HAZEN. (Fredericton Gleaner.)

The St. John Telegraph is not disposed to think that Mr. Hazen was justified in saying to an interviewer in Montreal that his party in the provincial legislature, though small in numbers, really represented the will and wishes of the people of New Brunswick. Nor yet will our contemporary agree with the view so general porary agree with the view so generally expressed that the Emmerson government would not have been returned to power at the last general election had it not been that an amount of money was corruptly spen at the polls to save it. Why did the government abanple. Why did the government abandon its policy in connection with permanent bridges, and accept the policy laid down by Mr. Hazen if it were not that it recognized the fact that Mr. Hazen voiced the opinion of the great majority of the people? Why did it admit and endorse the wisdom of Mr. Hazen's view on the provincial fran chise, one man one vote, a view which the members of government would The explanation is in the belief of the members of the executive that Mr. Hazen had public opinion behind him.

And the same applies to other ques-tions or matters of public concern in ed. Mr. Hazen was quite accurate in every expression he made in his Mon-treal interview; and if the Telegraph's independent enough to voice the truth, it would find food for thought in the official report of the proceedings and debates of the last session of the pro-

vincial legislature. Inhale Bentley's Liniment for cold in the head. Price 10c.
