WOODSTOCK, N. B., THLRSDAY, AUGLST 2, 1860.
NUMBER 4.
 The PeE
was the med
tatesemen all
phere :-
He understaod thoroughiy creery branech of the
cotton trate. Ho instruoted lis sons limeself he hind no diones in his hives He loved to impress
on thair ninds the great national importanee of this wising manuffecture. Ho was 4 reflecting nan who looded ahead; a plaia-spol.en, simplie-
minded wnit, not iliterate, nor vulgar sther in angungo,maimicis, or mind, but possesiag no roinemencut in lis taites, free from niflectation, and
with uo dadire to imitate the namners or mode of with uo dedire to initate the m.anners or mode of ife of a elass qubve liss own. Hiss wis rececmbled him, and a strent likencss pervaded hew hiord-
fanily; they wre, without ene exception hard-
 men of buisaess' roserved and shy, wourding king, pertaps too mueh, from public service and
puidic wotice, and it may be too much nevoted to puitio uotice, and it may be too much nevoted to
thie cellin joy of a private station. They were

Phyibw on Mummis.- Thagreat Review of the
Hy organiz d, datikd before the Royal prexecice.0,000 soldiers ehould have ben under arms
,ythin the epace of $a$ week, end we linve sominever, nuother bup to be taken. and Monday nextHecting on Whetpedon-conmon will manuguratethe adop tion of a new national wappen, and of afornidable tharpethooter. There has been no- furmidable slarpetaoter. There has benn no

quen the coanccition, and fromthat hour
ifle-shooting we trust to see tuke its plee among

We have still our advantages left, if we wilh
but inprove them. That national spirit of ind-
cbendence and self-reliance which has produced
100,000 Volunteors since June last will serve
100,000 Voluuteors since Juase last will serve
better then auything elso to convert these. Volanteers into genuine marksmen. It is the main
element of military porfection, and the more delicate the weapon the more important becomes thic
intelligence of the zolicier. A man who of his own freo will and private resolution has aceepted
the duties, adopited the custume, and subnitted to the duties, adjhec the custume, and suh nitted tim-
the traning of a soldior, will find rery litte difi-
culty in in tasiag onc step more, and makinglimself master of fis, weapon. Besides, it cannot be tenied :.at ne lave a rurn this way. Not lad in the country, but has felt the irresistahle nt
traction of a gun. Fow but have tasted at some
