

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JUNE 22, 1923

LORD AMPHILL

Grand Master of the Grand Lodge of England, A. F. & A. M., who is coming to Canada for the Grand Lodge of Canada, to meet in Toronto on July 17, 18 and 19. This will be the first time the Grand Lodge of England, the mother of grand lodges, will be officially represented on this continent.

Dynamite Kills Three in Hamilton

Hamilton, Ont., June 22.—Three men were fatally hurt and five injured yesterday when dynamite exploded in a sewer under construction on Kenilworth Avenue, near the plant of the Libby Owens Company. Fred Slater died before he reached the hospital, and H. Giste and S. Jenkins succumbed about an hour later.

MORNING NEWS OVER THE WIRES

The liquor carried aboard the steamer Berengaria will be seized on her arrival at New York and a test case made of it. Secretary Mellon has announced that all ships bringing liquor into the United States, even though they were sailing under foreign flags and had the liquor under seal, would be liable to be seized.

Miss C. E. Carmichael of New Glasgow, president of the National Council of Women of Canada, speaking at the annual meeting in Halifax yesterday, advocated that a woman be one of the

trio to represent Canada at the Assembly of the League of Nations and that a strong request that this be done had been made to the Government.

John Kirk, aged sixteen years, of Yarmouth, died last evening from injuries received from a bullet wound in the head received accidentally while he was cleaning a revolver.

Mrs. Ellen Egan of Halifax, died in her nightclothes, was found dead in a pool of blood under a window of her home early yesterday.

Daniel Callender, a native of St. John, eighty years of age, a retired railway man, committed suicide in Truro yesterday by taking poison. He was suffering from the effects of a nervous breakdown.

At the Presbyterian held in St. John's Presbyterian church, Moncton, speakers yesterday were Miss McCully of Truro and Mrs. R. A. Jamieson of St. John. Mrs. W. H. Irving of Moncton was elected a delegate to the annual camp at Chatham.

At the afternoon session Miss Jessie Jamieson reported on the Mission Bands, and Mrs. W. A. Henderson on the Young People's Missionary Society. Miss Murphy of Minto spoke on "The Settlement Worker."

Sir Thomas Lipton, the redoubtable Irish yachtsman, will challenge again this year for a series of races for the America's cup, the races to be held in the summer of 1924.

John Gibson of Toronto has been nominated as a director of the Rotary International at the annual meeting in St. Louis.

The French steamer Pro Patria, plying between North Sydney and St. John, was seized yesterday morning at North Sydney by Canadian customs officers on a charge of smuggling liquor.

Harvard University yesterday conferred on Premier King the honorary degree of LL.D. Mr. King was graduated from the university in 1898 with the degree of M. A. He took his B. A. at Toronto University.

E. W. Beatty, K. C., president of the St. John's Club, speaking at a Canadian Club dinner in London last evening, said that Canada was slow in advertising its undoubted possibilities.

The will of Daniel Pierce, the father, was probated here. One of its provisions is—

"I have arrived at a definite conclusion that it is by no means a safe plan of education to send a son to any of the large colleges, and it is my wish that my sons be not sent to such a college, believing that there are other means of obtaining an education as good and at the same time safer as to the quality of the man produced."

Southampton, England, June 19.—(By The Associated Press).—E. J. Dumville, seventy-five years old, a New Jersey manufacturer who was returning to his native England to spend the last days of his life, died this morning aboard the steamship Aquitania.

Mr. Dumville had passed the alien's entrance examination and was talking to friends at the door of the smoking saloon when he dropped lifeless to the floor.

Mr. Dumville was born in a suburb of London, had lived in the United States fifty years and had not been in England for thirty years.

5,000 AMERICANS SAIL FOR ABROAD EACH WEEK
Washington, June 22.—The annual European tourist movement is now at the height of its swing, a compilation today by the Passport Bureau of the State Department shows. Although the summer-time outpouring of sightseeing Americans to overseas countries was checked for a time by the war scares growing out of the Ruhr occupation and other unsettled conditions abroad, the exodus during May averaged more than 5,000 persons a week.

The passports issued by weeks totaled: May 1-5, 4,794; May 12-16, 5,108; May 14-19, 5,622; May 21-26, 5,638; May 28-June 2, 4,352; June 4-9, 5,634; June 11-16, 4,456.

DISCUSS LOAN TO GREECE

Geneva, June 22.—The finance committee of the League of Nations met yesterday to discuss a loan to Greece for refugee relief. The committee will prepare a report for the league council, whose meeting has been postponed to July 2.

Laxatives Replaced By the Use of Nujol
Nujol is a lubricant—not a medicine or laxative—so cannot gripe. When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication. Try it today.

Present Petition For Option In The Matter Of Pasteurization

At a conference in City Hall yesterday between the St. John County Milk Dealers' Association, Dr. W. F. Roberts, Minister of Health, officials of the Board of Health and members of the Common Council, it was urged that citizens be given the right to buy either pasteurized or natural milk. Dr. Roberts promised to give a decision as soon as possible. J. N. Riley, president of the Milk Dealers' Association, presented a petition said to be signed by 11,000 people, including nine doctors, Dr. W. W. White, Dr. C. M. Kelly, Dr. J. S. Bentley, Dr. G. B. Peat, Dr. M. Case, Dr. H. D. Fritz, Dr. J. W. Daniel, Dr. L. A. McAlpine and Dr. W. B. McVey. E. P. Raymond represented the dealers legally.

Dr. G. G. Melvin, chief medical health officer was present.

Mr. Riley asked that Adolph Stearns, manager of the City Road plant, should be requested to leave and Mr. Stearns complied. Mr. Riley then proceeded to attack compulsory pasteurization, saying that it had caused a loss of trade to the dealers. He added that the people had been getting milk from the City Road plant that was unfit for human consumption.

He added that, if the product of the plant had been as good as the start as it now was, there would have been no argument for complaint. He did not know of any external cause for the bad quality of the milk from the City Road plant.

Mr. Riley's Offer.
Pasteurization, Mr. Riley said, was designed to create a monopoly in the milk business here. He suggested a compromise as follows: (1) County milk dealers be allowed to deliver the milk in its natural state. (2) City dealers to operate under the pasteurization law until October 1 next.

After October 1, a well-equipped washing and sterilizing plant could be erected to comply with the health regulations and all citizens could purchase whatever kind of milk they desired. Mr. Riley then read the preamble to the pasteurization law.

J. M. Donovan, a county dealer, declared that pasteurization was putting the county milk dealers out of the business. "There were times when I made a surplus and then other times the other fellow made it," he said. "Now, Mr. Stearns gets all the over-plus," said Mr. Donovan.

Mr. Desmond, a dealer, said his family had been in the business for seventy years. It would not be long, he said, before they were out of it.

Mr. Riley charged that pasteurization had been brought in force to find a job for Inspector J. F. Tilley.

Dr. Roberts—"Absolutely false," Mr. Riley repeated the statement "without fear of contradiction," he added. Dr. Roberts again contradicted it.

Mr. Riley continued his attack on Inspector Tilley, charging he had worked with one end in view, of getting a job as pasteurizing inspector with a "big fat salary attached."

He declared it was "most erroneous to think that pasteurization reduced the infant death rate."

Mr. Riley said he would make the same charge if Mr. Stearns were present.

Dr. Roberts: "This is your meeting, not ours, and you asked him to withdraw."

Mr. Raymond said that it was an injustice for the legislature to pass laws of this kind and declared that he could have convictions under this act set aside. Mr. Riley said that the population of the county was decreasing and that he had noticed empty houses. Questioned about this he made the statement that it was due largely to pasteurized milk.

Dr. Roberts Speaks.
Dr. Roberts said he had listened carefully to the remarks made by the various persons present. The Department of Health, of which he was head, was in a large measure responsible for the piece of legislation that he was prepared to stand back of that legislation.

It had become law through his signature. He said he was not unkindly disposed towards the citizens by compulsory pasteurization and as Mr. Riley had said, probably there would have been no complaints but for the quality of the product from the City Road plant.

"I should say to as many of the citizens as are here today, however," declared the Minister of Health, "that for ten days ending today, we have not received one word of complaint regarding pasteurized milk." He had expected that it would take fully three months to secure results of that kind.

Dr. Roberts said his notes of the meeting were quite comprehensive and that he would take the entire matter under advisement at once and give his decision as soon as possible. He said he was glad to meet the milk producers and listen to their views. He had been born and brought up in the city of St. John and there was no one who took a greater interest in St. John's welfare than himself. The policies he had introduced and given effect to had been fashioned honestly and fearlessly with the sole idea of making this province the best place in the world in which to live; that sickness might decrease—that homes be made happier and freer from disease.

From all parts of Canada and the United States, he was receiving letters of commendation of the progress this province had made in public health legislation. "They come here seeking our advice on these important matters," he said. He predicted that within a few months the milk consumption would be three times what it now was.

In reply to Commissioner Thornton, Dr. Roberts said that physicians in several cases had ordered raw milk because it was believed that the change to pasteurized milk should be made gradually. Dr. Roberts read a telegram from Dr. Charles J. Hastings, of Toronto, a leading health officer.

The telegram declared that Toronto was experiencing no difficulty with pasteurized milk. Pasteurized milk, said Dr. Hastings, was safer and any municipal authority that permitted the sale of unpasteurized milk was guilty of criminal negligence.
