

KLONDIKE GOLD CAUSE OF DIVORCE

Famous "Skookum Jim" Mason's Daughter Leading Figure in Action.

Seattle, Wash., March 16.—Klondike gold was the cause of a divorce granted to the daughter of one of the Klondike discoverers in the Superior Court here this week.

When Harry Gordon Ebbert married Daisy Mason, daughter of the late "Skookum Jim" Mason, one of the discoverers of the Klondike, in Seattle on December 6, 1917, according to the wife, he did so for her money, believing her to be a wealthy heiress. But the late "Skookum Jim" before his death apparently had prepared for just such a contingency and at the time of his death in Vancouver, B. C., several years ago, he was reported to be a millionaire. He is said to have left a large amount of his fortune in a trust fund for the use of his daughter with certain restrictions. His daughter was given many of the advan-

tages of wealth, including private tutors, travel and musical training, and is now an accomplished violinist. Her marriage to Ebbert was a war romance, he being in the army at the time. Soon he was called overseas.

According to the complaint for divorce Ebbert refused to contribute to his wife's support. She told the court that when he found she could give him nothing out

Spring Exposition

This occasion dramatizes the beautiful and the new in apparel modes for Spring. The spirit of freshness usually associated with the new season, is interestingly portrayed in Coats—Wraps—Suits—Frocks—Hats—and smart accessories designed to enhance the beauty of Spring costumes.

Even the glad note of lower prices is in harmony with the thrift tendencies of the times.

Spring Wraps Are Wholly Charming

Graceful affairs with butterfly sleeves of more practical kinds favoring tailored lines are showing.

Designed for protection in the early spring months and yet not too heavy for wear all through the summer.

Many have graceful cape collars gathered full at the back.

Light weight velours, gabardines, tweeds and other soft piled fabrics are desired, while greys, tans, navys, and biscuit shades find many admirers.

Embroidery of contrasting shade or self color adds charm to some of the more dressy models.

One such Coat or Wrap as these should have a place in every woman's wardrobe.

Springtime Is Costume Time

This year's exposition modes show a very pleasing variety of styles.

Particularly smart and typical of the new season are the many variations of the unbelted jacket; some are box, others hang in ripples.

Smart sashes are showing on many of the nice suit skirts.

For women of more conservative taste, semi-tailored models, slightly fitted or loosely belted, will be in demand.

Serges, Twill cords and Tricotines are all favorite fabrics, and are often handsomely embroidered or braided.

Navy and other blues are predominant.

Frocks Display New Color Charms

There are dozens of new Spring models in silk or wool, with a dash that is just what is wanted in a Spring Frock.

Clever little frocks with basques, some laced up the front, others finished at the neck with roll collar, are combined with voluminous skirts and follow the influence of the Spanish costume—there are frocks of slim graceful lines, too, so becoming to the youthful figure.

Taffetas, Satins, Meteor Crepes, Tricotines, Serges and other fabrics are appealing.

Colored ribbon sashes, striped fringes, soft lacey vestees, and vivid motifs, one notices on a hasty inspection.

Spring Hats Bloom With Color

Whether one thinks of a smart turban, Russian or Hindoo, a Directoire bonnet, or a large drooping shape, there are many models in each leading style, wonderfully trimmed, well made, correct in every detail and moderately priced for the quality. Vivid multi-colored effects brought about by dashes of handmade, embroidered or appliqued flowers—glittering cellophane—smart ornaments, and ribbon fancies used in various ways lend a distinction wholly desirable.

These hats add a cheery note to the suit and are particularly charming with the new season's frocks.

Spring Wardrobes for Girls and Tots

It is interesting to see how new Spring styles are reflected in apparel for very small girls—Gay little Coats and Reefers, lovely childish frocks—in cloth—silks and tubables, and all sorts of hats are youthfully simple yet always modish of style. These are suitable models for girls from 2 to 13.

WAR ON CROP DESTROYER.

Washington, March 16.—The Mexican bean beetle is the only bad little girl of the "lady bug" family U. S. government farm experts decreed in announcing reprisal warfare against the new crop destroyer, actively particularly in Alabama, Colorado and New Mexico. All other "lady bugs" are classed as "beneficial insects," but the bean beetle from Mexico feeds on plant fertilizers and the government has \$100,000 to spend in running it out of the United States.
