Child Had

Once people get acquainted with the wonderful control which Dr. Chase's Syrup of Linseed and Turpentine exerts over bronchitis, whooping cough, roup and colds it is not easy to persuade them that anything else is "just as good." This is why the imitators never get very far. In 1902 Mrs. Eugene Iler, King St., Truro, N. S., wrote as follows: "From an infant one of my children was troubled with bronchitis, and the least cold would aggravate the trouble. We could not get anything to help him, and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis we used it, and are glad to state that it effected a complete cure. If any of the children take a cold or cough I give this medicine and have never known it to fall build.
