

# GRAND TOURS LIONESS LOVELESS

### Buffalo Jones Tells How He and His Companions Lassoed the Beast in the African Jungle.

New York, June 15.—If anybody has a lingering doubt that Buffalo Jones and his hardy cowboys fire-crackered and lassoed fierce wild beasts in the East African jungle all he has to do is to go down deep into the hold of the steamer Minneapolis and see the big lioness down there. That is about the way Col. Jones put it yesterday when he called up to report that the animal had arrived and to offer to tell how it was done. "You see," said the Colonel, "a little later at the Grand Hotel, I have been all the way out to the ranch in New Mexico since I got back from the other side, and when some coyotes began to eat aspens relative to the authenticity of our adventures I felt it was up to me to come back as a committee of reception and show folks that the lion was real. She is a two-year-old, finest of her sex and kind, and the keeper on the boat tells me she is anticipating an interesting event. In other words," explained the Colonel, "she's about to have kittens."

### Dogs on Trail.

"But you want her adventure. Well, it was near Kijab, Kijab, which is 100 miles from the railroad from Nairobi. We were twelve miles from the station. Our trained dogs, which I had educated to follow lions in the United States, got her trail and followed. She turned and gave fight. I was up with the dogs. Lovelace and Means, my companions, and the two moving picture men were three miles in the rear. When the lioness roared it almost shook the earth and Lovelace and Means, hearing, rode at once to my aid. I was mounted upon a trusty mustang. "Well that critter then stood there and defied us. The lioness then made a fissure in the ground and I threw the rope at her twice ere she disappeared. It hit her, but did not catch. When she had got into the fissure I took a big cannon cracker and threw it into the opening and she came out. The other boys threw the rope first one and then the other, but she went first into a clump of bushes and then into the tall grass. Then it was I and a big rock to the end of a lasso and pulled it over the place where she lay. She began to understand she was powerless against us."

### Bound Helpless.

"Then Means threw a lasso over the hough of a tree, the noose falling above her as she lay in the grass. Next, mounted still upon my steed, I went toward the beast with a forked stock and pushed the noose over her head. She leaped into the air, but I passed on. She all but jumped through that noose, but one of her hind feet caught. Then we lassoed two of the other feet in turn, and she was helpless. She roared and wiggled as she was drawn clear of the ground, but I took a pair of iron tongs constructed for the purpose and fitted to one of the stuffed lions in the British Museum clamped them upon her nose and she was helpless. Then we made a sled, lowered her down upon it, and hitching it to our saddles, cowboy fashion, rode off to the mountains. "And," said the Colonel, "if anybody doubts it now, we've got moving pictures describing the whole thing. We are going to take the animal to Bronx park today."

## PORTER CHARLTON THOUGHT TO BE ALIVE

### London Paper Asserts Missing Husband Of Murdered Woman Is In British Metropolis—Police Have Evidence.

London, June 15.—The Express this morning makes the assertion that Porter Charlton, whose wife's body was found in a trunk in Lake Como, Italy, last Friday, and for whom the Italian authorities are making a vigorous search, is in London. The newspaper, however, does not locate Charlton.

Como, Italy, June 15.—The police are convinced that Porter Charlton is alive. They claim to have indisputable evidence that he was seen on the evening of the day the body of Mrs. Mary Scott Castle Charlton was found in Lake Como. That would eliminate the theory of a double murder and the police do not believe that Charlton committed suicide.

## Hamilton Established Three Great Records

New York, June 15.—In his aerial journey Monday, Charles K. Hamilton established two new world's records and one American record. His was the first flight in the history of aviation ever made in a heavier-than-air machine in which an aviator has flown across country between two large centres of population in both directions in one day. The second world's record, the most remarkable ever achieved, is that Hamilton flew the distance of 86 miles exactly on schedule time. His timetable allowed him 1 hour 50 minutes for the trip to Philadelphia. He did not vary from it even by a few seconds. The flight is also the longest cross-country flight ever made in the United States, and is surpassed by only two.

## FIGHTERS ARE NOT WORRIED OVER PROTEST

### Jeff Slumbered Peacefully After Hearing News That Governor Would Stop Fight—Match Sure Somewhere.

Ben Lomond, Cal., June 15.—The Jeffries camp was in an uproar this evening as the result of Governor Gillett's order to stop the big fight. When Jeffries was first informed that the governor had instructed the attorney general to prevent the fight, he refused to discuss the matter, but later he made the following statement: "I positively refused to believe the story. I do not care what is said or who talked to the governor over the 'phone; I simply will not believe that it is true. I do not know much about law, but my understanding is that we were within the law all right. I will continue my training until I am informed by the promoters that the affair cannot go on."

Jeff is the least perturbed man in the camp. He is the victor of the latest fight in California. Gillett once said he could not stop the fight, so how is he going to do it? I will continue my training until I am informed by the promoters that the affair cannot go on."

## AN OFFER FROM TEXAS.

El Paso, Texas, June 15.—A telegram was sent tonight to Tex Rickard and Jack Gleason by prominent business men, proposing that the big fight be held in the ball ring at Juarez, Mexico. The arena will seat 30,000.

## MISSISSIPPI JOHNSON.

"Only I would rather have it come in San Francisco as I am training here, but if we cannot fight here, I am willing to go any place Rickard and Gleason agree upon." Like Jeffries, Johnson said he could not understand why Governor Gillett had decided to step in and prevent the fight. The colored champion put in a busy day on the beach. He ran 12 miles, punched the bag, and went through various other training performances last night.

## GILETT INTERVIEWED.

Sacramento, California, June 15.—"I have no statement to make other than that contained in my letter to the attorney general," said Governor Gillett tonight. "I only acted after the district attorney of San Francisco reported he would not try to prevent what I deem to be a crime against the state of California and the law. I am sworn to protect from violation. I have been deliberating on this matter for ten days and have gone over the whole thing very carefully. "I have received hundreds of letters, and I have read them all. I am sorry to see it, no matter what people may say or do, and no matter whom it hurts. That is all there is to it."

## Hon. R. L. Borden in Vigorous Address

### Opposition Leader Reveals Dangerous Character of Laurier Policy in Refusing to Allow Canadian Navy to Assist Mother Country in Imperial Wars—\$60,000,000 for Nothing.

Continued from page 1.  
Mr. R. L. Borden—Would our ports and harbors be neutral like our fleet until an order in council had been passed? "I do not care what is said or who talked to the governor over the 'phone; I simply will not believe that it is true. I do not know much about law, but my understanding is that we were within the law all right. I will continue my training until I am informed by the promoters that the affair cannot go on."

Mr. R. L. Borden—Then, inasmuch as our ships, under the conditions mentioned, will be practically neutral, I would like to know whether our ports and harbors will also be neutral in the same way? "I do not understand what my honorable friend means by asking if they would remain neutral. If he means after an enemy has come into our harbor, it will be time to resist them with our fleet."

Mr. R. L. Borden—But if our ships do not attack the enemy when they enter our harbors, on the same principle, may not the enemy's fleet come into our harbor without resistance or attack, without any fear of aggression, surely that can be done. If it is feasible for the country owning those harbors to maintain neutrality on the high seas? "I do not understand what my honorable friend means by asking if they would remain neutral. If he means after an enemy has come into our harbor, it will be time to resist them with our fleet."

Reports were received from all the district executives. The secretary's report was received showing a balance on hand of \$1,000. The following committee was appointed to consider all matters and memorials to be forwarded to the General Conference, this committee included: Rev. Thos. Marshall, Dr.

## HAMILTON MARATHON DISAPPOINTED AT POSTPONEMENT OF MARATHON—BACK TO WORK IN TORONTO POST OFFICE.

A few months ago a Canadian boy, in the person of Eddie Cotter of Hamilton, passed through St. John en route to the Mother Country, where he hoped to enroll his name with those of Sherrington, Len Schales, and other native-born sons of Canada, in the list of world beaters. Unfortunately for his aspirations, the race was declared off for a year, and he was obliged to return. The Hamilton spectator speaks interestingly of his experiences as follows: "I was in London, where I was in the day with Eddie Cotter at Burlington yesterday. Eddie, I know, arrived home from the old land on Saturday, looking fit as the proverbial apple, but greatly disappointed at what he terms 'his luck.' Eddie had a grand trip, however, and is pretty well satisfied, although naturally he did not like the course events took for him when the English Marathon was postponed. Eddie trained at Southall, in Middlesex, where he is boasting South-all all the way, endeavoring to have Mike Ryan decide to prepare there for his race next week, and he quartered at Brighton, where Mike Murphy trained the U. S. Marathoners for the Olympic race is good enough for him. "Mike, you know, has been across the pond with a couple of Yale-Harvard track teams, and he quartered at Brighton. They trimmed the Cambridge-Oxford combination each time, and then our Marathoners made the best showing in the Olympic race, and they were trained at Brighton. It seems to be a lucky spot, and I guess it will do for me." Ryan and Cotter are old friends, having met in England at the Olympic games. "I ran for several miles with Ryan and Cotter in the Olympic race," remarked Eddie, "and I was glad to see that Mike had won the Spector race. It is a great trip that the Spec. gives the winner, and Mike should have a couple of good months next spring." Eddie went back to work this morning in the Toronto post-office, where he is thought a great deal of.

## GRAND FALLS TRANSFER

Fredericton, June 15.—The negotiations for the transfer of the Grand Falls Company's interests in the water power at Grand Falls to the rich syndicate headed by Sir William C. Van Horne of the Canadian Pacific Railway, have not been completed as yet, but probably will be within a comparatively short time. Under an order-in-council issued some time ago by the Provincial Government, today, June 15th, was the last day for the company to post the \$100,000 in cash or bonds required by the order-in-council. The company had not done so, and the order-in-council was commended in order to protect the rights of others in expropriation proceedings.

## WORLD'S MISSIONARY CONFERENCE IN SESSION

Edinburgh, June 15.—The delegates to the World's Missionary Conference which organized the international meeting today, The sessions proper opened with much enthusiasm. A feature of the day was the presentation of the report of the commission on "Carrying the Gospel to all the non-Christian world."

The commission says that opportunities which have been neglected in the past are the reproach of the Church. The Church in Christian lands, says the report, needs energizing that it may carry on the work. The commission urged that an international committee be formed and that a great movement to carry Christianity into every region with increased force be undertaken.

"The utter inadequacy of the present missionary force to discharge effectively the duty of world-wide evangelization is evident. There should be nothing less than a vast enlargement in the number of qualified workers, a thorough and courageous adaptation of means and methods to meet the situation, a wise unification in plans and forces, and a wholehearted fulfilling of the conditions of spiritual power."

Receiving the second largest number of votes, Rev. M. R. Knight, Bayfield, was re-elected secretary, though expressing the desire to be relieved of the duties of the position, which he has held for several terms. Rev. D. R. Chown, Nashua, was re-elected journal secretary, and Rev. H. S. Young, Long Reach, was re-elected statistical secretary. Rev. E. E. Styles, Pownal, was chosen assistant journal secretary. Assistant statistical secretary will be appointed this afternoon.

The election of officers was the chief business of the session. The report of the nominating committee was received and laid on the table for further consideration. Rev. Dr. Flanders, St. John, Rev. G. E. Styles, Fairville, and Hon. Justice McKewen, St. John, were on motion added to the board of trusts.

In the course of the morning, Rev. J. W. Atkins, one of the secretaries of the temperance and moral reform department of the church in Canada, was formally introduced to the conference. He spoke briefly, but with address the conference, at greater length later in the sitting.
