salves and ointments, especially Burdock Ointment. Ointment soothes and heals. In many, the different classes of disease recommended, so that the casual purchaser in case he should...

MILBURN'S BURDOCK OINTMENT.

This Ointment is indicated for curing all Itching Skin Diseases such as Scald Head, Eczema of Salt Rheum, Tetter, Erysipelas, Shingles, Ringworm, Piles, Itching Piles, Internal and Bleeding Piles, Granulated Eye-Lids, and all kinds of Itching Skin Diseases.

in evidence of blood impurity, Milburn's Burdock Ointment of the local irritation, it is also of the disease in the blood should be eliminated from the system. In the worst cases of impure blood ointment means failed. It will be sent free on receipt of 25c to Milburn Co., Limited, Toronto, Ont.

BOY MISSING.

It is supposed to have been Drowned While Playing on Barges. New York, May 6.—Henry Kreig, 6 years old, of West 38th street, and Thomas O'Neill, 6 years old, a playmate, left home to go to Sunday school. When the O'Neill boy returned alone, Kreig's parents asked for an explanation. The O'Neill boy said that he had gone to the river at the foot of West 40th street, and were playing on the barges, when suddenly he heard a splash and when he looked around he saw no where to be seen. The boy's father is confident that the boy was drowned.

The father says that he has had the boy work during the past winter, but was so hard that he was not able to buy his own suitable clothes, and he was ragged. On several Sundays the boy stayed away from Sunday school because, he said, the other little boys made remarks about his ragged, calling him "Tatters." This time when he was to go to school he went to the house in obedience to his father's command and to go to Sunday school, but seems that he could not face the contents of his companions.

AFTER TWO MONTHS.

Not His Wife and Afterwards Committed Suicide—They Frequently Quarrelled. (Associated Press.) Bedford, Pa., May 6.—Jessica King of Millbush, was shot and killed, and her husband, who was an officer, attempted to arrest his wife through the heart of the matter almost instantly.

The couple quarrelled considerably during their brief married life. Mrs. King spent part of the time during the last fortnight at her parents' home. Yesterday she returned to her husband and another quarrel ensued, when the young wife declared she would leave her husband for good. This morning Mrs. King made ready to depart, and her husband, unable to persuade her to remain, secured his revolver and shot his wife in the body. King then went to his father's house, told what he had done, and angrily declared he would return and finish the job. In the meantime Mrs. King managed to make her way to a constable who was sent to arrest King. He immediately shot himself, dying about ten minutes later.

THE STRIKE AT SCRANTON.

New York, May 6.—A. L. Truesdell, president of the Delaware, Lackawanna & Western railway, when asked yesterday about the strike of the company's employees at Scranton, said: "I understand that all the men employed in the car repairing, blacksmith and paint shops, to the number of 1,000, have struck because we suspended an American employe. Their action was very unjust because the man Hicks grossly disobeyed the company's rules in quitting work and leaving the grounds without a permit. I am not informed whether the men will go back to work or not. If they do not their places will be quickly filled. Their going out will make a real hardship for us for several weeks to come, because our rolling stock is now in first class condition."

IRON WORKS COMBINE.

New York, May 6.—The official statement promised in connection with the formation of the Union Iron Works, San Francisco; the Bath Iron Works, Bath, Maine; the Newport News Shipbuilding & Dry Dock Company, of Newport News, and Lewis Nixon, of Newport, was not made today. At the office of H. W. Poor & Co., who are financing the combination in connection with a group of bankers and brokers, it was said that the statement would be given out on Wednesday.

BANK STATEMENTS.

New York, May 4.—The weekly bank statements are as follows: Loans increased \$900,000, deposits increased \$221,000, circulation decreased \$18,000, legal tenders decreased \$344,800, specie decreased \$4,855,100, surplus, \$10,000,000; decrease, \$5,779,675.

NEW CANAL TREATY.

(Associated Press.) London, May 6.—The Associated Press has been officially notified that the draft of a new Suez Canal treaty. It is understood that the treaty is not yet ready for signature.

Sensational Charges

Chinese Allege Terrible Mortality Since Arrival of the Allies.

Million Natives Reported to Have Been Killed or Starved to Death.

New York, May 6.—The latest mail from China, says a Washington special agent, has brought to the attention of the Chinese government, the terrible mortality since the arrival of the Allies. The Chinese allege that the Allies have killed or starved to death a million natives. The Chinese government has not yet made any official statement on the matter.

The question of the raising of the indemnity, though one of the most serious, is not the only one. All the people who are able to know, declare that the Chinese government can stand no greater burden of indemnity than the past, so the question of collection, which in China is an immense and intricate mining and industrial system, is a matter of great importance.

In consequence of the continued postponement by the Japanese minister of finance, Viscount Yamamoto, of the carrying out of the expected public works, the cabinet crisis reached a climax on Wednesday, and Marquis Ito, the Premier, after the cabinet meeting, proceeded to the palace and tendered his resignation to the Mikado. All of the other ministers of the cabinet did likewise with the exception of the minister of war, Baron Kodama.

TWO LYONCHINGS.

Saravapat, La., May 4.—Two lynchings are reported in specials to the Times. At Rhodes, twenty-four miles above here, Felton Briggan, a negro, was lynched for assaulting and brutally abusing a six-year-old child. He is supposed to have been lynched by negroes to whom he confessed his crime.

OBITUARY.

London, May 4.—Mr. Stanley Leighton, who had represented the Conservatives of the Oswestry division of Shropshire since 1874, died at 61 this morning. He was born in 1837.

CANADIAN PRIZE WINNERS.

Buffalo, N. Y., May 2.—The show of carnations opened in the horticultural building today, and will continue until the 8th. There are 2,000 plants shown by 200 exhibitors. Among the awards are: Best carnation, Mrs. J. G. Gammage & Sons, London, Ont., class 9 (extra fine); second award, J. Gammage & Sons, London, Ont., class 2; John H. Dunlap, Toronto, Ont., class 5; third award, J. Gammage & Sons, London, Ont., class 4; John H. Dunlap, Toronto, class 7.

THEY USE AUTOMOBILES.

New York, May 3.—Several of the large brokerage houses employ automobiles now to carry messages from their stock exchanges to the vehicles can be seen during the busy hours of the day rushing along the streets to Wall street offices carrying messenger boys and brokers. The rent for an automobile during the business hours is \$10 a day.

AGREEMENT REACHED.

Cleveland, O., May 2.—J. C. Gilchrist, credited with being the largest individual vessel owner on the lakes, to-day reached a settlement with the striking marine engineers. The fleet owned by Mr. Gilchrist's trust consists of 46 steamers, besides a number of barges. It is understood that he granted the full wage scale presented by the engineers.

MARCHIONESS MARRIED.

London, May 4.—Dorothy, Dowager Marchioness of Ailesbury, who as Dolly Tester of the Gaiety theatre, married the late Marquis of Ailesbury, was married again on March 29th, at Shanghai, to a Scotchman named Webster.

DOCKMEN ON STRIKE.

Genoa, May 6.—In consequence of a dispute regarding their hours of labor, the dockmen have gone on general strike, except at the Sanbenigo landing.

THE SENATE MAJORITY.

Ottawa, May 6.—By the death of Senator Ross, the Conservative majority in the senate, after all appointments have been filled, will be nine.

ARE YOU HAUNTED DAY AND NIGHT?

Mind and body racked and tortured by evil forebodings, gloomy and dull, robbed of their rest, sleep, appetite gone, nerves shattered, generally debilitated? This is none too dark a picture for great South American Nerve to obliterate and drive away these gloomy thoughts of the sun of perfect health. Sold by Dean & Hiscocks and Hall & Co.—108.

WELCOME RAINFALL.

Salt Lake, Utah, May 4.—For over 36 hours almost the entire Rocky Mountain and inter-mountain regions have been soaked by a rainfall that in many places has gone far beyond all record storms. The miles of waste forming the deserts of Utah, Southern Nevada and Northern Arizona, and New Mexico, have received a drenching, the like of which has never before been known. Places that have seen no rain for years are filled with water, streams that have almost entirely dried up in the past years of drought are now raging torrents and low-lying farms and grazing lands are covered. In districts where irrigation has been the only means of bringing moisture to the soil, the only question now is how to keep the water out, and reports of broken dikes and embankments and flooded farm lands are numerous.

SMELTERS AT GRAND FORKS.

Mayor Manley Says Granby Company Contemplate Extensive Additions to Works. Converter Plant Now Being Built—Railway Survey Parties in the Field.

Mayor Manley, of Grand Forks, is in the city, having business with the government in connection with road matters. He believes that the town, of which he is chief magistrate, is upon the eve of great prosperity. This year J. H. Hill will build the Vancouver & Eastern railway from Kettle Falls via Marcus to Grand Forks, and re-crossing the international boundary, will continue the line to Republic, Mayor Manley says. At present there are seven engineering parties in the field in connection with the line, and on the 15th day of May the contracts for building will be let. He says that the station will be located about a quarter of a mile from Grand Forks, which will be made a divisional point, with branch lines radiating from it.

The Granby Smelter company, which has the privilege of using certain streets, and to operate by steam or electric power, was organized on Monday night. The company asked for a bonus of \$50,000, with the privilege of using certain streets, and to operate by steam or electric power. While there seemed to be little opposition to granting the bonus, the members of the council objected to allowing the company to run cars on the street, but many loaded cars down as can be drawn back empty.

At present the capacity of the Granby smelter is put at 600 tons a day. Two furnaces now used to have four additional ones added, which will make the capacity of the works 2,000 tons a day. In addition to this, he says that a converter plant, 160 feet long, is being built. Machinery is being installed which will have a capacity of 2,000 tons a day, and which may be doubled to meet the demands should a second smelter be erected by the company, as contemplated. The converter is to be erected at the end of the smelter, so that the molten metal will be allowed to cool. Enlarging the capacity of the converter to 4,000 tons, it is in the plans of the company, he says, to manufacture copper wire and plate at the works, and perfect schemes for utilizing the by-products. The pay roll of the smelter when completed with six furnaces, will be \$45,000 a month, which, with \$5,000 of a monthly pay roll in connection with the converter, will make a total of \$50,000 a month paid in wages. With the advantages which Grand Forks is to possess as a smelting center, he says that it is generally believed that James Breen, formerly of Northport, will erect a smelter at Grand Forks. The Granby converter being erected will prove a strong inducement for him to do so.

OBITUARY.

London, May 4.—Mr. Stanley Leighton, who had represented the Conservatives of the Oswestry division of Shropshire since 1874, died at 61 this morning. He was born in 1837.

THE EXPOSITION.

Mexicans Celebrated Yesterday—Laying Plans for Memorial Day. Buffalo, N. Y., May 6.—There is no special programme for to-day and in fact for the present at the Pan-American ground. The band concerts and the electric illumination beginning at dusk, and which will probably be the feature of the show, will be given daily. At the present time there are upwards of 20,000 incandescent lights burning nightly and the wiring of many buildings has only begun.

Yesterday was Mexican fourth of July, and it was celebrated by the Mexicans on the Midway. The Hawaiians held religious services during the day. Plans are being perfected by the exposition management to make the observance of memorial day in Buffalo the most notable in the history of the city.

The day will be one of the most memorable on the exposition programme, and it is hoped will revive interest in the observance of the day as originally intended. Distinguished orators will take part in the ceremonies, and there will be an imposing procession in connection with these exercises.

The list of conventions scheduled for Buffalo to date shows that from May 15th to November 12th, 140 conventions have selected Buffalo as their meeting place.

ANOTHER TRIAL.

Southampton, May 6.—Shamrock II had a second spin to-day, and the result supports the view that the cup challenger is vastly superior to the old boat when close hauled, but the old boat can travel equally fast when sailing before the wind.

A fresh equally northeast wind promised just the conditions Capt. Slemmons desired to supplement Saturday's light breeze trial. The challenger set a club topsail and the Shamrock I set a match larger club topsail. They had the wind dead at down the water. The challenger went out under main and topsail only. The Shamrock I set a jib.

At the start the challenger ran out ahead, but the Shamrock I, catching a better breeze, soon began to overhaul her. The challenger set a jib and a staysail, but though the breeze here was light and the water smooth, Shamrock I held close to wind, losing nothing from Slemmons' tactics. They were hauled into the wind and reached along in a fresher breeze, the challenger leading by half a minute passing the light.

Dennis Coughlin passed away at the general hospital, on Monday night after a brief illness. He was 67 years of age, and came to Nelson in 1882 from the city of Ontario. For several years he had been bridge foreman of the C. P. R. in this district.

A number of cases have been set down for trial on Monday night after a hard day's work, shall have a place for rest, from which, if necessary, escape will be easy, and that some person or persons be directed, in such cases, to institute a search for the bodies of missing persons.

Provincial News

GREENWOOD. The turbulent waters of Boundary creek claimed another victim on Wednesday, when Hugh Sweeney, aged forty, fell from a pontoon bridge above the railway station and carried by the swift current below Anacosta before being taken from the water. "Old Hughie," as he was familiarly called, was janitor at the Auditorium.

The company asked for a bonus of \$50,000, with the privilege of using certain streets, and to operate by steam or electric power. While there seemed to be little opposition to granting the bonus, the members of the council objected to allowing the company to run cars on the street, but many loaded cars down as can be drawn back empty.

At present the capacity of the Granby smelter is put at 600 tons a day. Two furnaces now used to have four additional ones added, which will make the capacity
