Government consider the construction of several new grain conveyers at piers which at present, it was said, were without proper facilities for the transfer of grain.

The Minister was told that the matter of the building of the Negro Point breakwater had already been approved by the Government and the members of the deputation felt that it was only a question of time until the work would be undertaken.

Hon. Dr. King told the deputation that the Government was most eager to improve the port facilities and that he would see that the matter was given consideration. The Minister added that it was not the intention of the Government to undertake any very large expenditures.

Among the matters taken up with Dr. King the despatch says, was the matter of a new pier. The whole matter was gone into very thoroughly and while the Minister was not in a position to give any immediate reply it is known that some of the matters discussed have already been receiving the consideration of the Government.

Only One in Five escapes Pyorrhea

When your gums bleed, take heed. Nature is warning you of Pyorrhea's coming. It strikes 4 out of every 5 past 40, and thousands younger, too. Make Forhan's For the Gums your aid in fighting this disease that destroys the teeth and health. For a healthy mouth, brush your teeth with refreshing Forhan's.

More than a tooth paste—it checks Pyorrhea 35c and 60c in tubes
