

THE WEATHER.

Maritime—Moderate variable winds, fine and moderately warm. Toronto, Ont., Sept. 12—Fine seasonable weather has prevailed today throughout Canada except that a few light showers have occurred in Manitoba.

The Sunken Bell Buoy.

The old bell buoy near Partridge Island was lifted slightly Saturday afternoon by bitter Labeys. It still rests on the bottom, but is not now deeply imbedded. Two scows and the tug boat Mildred were used to lift it. Another attempt will be made to day.

Preparing for Big Game.

Preparations are being made by local sportsmen for the big game season which will open next Wednesday. Mr. J. C. Belyen and Mr. John Sayre will leave this morning for Chipman from which place they will go into the woods after moose. This is one of the first parties to leave the city.

Leaving for Sackville.

At the close of the meeting of the Centenary church Sunday school yesterday, Mr. F. R. Murray, the superintendent, expressed regret that Frank and Roland Smith and Grant Smith, three of the most prominent scholars and workers in the class and Epworth league were leaving the school. They are going to Sackville this year.

A Painful Injury.

Mr. Thomas L. Reid, of the postal service, while entering the door of his home in St. James street on Saturday evening tripped on the doorstep and fell, cutting his forehead. A deep cut was inflicted over his right eye. The wound, though painful, is not of a dangerous character.

To Enter the Ministry.

Mr. George Gilbert Walker, son of the late Dr. A. B. Walker, will leave today for New York, where he will pursue a course of study in preparation for his ordination to the Anglican priesthood. Mr. Walker has been accepted as a candidate for orders by the American church, which does a large amount of work among colored people.

Champions and Trophy.

A large photograph of the Maple intermediate champions of St. John, together with the trophy which they won is attracting attention in McMillin's drug store. The trophy is a handsome one, standing about 18 inches high and represents a boy mounted on a regulation tripped on the base of the pitcher. The Maples deserve a good deal of credit this year, as out of 35 games played they only lost 4.

Fainted on Brussels Street.

After walking all the way to the old Catholic cemetery and back, to witness the decoration day services of the A. O. H., Mrs. J. Adams, of Brussels street, was struck yesterday afternoon. Mrs. Adams is quite an old lady and though advised not to make the journey to the cemetery insisted upon going. She was picked up by some friends who were passing and carried to her home where she recovered after a short time.

Daring Robbery in Wellington Row.

Mrs. Herbert S. Schofield of Seelye street while on her way home from a shopping expedition Saturday had a handbag containing her purse snatched from her grasp by an unknown man who rapidly disappeared. The theft occurred on Wellington Row, and was a most daring one. Mrs. Schofield describes the thief from the glimpse she caught of him as being an old man of middle height. Judging from the activity he showed in escaping with his booty, however, it is believed that he was disguised. Up to a late hour last night the purse had not been recovered.

Owned Nine Houses.

The death of James McGivrey in the Provincial Hospital on Friday morning removed one who was long a picturesque and well known figure in that section of the city north of Union street and south of Waterloo. Handicapped mentally and by the lack of education, Mr. McGivrey succeeded in amassing considerable wealth, and at the time of his death owned nine houses in Brussels street. He is survived by one brother, John McGivrey of Upham, Kings county who arrived here Saturday and took the body to Upham for burial.

Funeral of Mr. Michael Kelly.

The funeral of Mr. Michael Kelly, who was killed in an accident on the steamer Ortha on Wednesday evening, was held yesterday afternoon from his late residence, Broad street. The funeral was largely attended and many prominent citizens walked in the procession. The Longshoremen's Association, of which the deceased was a prominent member, marched in a body, and six of the members acted as pallbearers. The body was carried to the Church of St. John the Baptist, where service was conducted by Rev. J. W. Holland. The funeral procession then returned and proceeded to the corner of Sydney street, where it disbanded. Interment took place in the New Catholic Cemetery.

Motor Boat in Trouble.

Some excitement was caused about town on Saturday evening when it became known that the tug Maggie M. had received a telephone message that a motor boat was drifting about the bay at the mercy of wind and tide. The message, which purported to come from Partridge Island, stated that the boat contained a man and two women. The Maggie M. got up steam and went down but when she arrived could find no trace of the boat and returned to the wharf. Several motor boats then started on a hunt for the craft, but could find no trace of her. Eventually it was learned that she had landed safely at Blue Rock. The parties who were on board stated that they had run out of gasoline and had signaled the island. No boat was available there so the message was sent to the city. By the time the tug arrived on the scene the motor party were safe on shore, having found enough gasoline to serve in the emergency.

ROUGH IN CARRIAGE WHEEL; HIS LEG WAS WRENCHED OFF

Little Ronald Campbell, Aged 6 Years, The Victim Of Shocking Accident In Duke Street Saturday Afternoon—Mrs. Mary Holman, Driver Of The Carriage—Boy May Recover.

Caught in the revolving wheels of a carriage and whirled around and around, little Ronald Campbell, aged 6 years, was the victim of a shocking accident in Duke street on Saturday afternoon, when his right leg was torn completely off at the knee, suffering besides a compound fracture of the thigh. The little fellow is now resting easily in the hospital, and though so horribly injured, remains bright and cheerful and has good chances for recovery.

The injured lad is a son of Mr. Percy W. D. Campbell, bookkeeper for the N. B. Telephone Co. Ltd., who lives at 166 Rockland Road. Mr. Campbell's first wife, mother of Ronald, died some years ago and his second wife being a sister of Mrs. Jarvis Wilson, 40 Duke street, Ronald was spending the day there. He had been playing about in the afternoon with two little boys named McDonald and Wilson and just before 6 o'clock a close carriage, driven by Mrs. Mary Holman, 16 Queen street, came along the street. Mrs. Holman had taken her sister for a drive and was walking the horse slowly up Duke street to the stable on Charlotte street.

The three little fellows ran behind the buggy and catching hold of the axle-tree followed the carriage. Sad to say, one of the boys, little Ronald had been caught in one of the wheels. Unfortunately Mrs. Holman is hard of hearing and she knew nothing of the occurrence until Mrs. Wilson, who was standing in the street, called to her to stop.

What followed can be told in Mrs. Wilson's own words: "I saw the dark mass entangled in the wheel and whirling around and recognized it at once as a child's body. The carriage was moving but not very fast and I ran out to stop the horse. The boy's body would seem to stop then take another twist around."

"Mrs. Holman seemed dazed and had a slack rein on her horse. I told her to hold him in, and she seemed to resent it, saying 'I am holding him.' I then caught hold of the horse's bridle and told her there was a boy in the wheel. 'Take him out,' she cried. Then I went around and opened to be wrenched off. When I pulled the poor fellow out, we removed his little bloomer leg away from the wheel, the leg itself dropped to the ground completely severed. Mrs. Holman drove away and we did not see her again, though I understand she went to Mr. Moore's to inquire after the boy.

"Miss Pritchard held Ronald in her arms with the blood streaming from his leg and at last she cried: 'Take him Anna, take him.' There were a number of men gathered about but all seemed paralyzed and nobody took the boy from me until Mr. Wilson, who heard the commotion came running up and carried him into Mr. Moore's house."

Doctors were at once summoned and Dr. P. Inches was the first to arrive. He dressed the wound temporarily and Dr. J. S. Bentley and Dr. Stewart Skinner were soon on hand. The boy was suffering terribly but did not lose consciousness until anaesthetics were administered, and the leg properly set. He was then removed to the hospital and afterwards conversed cheerfully with his father, who is almost heart broken as a result of the sad affair.

At Mrs. Holman's home last evening it was stated that she was obliged to take the horse to the stable after the accident and that she told those who were attending the injured lad that she would see them on her return, but that no one remained on the street when she came back directly after seeing her horse in the stable. During the evening also, Mrs. Holman was much concerned and kept in touch with the boy's condition by telephone.

Early this morning, the lad was reported to be resting comfortably at the hospital. He is under the care of Dr. W. W. White.

At a special meeting of the Water and Sewerage Board on Saturday morning the water assessment for the year was passed, and the official statement, which shows an increase of \$22,000 over last year, was filed with the common clerk at noon. Aid. Frink presided and Aid. Kelley, Hayes and Scully, and Councillors Fox and Curran, representing the parish of Lancaster, were present. The city engineer and common clerk, A comparative summary of the statement with that of last year shows an increased valuation of \$435,500 in real estate and \$179,600 in the valuation of stocks in trade. The assessment on stocks in trade this year was reduced by the council from one-half of 1 per cent to four-tenths of 1 per cent, but the amount lost is made up by increased valuations and new assessable features.

Metre charges have also undergone a slight change. The rate was formerly 1 cent per gallon for every 100 gallons. For all quantities over 1,000,000 the rate is now reduced to one-half cent for every 100 gallons. This will effect a considerable saving to large manufacturers and consumers. The department is not charged this year with sewerage maintenance, which has been put back into general revenue, and this saving, together with the increased valuation, has equalized the loss from reductions in the assessment.

The following is a comparative statement of the total valuation of real estate and stocks in trade in the city and parish of Lancaster for water purposes in 1908 and 1909:

Table with 2 columns: Year (1908, 1909) and Valuation. Rows include North, East, West, Lancaster, and Totals. Net increase in 1909 is \$22,450.

Fine Work by Signal Corps. The members of the local section of the signal corps took advantage of the fine weather yesterday to have another long distance practice. One station in charge of Sgt. A. Leavitt set up a heliograph on Pokok hill and the other was established on Anthony's Mountain, near Red Head. The stations were about ten miles apart, and a number of messages were put through. One message consisting of two hundred words was transmitted in twenty minutes, which is a record for the distance.

MOIR'S CHOCOLATES

Butternuts, Bordeaux, Maraschino, Cherries, Caramels, Coffee Creams, Creams, Buns, Almonds, Almondinas, Nougatines, Maple Walnuts, Coconut Pineapple, Jersey. VERY FRESH. Sold in bulk. Any quantity.

THE DRUG STORE, 100 KING STREET, Chas. R. Wasson.

W. H. THORNE & CO., LTD. Market Square, St. John, N. B.

SUITS OF QUALITY A genuinely good suit is "becoming" to the man who wears it—in style and fit as well as the coloring and design of the fabric. "Fit" in men's clothing does not properly mean the same as the fit of a glove, for a rightly made garment drapes the form rather than clings to it. All of which we can explain more clearly by showing you the new Twentieth Century suits of elegance and good taste. "Becoming" suits for men of all ages and differences of outline. Honestly made, skillfully made—made to stand service. Others made specially for us. New Fall overcoats now ready. Have you seen them?

"A Good Place to Buy Good Clothes," GILMOUR'S, 68 KING STREET TAILORING AND CLOTHING. In all the new colors as well as styles at prices that are interesting to purchasers. A Striped Tweed at 30 cents per yard. Surprising value in all the staple shades. Shadow Stripe Satin Venetians at 55 and 60 cents per yard, that are exceptional value. Plain Venetian cloths 55 cents to \$1.40 per yard, all colors. Fancy plaids 30 and 55 cents. Nice for cl. Mren. Separate blouses, etc. Home-spun Tweeds, Satin cloths, Panama Serge, etc. in great variety.

ROBERT STRAIN & CO., 27 and 29 Charlotte Street. St. John, Sept. 13, 1909.

New Fall Clothing THAT YOU SHOULD SEE There is no doubt but you will have to buy a new clothing outfit somewhere this fall. Now you will want to get the best you can for the money. Consistent with style and comfort you will do yourself justice if you buy without seeing our new stock; it has style and snap about it not usually found in ready tailored garments, and the prices, well, we will let you be the judge, but you'll easily see you can save money here.

VOL. I. NO. 145.

QUEBEC WILL STOP EXPORT OF PULP

Province Decides To Prohibit Exportation Of Pulp Cut From Crown Lands Increase In Stumpage

ANADIAN PAPER INTERESTS New York N. Y., Sept. 13.—Quebec has definitely decided to prohibit the exportation of wood cut from Crown lands. In 1909, the Premier of Quebec made a promise that the rate of 60 cents per cord cut from Crown lands would be maintained for a period of ten years intended to carry out that promise. An increase in stumpage charge made until September, 1919. United States Claim.

The Canadian paper-makers are protesting against the provincial authorities' decision to prohibit the exportation of pulpwood from Crown lands, but the American exporters of rights to cut timber from 12,000 square miles of lands represent that the price of pulpwood in 1909, implied a 10 per cent increase in stumpage for the next ten years. The Canadian paper and pulp makers report that the pledge of a 10 per cent increase in stumpage taxes, and that the extension of that privilege to American exporters will retard the development of the Canadian paper and pulp manufacturers who are because of the retaliatory of the United States tariff on paper.

A Question of Dates The provincial authorities are questioning the question whether the exportation of pulpwood on January 1, 1910, the new policy will be applied per annum in revenue. They pointed out that the interests of the Berlin mills property in Hampshire are planning to print paper mill plant at Quebec, and that the International Paper Company has prepared plans for manufacturing paper mills at various locations for paper mills—many of them having a number of its more expensive plants in the United States.

REGRET DEPARTURE OF POPULAR Residents Of Black River Keenly The Apprehend Withdrawal Of Rev. Myers From Their

Special to The Standard. Chatham, N. B., Sept. 13.—The departure of Rev. Myers is expressed by Black River as the resignation of the energetic pastor, Rev. Myers, who made an announcement to this effect on Sunday. The majority of the members of the church will take a positive course in theology. During the past year a fine new church was erected, the mortgage on which was a debt of \$2000 which was cleared off in three years, gratifying to people and past.
