## The phonograph that amazed St. John can be bought!

There is a rumor abroad that the instrument which triumphed in the dramatic comparison test, made last Monday at the Imperial Theatre, was a special exhibition model. That rumor is false. The instrument was a regular Official Laboratory Model,—out of our own stock.

Every Official Laboratory Model in our stock is guaranteed to sustain the same test.

If you were one of those, in Monday's audience, who wistfully exclaimed: "Wouldn't it be wonderful if I could buy a phonograph like that?"—know that you can. Know that it will perform this miracle every day for you in your own home.

## The NEW EDISON

"The Phonograph with a Soul"

Come in and hear for yourself the Official Laboratory Model's marvelous realism. Find out about our Budget Plan, which enables you to own an Official Laboratory Model for a small down payment, the balance on a gentleman's agreement to suit your convenience.

Note.—The test at the Imperial Theatre was made by Leola Lucey, the world-famous soprano. She compared her living voice with its Re-Creation by the New Edison. There was no difference between the living voice and the Re-Created voice.

The New Edison stands absolutely alone in this achievement; no other phonograph has ever sustained this test of comparison.
