NEW YORK, Dec. 13. Michael Brophy, 40, an Irishman, given Silk Department stablishes the fact that CRERRY PROTORAL will and does relieve and cure the afflicting d sorder of the Throat and Langs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases o consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs the foreranners of more serious disease, it save unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections which are easily met at first, but which become incurable, and too often fatal, if neglected. Ten derlungs need this defende; and it is unwise to revithout it. As a safeguard to children, amit the distressing diseases which beset the Throat and Chest of childhood, CHERRY PROTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them.
