## Around the City

## Postponed.

The Women's Canadian Club lecture, "In the Hands of the Huns," announced for this evening, is postponed owing to a change in Dr. Bourcier's date of sailing.

## Supply Restored.

The water supply to the County Hospital was restored Wednesday night after a stoppage of three weeks. It had been found necessary to replace about a dozen joints of pipe that had been split by frost.

## Fredericton Boy Scouts.

The boy scouts connected with the Fredericton troops held a meeting last evening in the F. H. S. assembly room. S. M. Bruce was in the chair and Prof. Keirstead gave a most interesting lecture on "Loyalty," which was very much enjoyed. It is proposed for the boys to have a hike to the woods tomorrow.

## Fire in Rethesay.

Shortly after seven o'clock yesterday morning a fire discovered in the basement of W. H. Schofield's residence on the Hampton Road, Rethesay. Neighbors quickly responded to the alarm and forming a bucket brigade, after hard work, extinguished the fire. Considerable damage was done.

## The Fish Market.

Fish still continues to be scarce though the demand remains the same. Yesterday halibut sold for 28c, a lb.; haddock, cod and mackerel, 15c; smelt, 18c; lb.; capereaux, 10c; herring, 30c; a doz.; lobsters, 12c; each; tinman haddies, 15c; lb.; boneless cod, 18c; lb.; flounders, 10c; each; salmon, 25c; to 35c; a lb.; bass, 18c; to 20c; a pound; salt cod, 10c; a lb.; salt herring, 50c; a doz.; oysters, 90c; a quart; clams, 25c; a quart.

## The Primecrest Matter.

The Primecrest Farms, Ltd., assigned yesterday to G. H. V. Belyea for the benefit of creditors. An application was made to the courts yesterday to be allowed for the present to dispose of the milk provided at the farm. The liabilities are not yet been revealed, but it is said that the value of the assets compare favorably with the liabilities. The Provincial Bank is among the creditors, but has been fully protected by a trust bond.

## New Spring Suits.

Now is the time to select your spring suit, and if you wish it can be laid aside until you want to wear it. The stock being shown at F. A. Dykeman & Co.'s was contracted for when prices were one-third less than they are today, and repeats will cost very much more. That is one reason why you should select your spring suit from the first shipment. The styles being shown are very attractive. The suits are made from serges, poplins, taffetas, broadcloth and velours. The prices run from \$15.95 to \$45.00.

Premier Murray Praises F. W. Sumner. Premier Murray, in speaking at Moncton of his visit to England, recently, spoke particularly of the good work of Mr. F. W. Sumner in reorganizing the New Brunswick government office in London. The office of no other provincial government in Canada, he declared, is in such close touch with its provincial troops at the front. Mr. Sumner has taken great pains to keep a line on the New Brunswick overseas, especially those wounded and confined to hospitals. The hundreds of appreciative letters which have from time to time appeared in these columns, are a significant proof of that fact, as is also the further evidence that New Brunswickers in London invariably held straight for their home office.

VICTORIA RINK CARNIVAL. Tuesday, February 27th. Don't forget VICTORIA RINK GRAND CARNIVAL, Tuesday, February 27th.

## DR. CAMPBELL LAYS BARE CROWN LANDS GAME OF DESPERATE OPPOSITION

Good Government Candidates Get Splendid Reception Last Night in Tipperary Hall, North End—That Part City Strong for Party of Progress.

"I shudder to think what the late Sir Leonard Tilley, the father of responsible government, would say if he could but learn of the commission scheme proposed by the opposition for the administration of the Crown Lands in this province."—Dr. J. Roy Campbell to the electors of the North End in Tipperary Hall last night.

Notwithstanding the many other attractions in the city last night, a large and enthusiastic audience greeted the four government candidates in Tipperary Hall. All the speakers were well received and the frequent applause tendered to each man as he laid bare the graft and corruption which characterized the operations of the old regime, evidenced the fact that the good people of North End are strong in their support of the Murray Government.

## Many Young Men Present.

Among the audience could be seen many of the younger generation of the city. This is tangible evidence that the young men, for whose interest the government has always worked, are united in the one determination, viz.: to give the province clean, honest and upright administration.

Harry Green made an efficient and capable chairman. Before introducing the first speaker, he made reference to the splendid work that Philip Grannan and Major L. P. D. Tilley had done while in the legislature. He said he felt sure that they along with the two new candidates, J. Roy Campbell and F. L. Potts, would be sent to Fredericton to represent the city of St. John at the next session.

## Philip Grannan.

Philip Grannan, the popular candidate of the North End, was the first speaker. He was given a grand ovation. Mr. Grannan referred to the honor bestowed upon him by the electors in the last election. He said that while at Fredericton he had always to the best of his ability fought for the interest of the people of the city as well as the province in general. He resumed his seat amid loud cheering.

## F. L. Potts.

"Every day after the house meets at Fredericton if you read the morning papers you will know that F. L. Potts is your representative in the House of Assembly at the capital."—F. L. Potts at the grand government rally last night.

Mr. Potts said that it was the duty of the citizens to send to Fredericton men with clean hands, men who had made a success of their respective professions and vocations. He emphasized the fact that the Hon. J. A. Murray had an honorable record. "No one can point a finger of scorn at the first premier of the province." Mr. Potts said that he had always tried to fulfill every pledge that he had ever made to the public, and he would continue to do so. He said that he held the highest respect for the leader of the opposition, W. E. Foster, and he had no hesitation in saying that any man who voted for that gentleman was doing him a serious injury by linking him up with the veteran political buccaneers who played with the natural resources of the province until driven out by the people.

## Dr. J. Roy Campbell.

Dr. J. Roy Campbell followed Mr. Potts. Dr. Campbell received a grand reception when he arose to speak, and measured by the deep interest which the audience manifested in his speech, St. John will have another gentleman of legal ability in the House of Assembly for the next four years.

Dr. Campbell made special reference to the scheme proposed by the opposition for the administration of the crown lands of the province. He said it was infringing on the rights of responsible government, prior to the advent of the Hazen administration, twenty-four years to collect the same amount of revenue from the crown lands as has been collected by the good government in the last eight years," said Dr. Campbell. "And," continued the learned lawyer, "this alone is sufficient for you to support the government which has the interest of the people of New Brunswick at heart."

Dr. Campbell pictured the agriculture department of the old government as a room containing a picture of a horse and an empty ink bottle. He referred to the splendid work of the government within the last eight years. He said that they had established agricultural societies, and had, by a progressive policy, transferred the agriculture department under the opposition government from a dead flow into a bright and educational department. He spoke of the high character and integrity of the Hon. J. A. Murray with whom he has been associated in a business way for the last twenty years.

L. P. D. Tilley was the last speaker. He clearly placed before the people the present financial condition and showed them the need of economy, not only in domestic affairs, but also in the affairs of the province. He spoke of the necessity of sending men to Fredericton who would look

after the interest of the returned soldiers. "With the influx of emigrants after the war and the return of our own men the government will be called upon to enact some very important legislation, and it is your duty to see that capable men are sent from this city to do this," said Major Tilley. Major Tilley concluded his speech by appealing to the electors of the city to send a solid ticket for the good government at Fredericton.

The meeting closed with three hearty cheers for the candidates.

## THE MAN ON THE STREET

The Man in the Street stood waiting for a car. A stranger noting his dejected expression did ask the reason.

"You see," replied The Man in the Street, "I'm a Liberal and things seem to be going bad with us."

"Cheer up, the worst is yet to come," replied the stranger, and went his way.

The Times says "The friends of good government are wearing happy smiles these days."

Why shouldn't they, knowing it is going to be sustained?

The Man in the Street met Pat, and thinking to do a kindly act, offered him a copy of the Times.

"Phawt for would Ol read the folks of that?" asked Pat.

"Why not?" asked the Man in the Street.

"Shure now, Ol'm not listenin' to the teachin' of any one that sells their birth-right."

"Not their birth-right? Pat?"

"Bejapers now, ye can call it what-ever you like. Anyhow they sold their right to free speech and thought."

Ye see, Sor, it was lolkie this, the editor of that paper, which ye can put back in your pocket, did for a price, turn on and dabble the hand that had been feedin' him, and d'fawn on and praise them that he had defied, and divid the bit can he put anything in that paper that don't suit the one that paid the price."

There is a reason why the Telegraph and Times are so angry because so many people are willing to handle The Standard.

A man was seen doing a lightning dash down Union street the other day, and being asked the reason for his haste replied: "I have just got my wife's new hat from the milliner and want to get it home before it's out of date."

The last of his reply was faint in the distance as he wheeled the corner.

There is a reason why the Telegraph and Times are so angry because so many people are willing to handle The Standard.

A man was seen doing a lightning dash down Union street the other day, and being asked the reason for his haste replied: "I have just got my wife's new hat from the milliner and want to get it home before it's out of date."

The last of his reply was faint in the distance as he wheeled the corner.

## TILLEY AND CAMPBELL ADDRESS FREIGHT MEN

Major L. P. D. Tilley, M. L. A. and Dr. J. Roy Campbell addressed a gathering of the Railway Freight Handlers' Union in their rooms, Union street, West St. John, between six and seven o'clock last evening. The speakers were introduced by J. A. Brittain, the business agent of the union, and the speakers received a most cordial reception.

PATRIOTIC GIRLS.

Much credit is due to the Misses Dorothy Riddick and Vera Perry who presented the West End S. C. A. with a splendid sum of \$25.55 realized from the lottery on a home-made centrepiece. The lucky number drawn was 231. Anyone presenting this ticket to the president, Mrs. A. W. Fraser, 96 Duke street, West, will receive this prize.

Owing to the war many articles are being given to a greater extent than formerly. Gundry's experience shows a strong demand existing for Cigarettes Cases, Signet Rings and Military Brushes. A grand selection of these articles is always kept in stock. The famous Wrist Watch is also shown in many styles.

DIED.

WOODROW—On November 1st, 1916, at First Eastern General Hospital, Cambridge, England, from wounds received in France, Eugene Elmer Woodrow, youngest son of Mr. and Mrs. Victor J. Woodrow, 61 Market Place, West End, leaving his parents, one brother and three sisters to mourn.

Funeral from his parents' residence on Friday afternoon, 23rd inst. Service at 3 o'clock. Funeral at 3.30. Friends and relatives invited to attend.

SHAW—At her residence, 41 Elmwood street, on February 20th, after a lingering illness, Ethel Elizabeth, wife of William J. Shaw, Notice of funeral hereafter.

ALLAN—At Vancouver, B. C., on the 21st inst., suddenly, Margaret A. widow of the late Harris Allan. Notice of funeral later. Fredericton and Boston papers please copy.

## GRANTS WILL BE TAKEN UP ON MONDAY

Corey and Stevens Allowed to Make Cash Deposit Instead of Maintenance Bond.

The common council met in committee yesterday afternoon and decided to take up the grants on Monday next, to allow Corey and Stevens to put up a cash deposit instead of a five year maintenance bond in connection with the Main street paving, and to accept from them a three year bond instead of a five year in connection with their work on North and South Market streets.

The mayor called the meeting to order at 4.30. Commissioner Russell was absent owing to illness.

The mayor asked the council to set a time when the grants would be dealt with and it was decided to take them up on Monday.

Commissioner Fisher reported that Corey and Stevens who had placed the granite paving on Main street were unable to obtain a five year maintenance bond as required by the contract and had offered to make a cash deposit of \$500 instead and he moved that this be accepted. Carried.

Commissioner McLehlan moved that the installation of the sprinkler system on the Mill street, and suggested that an eight-inch main be laid in Drury Lane and these systems be fed from this rather than from Mill street. Commissioner Wigmore will prepare an estimate of the cost and submit it to the council.

Commissioner McLehlan brought up the installation of the sprinkler system on the Mill street, and suggested that an eight-inch main be laid in Drury Lane and these systems be fed from this rather than from Mill street. Commissioner Wigmore will prepare an estimate of the cost and submit it to the council.
